The president was the guest tonight at a dinner given by Walter Witherbee on the latter's houseboat which was anchored in the lake off this point. Tomorrow the scenes of the celebration shift to Plattsburg, where the president will again make a brief address and Senator Root will deliver an historical oration.

It was the original intention to take the matter up today, but the inebriety of one of the jurors precluded that possibility. The erring man was jailed in order that he might sleep off his jamboree. It is likely that he will be able to cope with the situation this morning.

One makes it a

## Lease Is Let on Good Ground Chris McCarthy and Harry Epstine Will Begin Operations on A Block of the Jim Butler Company's Ground

The producing zone of the Tonopah district will likely be extended before a great while. Chris S. McCarthy, one of the earliest residents of the camp and a miner of much experience, together with Harry Epstine and associates, have secured a lease on the ground of the Jim Butler company. The acreage secured by Mr. McCarthy and the others was formerly known as the Fraction, being a portion of the claim tacking onto the west end line and the south side line of the West End claim.

By the terms of the lease, the lessees will be enabled to work the ground for a period of two years. Considerable work has been done on the property before it was acquired by the Jim Butler Mining company. The lessees will devote their attention for the present to the Fraction No. 1 shaft, which is now down to a depth of 400 feet. From that level they will drift toward the West End ground in an endeavor to locate the ledge from which on the latter splendid ore is being extracted.

Mr. McCarthy was quite reticent yesterday when seen by a representative of the Bonanza. He held himself to the cold facts of the lease and volunteered but little information concerning his opinion of the ground, giving as his reasons that the time was not ripe for any extended remarks.

Another producer added to the list of good ones in this camp would prove of incalculable benefit. In the working of a lease, nearly every dollar remains at home. And when the period of production begins the amount that finds its way into circulation on the spot is hard to estimate.

Among the amendments agreed to was one exempting labor organizations, fraternal beneficiary societies, and organizations devoted exclusively to charitable and educational purposes from the operations of the corporation tax provisions. An amendment was adopted specifying Canada and the West Indies among the countries included in the discriminating the duty of 10 per cent advantage on imports not manufactured in those countries and introduced into the United States.

#### CHICAGO "SAFE AND SANE."

CHICAGO, July 6.—Unprecedented quiet reigned over the city yesterday and the crusade for a "sane" celebration seemed almost effective as the afternoon approached.
