

TONOPAH DAILY BONANZA

Published Every Morning, Monday Excepted, at Tonopah, Nevada

W. W. BOOTH, EDITOR AND PROPRIETOR.

Member of Associated Press

TERMS OF SUBSCRIPTION

One year	\$12.00	Three months	\$ 3.50
Nine months	10.00	One month	1.25
Six months	6.75	One week35

Subscriptions by mail must be paid in advance.

\$10 REWARD.

A reward of \$10 will be paid for information that will lead to the arrest and conviction of parties stealing The Bonanza from subscribers.

TO SUBSCRIBERS.

Parties who do not receive their papers, or who have any cause of complaint, will oblige The Bonanza by notifying this office.

Entered at the Postoffice in Tonopah as second class matter.

LOW WATER RATE.

The county commissioners of Esmeralda have been given the low water rate of 50 cents per thousand gallons to be used in sprinkling the streets. There will be no dust in Goldfield from now on during the summer months. We congratulate our sister town on the business tact and generosity shown by the Consolidated Water company. How different in Tonopah, for during yesterday's hurricane one could not discern a person on the opposite side of the street. It is a shame and a disgrace for our people to stand by and see the greedy manipulations of the Tonopah Water company in their oppressive charges for water. The water company is on a good paying basis and has a snug sum in its treasury, but the lowering of its exorbitant rates to its consumers seems to be far from its thoughts or intention. There are many small stockholders in the Tonopah Water company who want to know why a dividend is not forthcoming.

NEVADA IS PROUD OF THEM.

Tonopah and Goldfield are two cities in Nevada of which the state may well be proud. Both of them have made wonderful progress and they are the center of mining and business activity in their respective fields.

Goldfield is a splendid example of the great western country and is receiving more attention from the mining world than any other community we know of.

The surrounding country is as rich, if not richer, than any mining district now being worked. She has weathered the storm and is bravely going ahead.

Tonopah has long claimed attention and today is better than ever. Both of these cities deserve the greatest praise and add lustre to the great state of Nevada.—Reno Journal.

If it wasn't for the Associated Press dispatches received by the Bonanza some of the afternoon papers in this district would have a hard time publishing any live news.

KID KRANT AND FRANK FIELDS WILL FIGHT

TONOPAH SPORTS WILL HAVE THE PLEASURE OF WITNESSING GOOD BOUT.

The fight fans of Tonopah will be given an opportunity this coming Friday night of witnessing a fight that should be one of the best ever pulled off in this city. The participants will be Kid Krant and Frank Fields, both of Goldfield. These fighters have been training in the southern city for some time and were to meet on Tuesday night. Owing to the management not receiving the support of the fight enthusiasts of Goldfield they were persuaded to bring the men to this city. Both fighters are well known here, having fought in the Pavilion theater last September, when Krant received the decision in the sixteenth round on a foul.

Krant also met Larry Gordon here last Thanksgiving and the scrap he put up won the admiration of every spectator present at that contest. He is a mixer from the word go and the reports received from Goldfield state that he is in the pink of condition as is Fields, for both have been training steadily. They will weigh in at 145 pounds at 6 o'clock on the night of the contest.

J. C. Osborne, manager for Krant, came over from Goldfield yesterday to make the arrangements for the fight which will be given under the management of W. S. Johnson, who has turned fight promoter in order to let the Tonopah enthusiasts of the roped arena have the privilege of witnessing a scrap, the first to be held in this city since Krant fought here the last time.

Mr. Johnson has contracted for the Eagles' pavilion for Friday night, where the contest will be held. Phil Rogers of Goldfield, who had been selected to referee the match in that city will act in the same capacity here, as he was agreed upon by the fighters when they signed the agreements. Jack Thompson, the well known Goldfield attorney will act as chief timekeeper.

Both Krant and Fields will finish their training in this city and will start Monday. Krant will work out each afternoon at the Big Casino, while Fields will go through his stunts at the volunteer gymnasium.

There is every indication of a crowded house for it has never been said that the fight followers of Tono-

pah did not attend a contest that gave promise to be the real article, even after several farces were pulled off here.

STRIKE RICH ORE AT STILLWATER

A RICH STRIKE IS MADE IN THE MOUNT ANNE DISTRICT BY JAKE GREGG.

Leon Cirac, of Stillwater, was in Fallon last Friday. He brought news of a phenomenally rich strike made recently in the Mount Anne district by Jake Gregg. According to Mr. Cirac, assays have been had from the ore encountered running as high as \$135 and being nearly uniform in richness, the average being around \$100. Mr. Cirac says it is the best surface showing he ever saw in his entire mining experience. Mr. Gregg is now down about twenty-five feet, and is working in a five-foot ledge of \$100 rock. Already he has something like twenty tons of ore on the dump that will go around this figure.

Mr. Gregg has been offered \$5000 in cash and another \$5000 in thirty days if he would part with a quit claim deed to his interests in his find but he thinks he has trekked over our hills until he has a larger account marked up against good fortune than the offer contains. George Gregg and Richard Desmond, brother and brother-in-law are interested with Mr. Gregg in this discovery, and Tom Kenyon, Van Elliott, and the Cirac brothers are among those who were fortunate enough to have located adjoining claims.

The scene of this strike is well within Churchill county, it being located six miles northeast of the Eagleville mill.

A SMALL FORTUNE PAID IN WAGES

Yesterday was pay day in Tonopah and a princely sum, in the neighborhood of \$175,000, was distributed among the miners of the camp. As is usual on these days the banks and business houses cashing the checks were kept busy the entire day making the exchange.

Beia Kadish, who has the distinction of building the first mill in Goldfield, and who is well known in this southern country, arrived yesterday from Los Angeles.

Warren V. Richardson of the National Ice company came over from Goldfield yesterday.

DEPARTMENT CALLED OUT TWICE YESTERDAY

FORTUNATELY NEITHER ALARM WAS OF A SERIOUS NATURE. DAMAGE SLIGHT.

The overturning of a pot of molten slag yesterday at the Tonopah foundry resulted in a call being sent for the fire department. The red hot metal for a time threatened the building, but the employes with the aid of sand and water had the situation under control when the department arrived, which was within a few seconds after receiving the alarm. Two of the men employed at the foundry received painful burns from the slag while assisting in the work of putting out the flames.

An alarm was turned in last evening that brought every volunteer in the city to the scene in a record breaking time. A small building directly in the rear of the residence of Dan Sullivan and next to the volunteer gymnasium was discovered to be in flames. The alarm had hardly been sounded before the department was out and had a hose connected on the hydrant in front of the gymnasium. Driver "Poke" Kelly immediately laid a second line of hose, connecting with the hydrant in front of the Mizpah hotel. A third line was then laid from the hydrant in front of the Butler hall. In the meantime the volunteers manned the hose and in a few minutes the fire was extinguished. No cause could be determined and it is thought the fire started from spontaneous combustion, as the building was used for a storehouse and household articles of every description formed the contents.

From a distance the flames looked as if they were emanating from the gymnasium and the volunteers were not slow in arriving at their headquarters.

MINER IN THE MIZPAH HURT BY FALLING ROCK

JAMES MCCORMACK HAS A NARROW ESCAPE FROM MEETING DEATH.

James McCormack, a miner employed in the Mizpah mine, had a narrow escape from being seriously if not fatally injured last night. He was working underneath a point where the cutting out of a stope had been started, when he was hit by a rock that became dislodged from the roof. The rock bounded from the footwall to a stull and then struck McCormack in the back and on the foot.

He was taken to the Miners' Union hospital in the ambulance, where his injuries were dressed by Dr. Mapes, who stated that McCormack had several ribs broken and also that a bone was fractured in his foot.

FISH TALE HAS A STRANGE END

JIMMIE CLARK'S CONTRIBUTION TO NATURE FAKING GETS HIM LEATHER MEDAL.

Jimmie Clark of Reno, the law-giving disciple of Isak Walton, has achieved a new distinction. He is the author of the biggest fish story of the season. The story told by Clark is like this:

"You know, a few days after the legislature adjourned, we went up the river to fish. I caught a lot of fish. Not too many, of course, but there was one fish, a Yellowstone Rainbow trout that was a dream of a beauty. So pretty was he that I determined to keep him alive. So when I got home he was put in the horse trough, where he was the wonder of the day.

"When the water got low he had trouble to live, but he got used to it. Soon he could get along with only a very little water. He was tame, too, and soon would jump out of the trough at my approach and follow me all around the place.

"All good things must end. The fish was just too pretty to live. But his end was very sad. It came so strangely. One day he followed me, skipping along gaily, until we came to the brook. Somehow, I don't know just how, he got too near, slipped and fell in the water, and was drowned."

To one and all we extend Easter Greetings.

THE TOGGERY Leading Clothiers.

GRAND STAND AT BALL GROUND DEMOLISHED

HIGH WIND YESTERDAY SCATTERS LUMBER OVER ENTIRE DISTRICT.

During the high wind yesterday the grand stand at the ball park on California heights, was completely demolished and the boards scattered over the entire neighborhood. The fence was also blown down and scattered likewise.

With the opening of the baseball season in Tonopah nearly due it would not be a bad idea if a number of baseball fans would meet today and go to the ball grounds and reconstruct the grandstand. A party of about fifty could easily repair the damage during the afternoon and have everything in readiness for next Sunday when the initial game of the season will be played. Let the boys assemble at 1 o'clock on Brougher and Main and immediately after the fire boys' contest march with hammers, saws and nails to the recreation grounds and repair the damages. Fifty men can do the job in two hours. Do it today. Bring your saw, hammer and nails.

THREE TEAMS WILL ENTER RACE THIS AFTERNOON

VOLUNTEERS WILL PARTICIPATE IN INTERESTING CONTEST.

The volunteer fire department will hold their regular weekly racing contest this afternoon on Main street at 4 o'clock. Three hose carts will make a run against time, such as was done on the Fourth of July, and the event is certain to draw out a large crowd of spectators. The volunteers will have different contests weekly so as to keep the boys familiar with their duties and to also interest the citizens of this city and give them a chance to see how the work is done.

NEW ATTORNEYS IN AN OLD CASE

In the case of Gamble against Hanchett, which was decided by Judge Pike some time ago additional attorneys for the plaintiff were entered today. They are Cleveland Baker, present district attorney of Nye county and H. I. Baker.

This case concerns the right of B. A. Gamble and F. C. Chadbourne to exercise an option on the Pittsburg Silver Peak property at Blair, Nevada. The case was decided in favor of Gamble and Chadbourne.

Location notices in triplicate—handiest affair for prospectors and miners—contains carbon—150 notices in book. For sale at the Bonanza office.
