

HEARST WON'T PLAY IN BILL BRYAN'S BAND

POLICE SCENT A MURDER

BODY OF BOY FOUND IN BIN OF
GARBAGE CREMA-
TORY.

SAN FRANCISCO, July 11.—Working on the theory that John Buchneff, fourteen years of age, son of garbage sanitary reduction bin of garbage sanitary reduction works last night, was murdered and the body thrown into the bin to conceal evidence of the crime, the police today placed August Delmonte, an employe of the plant, under arrest pending an investigation. A post-mortem examination of the body showed that death resulted from a wound in the head described as one that might have been made by the prong of a rake or small caliber bullet. No bullet was found. The police have a theory that the lad was playing about the bin when ordered away and did something to anger some employe of the plant, resulting in his being struck on the head. It is thought possible that when the seriousness of the lad's hurt became apparent the assailant later threw the body into the bin, hoping it would be consumed with the mass of debris, thus protecting him from the consequence of his act.

MEXICANS SENTENCE AMERICAN TO DIE

CITY OF MEXICO, July 11.—Antonio Felix, a detective from Los Angeles is under sentence of death on the charge of kidnapping. Some time ago the Los Angeles man went into Lower California and captured a Mexican. Antonio Martinez, wanted in California on a murder charge. It is said that Felix did not wait for extradition proceedings to bring his man across the border, but drove him across the line in a carriage. Later Felix was captured on Mexican soil and tried and convicted by the court of Ensenada on the charge of kidnapping this being punishable by death in Mexico. Felix has appealed his case.

FIRE DESTROYS SCHURZ HOTEL

(By Associated Press.)—SCHURZ, July 11.—The almost new hotel belonging to V. D. Snowgoose was burned to the ground Wednesday evening. A small blaze was communicated to the outbuilding of the hotel, used as dining-room and kitchen, and in another moment the adjoining refrigerator and cold-storage building was ablaze. The main building soon caught, and although there was on wind, the fire burned fiercely, the flames leaping to a height of several hundred feet. Owing to scarcity of water, there was no way of checking the flames. The guests of the hotel escaped in their night clothes, although some lacked even these, owing to the hot weather. The hotel was the pride of the town of Schurz, was a well-appointed, two-story frame building, with twenty sleeping rooms, parlor, lobby and baths. Proprietor Snowgoose had occupied the hotel only since April. The property was partly covered by insurance. Several other buildings on adjoining lots were destroyed, together with their contents. The total loss is estimated at \$18,000.

MUSTAIN FAILED IN THE ATTEMPT

(Special to the Bonanza.)
GOLDFIELD, July 11.—The attempt on the part of Terry Mustain, of Tonopah, who recently whipped Jack (Twin) Sullivan, to put Jack Burns to sleep in ten rounds failed of accomplishment, and Burns is to the good \$500 on a side bet and the gate receipts. It was claimed by Mustain's friends that their man sprained his hand in the second round when he had his man groggy. Again, in the eighth, the Tonopah lad had him going, but Burns was on his feet still in the tenth, and Referee McDonough awarded the money to Burns.

HUGH BROWN BACK FROM CONVENTION

"TAFT IS THE NEXT PRESIDENT"
WAS HIS TERSE COMMENT.

Attorney Hugh H. Brown, who was a delegate to the Republican National Convention, returned home yesterday afternoon. After the adjournment of the convention he went still further east to cities to which he had been called on business. Talking of conditions in the East, Mr. Brown said: "The wheels of industry have begun turning, and business conditions are certain to improve from this time on. The great Pennsylvania railroad system is now sending from the upper Ohio Valley to the West train after train of freight cars that have been idle for the past year, the evident purpose being to take care of the vast crops which they are now harvesting. The Baltimore & Ohio has ordered 35,000 tons of steel rails, to be delivered within the next six months, and the Atlantic Coast line has placed an order for 12,000 tons. New York City during the last week in June, has ordered 10,000 tons of structural steel. The Great Homestead Steel Works is now resuming operations after an enforced period of idleness, giving work to thousands of heretofore idlers. The starting up of these works means a great stimulus to business. "I am advised that the money accumulations in Chicago are very heavy and that the banks are seeking borrowers. Money was offered to Pittsburg people at 4 per cent. It is needless to say that within a short time a portion of this will find its way to the West. "It is amazing to know how well posted Eastern people are on mining conditions in Nevada. Many complained of questionable corporate methods in the State and decried wildcatting, and over-capitalization, but they are not holding a grudge against us, but charge it up to their own gullibility and unbusinesslike methods of investing before investigating. They are aware of the fact that we are building local reduction works all over the State and figure that the low grade ore on the dump, together with the high grade, can be worked to a much cheaper advantage, and that next year will place Nevada at the top of the gold-producing States. "As to the political situation, the Chicago convention nominated the next President of the United States. "In my travels I came in contact with all classes of business and professional men, and almost to a unit they expressed themselves that it would be outside of the range of possibility for Bryan to win. Non-partisans contend that Bryan is a great American, a brilliant man, but he is not endowed with Presidential qualities. The business man of the East invariably consults a political man, the black States representing the Re-

Friends of the Democratic Nominee Disappointed Because Editor Refused to Accept the Olive Branch Tendered By the Presidential Candidate.

(By Associated Press)
NEW YORK, July 11.—William Jennings Bryan and the Democratic ticket will not have the support of William Randolph Hearst and his string of newspapers. Hearst has not openly announced his opposition to the Democratic party, but his New York newspapers today declare that the people have lost confidence both in the Democratic party and in Mr. Bryan. This is taken as indicative that Hearst and the Independence party will nominate a national ticket at the Chicago convention the latter part of the month and that Hearst's syndicate of newspapers will urge the cause of his own party. This is a disappointment to the friends of Bryan, who, upon reading Bryan's editorial defense of Hearst in the Commoner, believed that a truce had been effected.

STATES OF CENTRAL AMERICA IN THROES OF A REVOLUTION

MANAGUA, Nicaragua, July 11.—The Nicaraguan government presented a complaint to the Central American Court of Justice, located at Cartago, Costa Rica, based upon the allegations that the governments of Guatemala and Salvador rendered assistance to the revolutionists of Honduras and Nicaragua refugees who were allied with them. This fact the Nicaraguan government alleges menaces the peace of the Nicaraguan Republic. President Zelaya is organizing an army to protect the Nicaraguan frontier and a request was sent from Port Cortes, Honduras, for Mexican warships to protect Mexican interests. Serious engagements are expected. The rebels captured the towns of Nacaone and Bien. Santa Rosa and Copan are menaced. The revolutionists were victorious.

Nicaragua and Honduras Charge Guatemala and Salvador With Violating Treaty Stipulations.

WASHINGTON, July 11.—The efforts of Mexico and the United States are being exerted to prevent violations of neutrality by any of the Central American countries. A report, as yet unconfirmed, states that there is an invasion of Honduras territory by Guatemala.

FOUR RAILROAD EMPLOYES KILLED

DENVER, July 11.—Stepping from a Colorado & Southern track to avoid a train, four employes of the bridge building department of that line was instantly killed this afternoon by a swiftly running electric car on the Denver and Interurban electric line. The prohibition wave is sweeping westward in one of the principal saloons in Chicago is the following placard posted conspicuously: "Hush little barroom. Don't you cry. You'll be a drug store. Bye and Bye." "I am glad to return to the desert country, with its life-giving climate and away from the torrid, humid East," said Mr. Brown.

ROYAL PRISONER GRANTED FAVORS

BERLIN, July 11.—The chief judge hearing the case of Prince Philip Zu Eulenberg, who is charged with perjury in connection with the "round table" scandals of last year, has replied to the continued attacks of the press charging that the court was treating the princely prisoner more leniently than was the custom with prisoners in ordinary walks of life. This morning he called together the official reporters of the court and said he wished them to make public his declaration that the prince was treated in a manner different from other prisoners only on account of his ill-health. No other consideration influenced the court. The court continued today the taking of testimony. The state's attorney has appealed to the prince to speak out and cease his denials, but this appeal remains unanswered.

MUST RESTORE RAILROAD CREDIT

FRONTENAC, N. Y., July 11.—An appeal to all bankers to work together to restore railroad credit as a means of overcoming the effects of the recent period of financial depression, was made today by Chas. Elliott Warren, president of the New York Bankers' Association in his annual address at the opening of that organization. "Public antagonism to corporations and particularly to railroads must cease," said Mr. Warren. "Capital invested in railroads is today performing the greatest service in the United States and is receiving the least return for it." Mr. Warren said he regarded all the signs of the times as pointing to a general revival of business. Heaving that the agitation against the racetracks now going on around the bay cities will finally result in the abolishment of racing and betting there, negotiations are under way here to purchase the old fair grounds from Nevada. The movement is backed by James May and Joseph Short, well known residents of Reno, but they are believed to be acting for Californians.

RENO MAY BE RACING CENTER

RENO, Nev., July 11.—Reno may be made the center of the racing interests on the Pacific Coast. Be-

TORRID HEAT IN THE EAST

CHICAGO EXPERIENCES THE
HOTTEST DAY IN SEVEN
YEARS.

(By Associated Press.)
CHICAGO, July 11.—The highest temperature in seven years was recorded at Chicago today, two deaths and numerous prostrations resulting. The hottest day in Chicago was experienced on July 21, 1901, when 103 degrees was recorded at the government observatory. Today the record there was 96 degrees, but on one street eleven thermometers registered 4 to 7 degrees higher.

THREE DEATHS.
ST. PAUL, July 11.—Three deaths resulted from heat at St. Paul and one at Minneapolis today. The maximum temperature was 92 degrees.

DENIAL BY MRS. GOULD.
NEW YORK, July 11.—Mrs. Frank J. Gould said today there had not been and would not be any reconciliation with her husband, and her divorce suit would not be dropped.

(By Associated Press.)
TEGUCIGALPA, July 11.—The government troops will make an attack upon the revolutionists at Gracias tomorrow. The revolutionists, it is believed, number 300. They captured the city after three and a half days of fighting. General Gutierrez, at the head of a thousand volunteers, will also make an advance upon Choloteca, which 500 rebels secured a few days ago and are now holding.

(By Associated Press.)
TEGUCIGALPA, Honduras, July 11.—The government of Honduras today instituted a suit before the Central American Court of Justice, which opened at Cartago, Costa Rica, May 25, against the Government of Salvador and Guatemala, charging them with violation of treaties signed by the states of Central America at Washington last winter.
