## TURNING OUT THE BEST WORK

The bindery of the Bonanza is turning out the best work in the city, and it is giving such great satisfaction that anyone who has his work done there once, never goes anywhere else. The plant is the finest and most complete, not only in the State, but this side of San Francisco. We can turn out all kinds of work that is demanded in the offices of lawyers, brokers, promoters, mining companies, or for any other kind of business, and we guarantee satisfaction in every respect. One trial will be sufficient to establish the truth of this statement. It pays to go where only the best kind of work is done, and it pays to patronize home industry.

### A PRIMITIVE HOTEL.

Rev. M. C. Dickinson of the Second Baptist church of Hoboken was discussing the war that he had made on the sheath skirt.

"The fact is," said Mr. Dickinson, smiling, "a good many women have lost sight of the purpose of the dress. They are misusing dress as—as—"

"But, listen.

"A friend of mine stopped overnight in a rough mining camp. The sole hotel's accommodations were most inadequate. My friend had no sugar for his coffee.

"Walter," he called impatiently, rapping his tin cup with his knife, "waiter, sugar."

"The waiter took his cigar from his mouth and laid his soiled hand on my friend's shoulder in a kindly fashion.

"Sorry, boss," he said, but ye'll hev to wait a few minutes fur the sugar, which there ain't but three lumps in the house. An' them Redface Leary an' Stump Jerome is usin' jest at present. They got 'em marked and are shakin' dice with 'em. But I'll fetch 'em the minute the boys is through."—Exchange.

### EDITOR REVOLTS.

It is told about a Michigan editor that he grew tired of lying about people in obituary notices, and then have people call him a hypocrite, so he wrote up one well known citizen. We have not been able to learn what became of the editor.

"DIED—Aged fifty-six years, six months and fifteen days. Deceased was a mild-mannered pirate with a mouth for whisky and an eye for boodle. He came here at night with another man's wife and joined the church at the first chance. He owed us \$7 on the paper. You could hear him pray six blocks. He died singing, 'Jesus Paid It All,' and we think he is right, as he never paid anything himself. He was buried in an asbestos casket and his friends threw palm fans into his grave, as he may need them. His tombstone will be a favorite resting place for hott owls."

### EARNED.

Count de Money (as his father-in-law gives him the dowry)—By Jove; the first money I have ever earned in my life.—St. Louis Times.

### TOO LATE.

Bloom—I'm glad I met your wife. She seemed to take a fancy to me. Pecque—Did she? I wish you'd met her sooner.—Exchange.

Corporation seals of every description furnished on the shortest notice by the Bonanza.

## NATIONAL HAS BIG GOLD STRIKE

A phenomenally rich strike of ore was made here today in the Gayer and Donnellson lease. In sinking a shaft a vein of ore was encountered at thirty-five feet showing free gold and silver that is immensely rich. One assay gave the following returns: Gold, \$77,111.10; silver, \$1840.59, making a total of \$78,951.69.

These figures are not bolstered, but are actual. Neither was the sample concentrated or sifted down for the purpose of getting a sensational assay. The vein is about three feet wide and the owners, greatly elated, are going ahead with active work to fully prove up their find.

C. K. Jarvis and J. E. Fleming are in town from National. They recently disposed of their lease on the workman property. In speaking of the camp generally, they stated that many of the properties there were making good and that a number of the leasers were extracting good ore.

"Large bodies of milling ore are being developed at National and we have high grade ore of exceptional richness," said Mr. Jarvis. "On Charleston hill, one of the properties of Mr. Workman, at a depth of fifty feet, where drifting is being done on the ledge, the leasers have encountered extremely rich ore. The strike was made only a few days ago and the immensely rich values in gold is a development of the most favorable kind, as the silver values have greatly predominated in the ores of the district up to the time of the strike."—Humboldt Star.

### AIDS FIGHT ON TUBERCULOSIS.

BERLIN, Aug. 21.—The emperor has given \$24,000 to the Koch foundation for the resisting of the spread of tuberculosis. This donation completes the \$100,000 that Andrew Carnegie stipulated should be subscribed before his gift of a like amount, made last winter, should become available.

### TOOK MONEY FROM BOX.

SAN FRANCISCO, Aug. 21.—Suit for the recovery of \$17,215 in gold coin, which he alleges has been stolen from his safety deposit box, was filed yesterday against the French-American bank of this city by Henry Cailleaud of Sonoma county. Plaintiff alleges that the money was placed in the box on June 18, and that when the box was next opened by him on July 1, the coin was missing.

## BUYING UBEHEBE COPPER CLAIMS

Robert Arna Wood, one of the best known mining engineers of London, England, has been in camp for the past five days. He is here for the purpose of making examinations of copper properties situated in the Ubehebe district, in Inyo county, California, as well as properties in and around Lida. He returned yesterday from making an examination of a group of copper prospects in a district sixteen miles west and south of Lida, and the showing is so good that he advised Mr. James H. Dalton of New York, who is with him, to take an option on the ground. The consideration could not be learned, but it is the intention to commence work at once and drive a tunnel 1000 feet which will cut the outcropping ledge at a considerable depth. Mr. Wood has traveled all over the world making expert examinations, and among one he recommended to his clients was the Highland Boy copper mine in Bingham canyon, Utah, and it has turned out to be one of the best copper mines in the country.

Last night he said to a Tribune reporter: "I have not had time yet to take a look at the Goldfield mines. I am here looking for copper properties. I am very favorably impressed with the copper showing at Ubehebe, and in the section west of Lida. It is only a question of transportation. At the present time the mines can not be worked at a profit owing to the fact that the haul to the railroad is too far and would eat up all the profits. I have been informed that the trunk lines from the south into Goldfield intend to build spurs into the Ubehebe and Lida districts, and in that event it is my opinion, from the short time I spent on my examination, that some great copper producers will be on the map in a short time after the road is completed into the camps. I saw a splendid silver mine on my trip. Owing to the fact that it ran only sixty ounces, with transportation facilities it would turn out a big pay mine."—Goldfield Tribune.

### ROMAN SPECTACLE REVIVED.

MARSEILLES, Aug. 21.—A savage exhibition was witnessed on a private estate near here today. A tiger and a bull were placed in a stout cage and goaded to combat by the spectators.

The bull wounded the tiger in the first encounter, but at this point the police made a descent upon the crowd and broke up the spectacle.
