Startling Revelations in Connection With Killing of a Wealthy Woman By Alleged Robbers Near Bishop.

BISHOP, Aug. 6.—The preliminary examination of Peter Snyder, charged with the murder of his wife last Sunday night, has been set for next Saturday. Many circumstances are just coming to light through an investigation by the officers which makes it appear that Snyder was concerned in the murder. The tale he tells of being held up by five or six men has been disproved by evidences of but one man's tracks near the scene of the murder. These tally exactly with those of George Avjerinos, foreman for Snyder, who was missing from the camp at the time of the murder.

BISHOP, Cal., Aug. 6.—Conspiracy is now believed to be at the bottom of the killing of Mrs. Fannie Snyder, who was shot Sunday night, while riding with her husband on a lonely trail leading from Andrews Camp in the high Sierras to South Lake, and all day District Attorney Dehy has been investigating.

He accompanied Snyder, the woman's husband, over the route of the shooting and had the deputy sheriff from Independence also at work ferreting out the mystery. The posse of armed men that left here yesterday for the mountains returned today convinced that the man described by Snyder as being the murderer, is nowhere to be found and the suspicion that some deeper conspiracy lies at the bottom of the shooting is fast gaining ground.

During the funeral of Mrs. Snyder yesterday the husband of the dead woman fainted at the grave or apparently fainted, falling backward heavily to the ground, but the attending physicians upon examining the man expressed their doubts as to the genuineness of this fainting.

The large fortune left by Mrs. Snyder has added more than anything else to the doubt that she was shot merely by the accidental bullet from two highwaymen. The officers are bending every effort to unravel the strange mystery which shrouds the entire case.

An unidentified Greek left this morning for Mina and orders to have him arrested at Mina were sent out later in the day.

So far this is the only arrest made in connection with the shooting.

ELECTRICIANS ARE NOW OUT

(By Associated Press.) WINNIPEG, Aug. 6.—Tonight all the Canadian Pacific railway shops are in darkness owing to the refusal of electricians to work with non-union laborers. Three coachloads of strikebreakers reached here from St. Paul and Chicago today and added to the Japanese used in the round houses and the Italians in the yards caused the usual activity about the yards. The chairman of the local strikers authorizes the Associated Press to say he has reliable information that a carload of strikebreakers left Chicago yesterday. Pickets report about 300 men in the yards from the United States. Reports of some minor depredations along the line are coming in. One store house was burned and one engine run into a pit.

DELMAS LEAVES THE COURT ROOM

SANTA CRUZ, Aug. 6.—After subjecting Mrs. Theophilus Noel, wife of his client, the millionaire proprietary medicine manufacturer, to a tormenting cross-examination today, Attorney D. M. Delmas suddenly took umbrage at a letter which the woman submitted in evidence and quitted the court room disdainfully. "I can not see why it is put in," declared Delmas, after he had glanced over the letter, which was a tirade of abuse written by Noel to the wife. "I can not see why it was put in except to gratify a desire to wound some one's feelings, and if the court will excuse me I will not be a party to its public reading."

Then, with Delmas in the van, the counsel of Noel, including Henry C. McPike and W. M. Aydelotte, stalked dramatically from Judge L. F. Smith's court room, while the throng present perked up its ears to catch the language which had been so offensive to the attorney for the man who wrote it.

The letter in question threatened

Mrs. Noel with ruin and disgrace if she insisted on her suit for divorce. The cross-examination conducted by Delmas before his sensitive tastes became offended by the damaging letter was directed toward a review of Mrs. Noel's past life.

The divorce suit brought by Mrs. Noel against Theophilus Noel, head of the Vitae-Ore Medicine company, was begun three years ago. The hearing now on is over an application for \$1000 a month alimony and \$10,000 counsel fees. Delmas and Noel, who are fighting bitterly, are putting up the defense that Noel is not so wealthy as he is purported to be.

MAN INDICTED ON ARSON CHARGE

(By Associated Press.) SAN JOSE, Aug. 6.—The grand jury today indicted Patrick Coughlin for arson. Evidence sufficient to charge him with the burning of the house of F. W. Kemling, at Whitney and St. John streets, on the night of July 16, was found by the inquisitorial body after an investigation covering three days.

Coughlin formerly resided in Kemling's house at the corner of Whitney and St. John streets, and a couple of days prior to the burning of the place he removed his family to another residence, but failed to remove his furniture, on which there was a small insurance.

Half an hour before the blaze broke out in the Kemling house Coughlin was noticed by a neighbor returning from the place. After the fire he could not be located and the arrest followed a couple of days later.

NEW YORK, Aug. 6.—Justice Rogers of Watertown, who was designated by Governor Hughes to hear the cases against the officials of the Brighton Beach Racing association and others, arrested on charges of violating the new anti-gambling laws, today ordered a special panel of 100 talesmen drawn from which to select the trial jury. Stanchfield has been engaged as counsel for the indicted officials of the Brighton Beach Racing association.

SAN FRANCISCO, Aug. 6.—E. H. Harriman, railroad magnate, arrived in Sacramento tonight. In an interview with an Associated Press reporter he said that a morerational feeling prevails throughout the country in the matter of financial conditions. He said: "Production will be much greater throughout the country on the average, and prices will be higher this year. The increased cost in material and labor is responsible for a great falling off in railroad business. I do not suppose there is a railroad of any importance in the country paying a fair return on the money invested. In the matter of assisting the Gould interests we took the action we did to bridge over an emergency. Regarding the ruling of the interstate commerce commission regarding the publishing of rates, I will say the situation is a serious one. The ruling will help steamship lines of other countries operating through the Suez, and practically kill the business of the American lines on the Pacific coast." Harriman will be here for two days. He will give attention to projected improvements. He said the matter of a tunnel through the Sierras has reached a practical stage, but the undertaking of the matter was for the future.

HARRIMAN GREETED BY LONGWORTHS

OMAHA, Neb., Aug. 6.—"We were delighted to meet and greet Mr. and Mrs. Longworth in Chicago last night," declared Edward H. Harriman today during his stop in Omaha. "Longworth is a first rate fellow, and his wife and my daughter Mary became quite chummy during the return voyage from Japan on which they were fellow passengers. "There was no political significance to the meeting, which was impromptu. Mrs. Longworth learned of our presence in the city and called at the station in a social way. When the auto in which several railroad men and myself were riding reached the platform we found the Longworths there and were very glad to meet them again." The call was made at the end of a

day during which the railroad magnate had taken particular pains to say some things quite uncomplimentary about Mrs. Longworth's father and his policies. "What we want is co-operation and rationalism," said E. H. Harriman, as he sat in his private car eating a bowl of rice and milk for his breakfast.

"When will you resume building operations in the west?" he was asked. "Whenever the revenue warrants it. We are ready and anxious just as soon as the returns from our present lines warrant the building of new ones."

"How is business in your territory?" Harriman was asked.

"Don't call it my territory," peevishly answered Harriman. "It's all my territory, just as its any other man's territory. Its all interdependent."

Harriman was joined at Omaha by General Counsel Lovett of the Harriman lines, who went west with the magnate.

BRYAN REPLIES TO VAN CLEVE

(By Associated Press.) LINCOLN, Neb., Aug. 6.—Bryan today issued a reply to a circular issued two weeks ago by James W. Van Cleve regarding the labor plank in the Democratic platform. He declares the provisions in the Democratic platform for the creation of a labor department with a cabinet officer at its head can not possibly offend business men. He also says the platform draws a distinction between an organization of men for the purpose of raising wages and an improvement of labor conditions and industrial corporations formed for the restraint of trade. He says no person will deny two classes of corporation should be treated separately. He says the plank demanding a trial by jury is of vital concern.
