(By Associated Press.)

CHICAGO, Nov. 11.—The government's petition for a re-hearing of the case in which the United States court of appeals reversed the decision fining the Standard Oil company of Indiana \$29,240,000 for alleged rebating, was denied in the court of appeals yesterday afternoon. It is authoritatively stated that the government will now attempt to bring the whole matter before the supreme court on a writ of certiorari.

Younger Son of Harry Watterson Fell From 19th Floor of Office Building in New York City.

(By Associated Press.)

NEW YORK, Nov. 11.—Harvey W. Watterson, a lawyer, the younger son of Henry Watterson, the editor of the Louisville Courier-Journal, plunged to his death from the nineteenth floor of his office building on Wall street late this afternoon. The body shot downward 110 feet and landed on the roof of a ten-story building adjoining. Almost every bone was broken, his head was crushed and death was practically instantaneous. While there were no witnesses to the tragedy, evidently it was entirely accidental. Watterson's hat and overcoat were on his closed desk. Presumably he attempted to lower the window, and either stumbling over the radiator which was in front of the low sill, or losing his footing in some manner unknown, he pitched forward and down to death on the roof of the building below. Watterson was 30 years old and married. He was the junior member of the law firm of Ewing, Russell and Watterson. A peculiar feature of the case was that Watterson's watch and cigarette case in one pocket and his pipe in another pocket were not damaged by the fall. Mrs. Watterson was prostrated when informed of her husband's tragic death.

TWO VICTIMS OF A BLAZE IN MONTANA

(By Associated Press.)

MISSOULA (Mont.), Nov. 11.—For the third time within two years a disastrous fire today swept the railroad construction camp of Taft, Montana, 100 miles west of here, and approximately a third of the town is in ruins. Most of the buildings destroyed were of flimsy construction. James Bamber, an employe of the Arcade theater, who was sleeping in a rear room of that building, was burned to death. Occupants of rooms above the theater were compelled to jump from second-story windows. Elsie Laurande, a musician, was probably fatally injured in this manner. An incipient blaze was discovered in the Arcade theater at 11 o'clock o'clock last night, but was quickly extinguished. Four hours later fire was again discovered in the same building, but too late to prevent the spread of the flames. A. Green, manager of the Arcade theater, was arrested on a charge of arson. The property loss will probably reach \$75,000.

THE MARKET GETS BACK TO NORMAL

(By Associated Press.)

NEW YORK, Nov. 11.—Today's sequel to yesterday's market performance in two of the Harriman Pacific stocks, opened the eyes of the more conservative element to the fact that speculation was entering on a reckless and hazardous stage. There came a pause to take stock of the situation and the development of greater caution in the conduct of market operators, which was shown by the evident lessening of speculative holdings and decline in rates of activity in the market. Comparison of the action of Southern Pacific and Union Pacific directors in confining themselves to declaration of dividends at the rates which have prevailed for two years, with the brilliant-hued rumors which were kept in circulation yesterday in connection with the volatile rise in those stocks, was a warning that proved sufficient as a check. From 112 1/2, at which Southern Pacific left off Monday night, its rise to 119 1-8 with a closing price Tuesday of 117 7-8 was accomplished by recorded sales at the stock exchange of 201,600 shares. The sales recorded today numbered 183,300 shares, on which the price fell back to 114 3-4, closing at 116. The two days' dealings in Union Pacific reached a total of 460,200 shares. It was reasoning from those facts that caused a hasty unloading of speculative holdings and invited professional attempts which broke the market. No unfavorable news of affairs accompanied the break. Bouds were easy.

GOSSIP ABOUT NEXT CABINET

WASHINGTON, Nov. 11.—Information has reached Washington from reliable sources that Taft will retain Cortelyou as secretary of the treasury and that Loeb, now secretary to the president, will not be in the next cabinet. It is stated that strong pressure has been brought upon Taft by financial and business interests to retain Cortelyou at the head of the treasury department. He has given complete satisfaction to President Roosevelt in the official discharge of his duties and while pleasing the president he has been able to earn the commendation of those large business interests which have to do with his department.

There has been some talk of Meyer, at present postmaster general, being transferred to the treasury portfolio by Taft, but it is stated that Meyer has such business interests that he is not eligible for the place. Many of these interests have been inherited by Meyer and he has no disposition to sever his connections to take the treasury portfolio. It is emphatically stated by the authority quoted in the above that Loeb will not be a member of the next administration in any capacity.

WILL NOT REBUKE KAISER

(By Associated Press.)

BERLIN, Nov. 11.—An exciting debate in the reichstag was concluded this evening with rejection by the majority of the proposition to send an address to the emperor, calling attention to the danger of his majesty's personal intervention in foreign politics. The discussion brought forth expressions from the representatives of most parties. The displeasure of the house was concentrated principally upon Chancellor Von Buelow. The members of several groups refused to accept the chancellor's explanation with regard to the emperor's interview in the London Daily Telegraph as satisfactory, or as offering guarantees for the future, but when the proposition of addressing the emperor formally on the subject was put to the house the government majority did not hesitate in voting against it.

SOME RUSSIAN BARBARITIES

NEW YORK, Nov. 11.—Stories of battles between Russian government troops and the militia organized among the Russian people were told today on the witness stand by Jan Lleit, a former neighbor of Jan Pouren, whom the Russian government is seeking to extradite. Asked why the militia had attacked the government soldiers the witness replied: "Because they had taken two of our comrades, tied them to horses and dragged them, face downward, over the ground." One of these, he said, was Otto Frieberg. The witness described the mutilation of Frieberg's body. He also told of five other bodies that he had seen at the same time. One, he said, had been all broken to pieces.

REPORT OF ARREST PROVES UNFOUNDED

GUTHRIE (Okla.), Nov. 11.—On October 26 an item sent out from Guthrie telling of the robbery of the First State Bank of Falls, Lincoln county, Oklahoma, asserted that George Schmake, the bookkeeper of the bank, had that day been arrested on suspicion of knowing something of the robbery. The reported arrest of Mr. Schmake proves to have been an error. The facts now disclosed show that he was not arrested.

BURBANK SURE HE CAN GROW COBLESS CORN

SAN FRANCISCO, Nov. 11.—Luther Burbank is now engaged in the mightiest labor of his eventful career. He is devoting his wondrous talents and his restless energies to the work of taking the cob out of the corn. Everything that has gone before was merely preliminary to this chef d'oeuvre of horticulture, this acme of hybridization. Minimizing the cherry pit and exorcising the stone from the plum were child's play compared with the tremendous effort of giving to a waiting world the corn without the cob. But Burbank is working in that direction, and has already achieved sufficient results to make him confident of success.

RED HOT SPEECHES IN SOFIA

(By Associated Press.)

SOFIA, Nov. 11.—The national assembly today was the arena of a notable republican demonstration during a debate on an address in reply to the royal message. The cabinet failed to control its own supporters, and several members of the majority delivered the most violent attacks upon Emperor Ferdinand over heard within the walls of the assembly. The growing influence of the crown was denounced as disastrous to the liberties of the people, and the ministers were warned that the nation was in no mood to pay so dearly for a new crown or suffer its interests to be jeopardized for gratification of monarchical ambitions. There were frequent interruptions and calls of "treason." M. Nakoff, representing the Pleuina constituency, declared that Bulgarian independence should have been in the direction of a republic not a monarchy.
