COLE-RYAN INTERESTS LABOR'S FRIENDS.

The Ely Expositor pays the following tribute to Cole-Ryan interests, the proposed builders of the railroad from Ely into this section: "While discussing the entrance of the Cole-Ryan interests into the Ely district a prominent member of organized labor made a statement yesterday which would make it appear that the acquisition of local property by the Cole-Ryan people will have other effects on the district aside from the increase in development which their entrance is sure to make. The Cole-Ryan interests, he stated, are known to union men as excellent employers. Miners as a rule favor working on Cole-Ryan properties, as their past record in Arizona and other mining sections, where they have been operating for some years past, prove that they believe in doing things on a large scale and as an instrument in their success make it a rule to employ first class men and treat all their employes in a manner to make the men entertain a feeling of friendship for their employers. Such facts being true will mean the coming to Ely of an excellent class of workmen and as the quality of its residents has a more beneficial effect upon a community than quantity, where quality is lacking, Ely may again congratulate itself that the Cole-Ryan people have acquired a local foothold."

WHY NOT PROVE THE ASSERTION

Assemblyman Fred Berry, in his letter published in yesterday morning's Bonanza, states that one of his reasons for favoring the anti-gambling bill was that "By experience the expenditure of the state in building up and maintaining the university is very largely useless where its influence is neutralized as it now is by the gambling at Reno—as very many students are given to the habit."

Evidently Mr. Berry has not investigated the affairs at the university very closely or the rules and regulations of that college have changed in late years which is very improbable, for several years ago, and we believe at the present time, students of the university were not allowed inside the saloons or gambling places under penalty of suspension. However, they may acquire the habit by attending those bridge whist parties which are of a common occurrence in the moral city of Reno.

If as Mr. Berry has stated is true, one thing certain, President Stubbs is not the proper person to be at the head of the university. There is something rotten in Denmark or false statements are being made.

TRYING TO INTIMIDATE

The Reno Gazette, the organ of the calamity howlers, is now cartooning younger members of the senate, with probable aspirations for the United States senate. In other words it says to them, "If you are ever a candidate for that honored office, and you vote against the anti-gambling bill, you might as well skidoo from the state. Of course the Gazette is the master of both the Republican and Democratic household in Nevada, that is it is concealed enough to believe so, but the people of this state believe otherwise. The southern section of Nevada holds the political voting key to elections and will admit and oust whom they so please. This legislature has opened wide the eyes of its southern taxpayers and voters and when elections are on the voters will be alert to their interests. To our state senators we would say, fear not the Reno Gazette, the calamity howlers' organ.

The people of Nye and Esmeralda have implicit confidence in their state senators.

BELIEVES IN DESTRUCTION

Speaker Giffen, the midget from Manhattan, seems insane on one measure, that of taking away thousands of dollars of revenue yearly from his home county. He has labored night and day to abolish licensed gambling and now has introduced a bill to abolish the dance hall in Tonopah. The yearly revenue from licenses for both gambling and dance hall amounts to over \$60,000, and that taxation money is badly needed at the present time. If Mr. Giffen would introduce a bill that would benefit Nye county, his constituents would say "blessed." The assemblymen of Nye county were elected to office for the betterment of this county and not for the complete destruction thereof. The business men of this town pray and ask that the bill do not pass.

DUNDERBERG IN BIG ORE BODY

The Dunderberg mine, in the old I X L district, about twenty miles north of Fairview, has tapped a ledge twenty feet wide carrying some very high gold, silver and copper values. The strike was made in tunnel No. 2, and average assays running from \$40 to \$300 were gotten. As soon as the ledge is well opened up a winze will be sunk and drifts sent both ways to determine the size of the ore body. Although shipments will be made, it is stated by those in charge of development work that the policy of the company is to block out reserves rather than ship, with the view of installing a mill on the ground.

The property is owned by eastern capitalists.

Ads in the Daily Bonanza will bring results.

HUGE GYPSUM PLANT RUNNING

MOUND HOUSE, Feb. 27.—The mammoth Adams gypsum plant, located just above Mound House, was started in operation yesterday and is running smoothly today. The vast amount of machinery throughout the great works is seemingly in excellent order, and this process for plaster manufacture will soon be in full swing.

This is the outcome of years of effort on the part of ex-Governor Adams. Securing control of some of the valuable gypsum beds near Mound House, he leased the old Mexican mill at Empire and began to reconstruct it for a plaster mill, making contracts with the railroad to haul gypsum down the hill to the mill.

When the demand for building material followed the San Francisco fire Adams was ready with his product. He afterwards sold the plant and re-invested his money into this more extensive project.

GOLDFIELD WINS HARD CONTEST BASKETBALL GAME

TONOPAH LADS PUT UP CLEVER GAME AND LOSE BY ONE POINT.

The basketball game last night between the Tonopah Basketball club and the team from the Goldfield team by a score of 14 to 13. The game was played in Goldfield and was witnessed by a large and enthusiastic crowd. Throughout the contest the score remained about even and it was impossible to determine who the winners would be until the whistle sounded at the close. An attempt will be made to have this same team come over from Goldfield and play a return match in this city. This should prove a good drawing card, as both teams are about evenly matched and good ball should result.

METEOR PASSES OVER THIS CITY EARLY THIS MORNING

THOUGHT TO HAVE FALLEN WEST OF HERE, NEAR LONE MOUNTAIN.

Shortly after 3 o'clock this morning a meteor passed over this city and disappeared in the west after passing over Mt. Brougher. The arcillite made a most beautiful sight and the huge flaming body illuminated the entire city for several seconds. After it had passed a dull report, was heard and from the course in which it was going, the supposition is that it must have fallen in the vicinity of Lone Mountain. A number of belated wayfarers witnessed the unusual sight, and all are strong in their opinion that the body fell at a spot not far distant from Tonopah as it was traveling low when it passed over the city.

COUNTY COMMISSIONERS TO MEET MONDAY

The board of county commissioners will meet Monday and several important matters are scheduled to come up for consideration. Sam F. Lindsay and W. T. Humphreys, commissioners from Rhyolite and Manhattan, have been in town for the past week consulting with W. T. Cuddy relative to the affairs of the county.

It's NOT Too Late TO SAVE \$100 Every Month

Though January has passed annual statements of foreign corporations can be published and filed in February (leaving a possible fine of \$100 for January only.) Foreign corporations that fail to comply with the requirements of the statutes are subject to a fine of \$100 for EACH MONTH in which they are delinquent. Those who have not published their statements are reminded that any District Attorney may claim the fine by instituting suit against the offending corporation. If the report is not advertised and filed during the month of February, the company becomes subject to a fine of another hundred dollars, and so on for every month in which it is delinquent. Here is the law on the subject, which will repay careful study:

Chapter CVIII.—An act requiring foreign corporations doing business in the state of Nevada to publish annual statements. Approved March 28, 1901.

Section 1. All foreign corporations doing business in the state of Nevada, shall, during the month of May this year, 1901, and in each succeeding year in the month of January, publish a statement of their last year's business in some daily newspaper in the state of Nevada for the period of one week.

Sec. 2. The secretary of the company publishing the statement shall file a copy with the several assessors of the state of Nevada.

Sec. 3. Any corporation coming within the provisions of this act who shall neglect or refuse to file a statement as required by section 1 of this act shall be liable to a penalty of \$100 for each month that the published statement remains unfiled with the several assessors of the state.

Sec. 4. Any district attorney in the state is competent to sue to recover this penalty, or the attorney general. The first county suing through its district attorney shall secure the penalty.

It will thus be seen that there is a stiff liability attaching to a failure to file these reports. The Bonanza furnishes forms to comply with the above law for advertising purposes and attends to filing same with the fourteen assessors of the state. Those interested are invited to correspond with this office at once.
