TO SUBSCRIBERS.

Parties who do not receive their papers, or who have any cause of complaint, will oblige The Bonanza by notifying this office.

Entered at the Postoffice in Tonopah as second class matter.

INVESTIGATE THE BANK SCANDAL.

We are glad to note the fact that a number of the state newspapers agree with the Bulletin in regard to the necessity of having Governor Dickerson appoint a non-partisan committee to thoroughly investigate the charges made by Messrs Rice and Teague, of the Reno Mining and Financial News, against Judge Langan.

Such a committee should also include within its scope of operation a rigid investigation of the State Bank and Trust company. Such an investigation was smothered at the last session of the legislature. Are men who rob bank depositors and betray the confidence of their patrons to be placed above the law and not be held amenable to its penalties? Such a condition of affairs is a hundred times worse than the "anarchy" so often referred to by the press when a mob of strikers parade the streets and overawe strike-breakers. For the latter violate the law openly while the former do their work insidiously in the dark, with the best-trained legal talent to assist them.

Governor Dickerson should act at once and appoint a committee which shall investigate and get at the truth in both the State Bank and Trust company failure and that of the Nye and Ormsby county banks. Watch carefully the actions of those who would object to the truth being known about these matters. No honest man—and makes no difference whether that man be a judge upon the bench, a state official or a banker—can have aught to fear from a disclosure of the truth.—Rhyolite Bulletin.

DO THINGS RIGHT IN MANHATTAN.

The Manhattan volunteer fire department is meeting with deserved success. The committees having in charge various phases of work are receiving hearty support and encouragement from almost everybody in camp. There are a few who set up their individual judgment against that of the entire community, but in the main there is an enthusiastic support given along all lines.

The Manhattan Water company is doing a thing that should be considered by others in the camp. When the flames were eating up buildings in the Erie-street fire, the water company opened up every hydrant within reach and sent a man to the pumps so that the supply of water would not fail. When the citizens gathered in mass meeting, the next night, the water company offered gratuitously its water system; yes more, it offered and has already put in a number of fire hydrants without hope or expectation of any revenue therefrom. We believe this is done solely from a public spirit. The results of this public spirited move is important to notice. Within the past thirty days the water company has increased its list of customers by eighty-two! People admire a broad-gauge man or company and in the case of the Manhattan Water company its public spirit and generosity have been rewarded in a substantial manner.—Manhattan Mail.

PIONEER LEASE PRODUCTION IS STEADILY INCREASING

RHYOLITE, April 15.—The compressor plant and new hoist are in commission at the Bullfrog Pioneer lease, and ore is again going out to Springdale in large quantities. It is expected that the lease will be sending out 100 tons of ore per day by the end of this week or soon after. Ore is being extracted from both the 156 and 210 levels, and on either level there is plenty of stopping ground to warrant a large production without further exploration. It is the plan of the management, however, to open new ground as rapidly as possible.

The lease this week is expected to enter upon that big era of production which has been anticipated as the dividend paying era of the leasing corporation.

The values in the crosscut tunnel are increasing as work progresses, and some splendid developments are expected shortly.

A second ore bin, holding 120 tons, has been constructed at the mine, and the Tonopah and Tidewater company has finished the bins, trestles and chutes at Springdale, where the Pioneer ore is loaded.

A. J. McPherson, who has the contract to haul the ore to Springdale, has added several teams to his outfit and is prepared to handle all the mine will give him.

ST. MARK'S PARISH MEETING.

The annual meeting of St. Mark's parish will be held on Monday, April 19, at 8 p. m. All communicants and regular subscribers are privileged to vote at this meeting and are requested to be present. All persons interested in the affairs of St. Mark's are invited. The meeting will be followed by music, and an informal reception in the rectory.

Friday Evening Service—Litanies and confirmation lecture at 7:30 o'clock. Lloyd B. Thomas, rector.

RENO AND V. & T. REACH AGREEMENT

As a result of an unofficial session of the city council of Reno yesterday in conjunction with a special

committee of business men of the city of Reno and the Virginia and Truckee railroad respecting the matter of right of way is practically at an end. According to the agreement determined upon, the railroad is to give the city of Reno a right of way over its tracks on East Second street, a space of land the width of the street, with proper gates for the protection of said crossing, and a right of way through the railroad's land for an approach to the Scott street bridge, on the south side of the river, for all of which the city is to pay \$4875. The city is to maintain these gates and a plank crossing over the tracks and permit the railroad to extend its tracks if it so desires, across the right of way.

PIONEER SCREENINGS.

The Gold Bar Annex hoist is being moved to be placed on the Indiana.

The hoist on the Savage mine began operations yesterday.

A lease on the Pilgrim is being pushed energetically.

C. S. Dempsey of Boston will arrive this week to look after his interests in Pioneer.

There was some little excitement of an important variety in Pioneer and the Mayflower Saturday and Sunday last.

An enjoyable dance took place last night in the new addition to Porter's store in Pioneer.

L. G. Terry of Goldfield is a recent arrival at camp and is now living on First North street.

Thomas Casey of Goldfield has purchased a lot on Second North street and is building a residence which is almost completed.

PIONEER BI-METALLIC.

The Brodie-Bonham, on block 2 on Bi-Metallic claim No. 1, are down sixty feet in the shaft, and samples of the vein show gold in encouraging quantities, and from its appearance will go \$10 to \$12 per ton. Messrs. Brodie and Bonham have incorporated as the Pioneer Bi-Metallic Leasing company, and their stock is in demand by those acquainted with the lay of the ground and their prospects for success.

OFFERS INFANT AS HER EVIDENCE

(By Associated Press.)
NEW YORK, April 15.—Sarah Koter, the young Russian woman charged with shooting and killing Dr. Martin F. Auspits, on August 7 last, pleaded guilty to manslaughter in the first degree when called to trial for her life in the supreme court here today. She was remanded for sentence on Friday.

The crime for which the young woman pleaded guilty was sensational, and the story which the prisoner told shortly after she had killed the physician in the vestibule of an uptown apartment house, aroused wild interest in her case.

She had killed Dr. Auspits, she said, because he had attacked her while she was under the influence of an aesthetic during her term of service as nurse in a sanitarium which the physician conducted.

She brought with her today from Blackwell's Island, where she had been a prisoner, the baby boy born to her since the shooting.

She had expressed confidence that justice would ultimately be done to her. In a statement she declared that she was merely the instrument of God in the killing of the physician, as her efforts to punish him in the courts had not succeeded.

UNCLAIMED LETTERS

The following is a list of unclaimed letters remaining in the postoffice at Tonopah, Nevada, for the week ending April 10, 1909. A fee of 1 cent will be charged on each of the following:

C. H. Hammond and wife, Denver; John Eagen, Goldfield; Charles E. Hood, Millers; M. Kristler, San Francisco; J. A. Cornelius, Round Mountain.

POLICY ADOPTED HERE EXTENDED TO SOUTH

(By Associated Press)
NEW ORLEANS, April 15.—A new era in the attitude of railroads in investigating accidents was inaugurated here yesterday when the Southern Pacific put into effect the policy of giving full publicity to such investigations. Under the new rule adopted by order of Julius Kruttschnitt, a board of inquiry to investigate all accidents is to be composed of three employees or officials of the road and one who is not in any way connected with the company. Newspapermen will not only be permitted to attend the investigation but will be notified of the sittings of the board.

KILLS MAN WHO HUGS HIS WIFE

MARIANNA (Fla.), April 15.—"He hugged and kissed my wife while she was being treated in his office, so I killed him."
After Deputy Sheriff J. V. White had shot Dr. S. B. Alexander today he made this statement.

Dr. Alexander was a prominent dentist. White is in jail.

CELEBRATE POWER DAY.

From advices received from the offices of the Nevada-California Power company it is an assured fact that the "juice" will be turned on in Manhattan not later than May 15th. Will the citizens join in a grand celebration of the event and make it the date from which the real greatness of Manhattan shall start?

THE SAME SOMETHING.

An eastern exchange has something to say about advertising that has a peculiar local interest just at this time. It is this: "Adequate advertising" for a store is coming to be a creed for merchants who have "adequate" business hopes, plans, ideas, convictions.
If there's something wrong about the store's advertising, there's something wrong about the store—and it's the same something.

Hot bread every day at 4 p. m. at City Bakery. 3-19-11.
