

Adding Laurels to Her Crown

BATTLEBORN STATE SOON TO LEAD AS A COPPER PRODUCER.

Among the precious metal mines of America two of Nevada's take the lead for dividends paid thus far this year. Goldfield Consolidated, with \$1,059,741 to its credit, leads among the gold mines of this continent, and Tonopah of Nevada, with payments amounting to \$800,000, leads among the silver. Even the gold mines ranking second and third—Maple and Colorado and Home-plate of South Dakota—come after Tonopah of Nevada for the amount of dividends paid since the first of the year.

One of the marvels of mining is the suddenness with riches are accumulated from it. Eight years ago Tonopah was but a name; five years ago Goldfield but a desert waste. How may people who were comparatively paupers before the discovery of these camps can we not count today, some with a competence, others affluent, and still others with enormous fortunes? Less than seventy years ago the luxuriant imagination of the audacious Dumas dared to show his wonderful Monte Cristo with a fortune of quite twenty million dollars. Today the millionaire with no more than twenty millions is quite an ordinary mortal, as millions go. No matter from what source they drew their great fortunes, it was the mines of California, Australia, Nevada, Colorado, South Africa, that made such colossal fortunes possible. And Nevada is again at the fore enriching the precious metal stores of the entire world.

It was the domain of copper that Montana and Arizona led Nevada for the first five months of the present year. But even in the production of that metal the Battleborn state is getting her stride, and the mines of Ely promise to do for Nevada in copper what other mines have done for her in gold and silver. During the month of May but two mines of Butte City, the Boston & Montana and the Anaconda, surpassed the Nevada Consolidated of Ely in the amount of copper produced, the North Butte, the Butte & Boston, the Washoe, the Parrot, the Benton and the Pittsburg and Montana.

When it is remembered that lack of smelting facilities alone prevented the Nevada Consolidated from turning out thus early in its career—since as much as what it did last month, and that the output will in probability be quadrupled within the next two years, and when it is considered also that the Cumberland Ely, the Groux Consolidated, the Ely Central and doubtless others will be added to the ranks of the producers, it may readily be seen that Montana and Ari-

zona have real cause to tremble for their copper laurels that Nevada is on her way to add a crown of copper to the crown of silver and the crown of gold that now deck her brow.

STOCK MARKET

After a respite of several days, the San Francisco stock exchange is again doing business at the old stand. It does not appear from a glance at the quotations that the rest did any considerable good. The market is still very weak, showing no advances that are worth consuming space to talk about. Goldfield Consolidated continues on its downward journey. When it will reach bed rock is a matter of conjecture. The following quotations are received by the reliable brokerage firm of H. E. Epstein:

TOGGERY BUSY DISPOSING OF WEARING APPAREL

The Toggery is one of the busiest places in the city these days. The great slaughter in prices of men's wearing apparel has brought to the store any number of buyers who are taking advantage of the big reductions. The sale is one of the greatest that has ever taken place in Tonopah and every customer goes away with the knowledge of having received his money's worth and a great deal more.

Temperature Report

Yesterday's hourly temperature record at the weather bureau office was as follows:

5 a. m.	67
6 a. m.	68
7 a. m.	73
8 a. m.	73
9 a. m.	74
10 a. m.	79
11 a. m.	84
12, noon	86
1 p. m.	89
2 p. m.	91
3 p. m.	94
4 p. m.	93
5 p. m.	93

The highest temperature one year ago was 80, the lowest 59.

PERSONAL

J. Watt Briggs went to Manhattan yesterday.
Tom Eastman spent Sunday in this city from Ellendale.
The Elleford company leaves this morning for Bishop and other California points.
Miss Grace Oddie leaves this morning for Hermosa Beach, California, to join her mother and sister who are spending the summer there.
L. L. Richard of the Richard Hardware company, will leave this morning for Berkeley to spend the remainder of the summer.
Harry Epstein, who has been spending the past several days in Carson City and at Lake Tahoe, has returned to his home in this city.

You who want your hats made new see E. B. Gray at O. S. Seastrand tailor shop.

JUDGE HENLEY DIED YESTERDAY AT GOLDFIELD

At 2 o'clock this morning Judge Henley died at St. Mary's hospital of heart failure. He had been suffering from vital depreciation for some time and was taken to the hospital at 7 p. m. The physicians labored with him, but could not restore animation which quickly diminished until the last spark gave out.

Judge Henley leaves a widow who was Miss Kate Rosenthal, sister of Ben Rosenthal, of the county clerk's office. The wedding occurred twenty-one years ago, and five children are the result of the union. One daughter was married to Charles Miller, district attorney of Lyon county.

The deceased lived at 219 South Franklyn street and was a member of the Elks and Knights of Pythias. He was a most lovable character and did not have a single enemy. One child of the deceased was drowned in Walker Lake some years ago.—Goldfield Tribune.

MARRIAGE LICENSE.

A marriage license was issued yesterday to Dr. McIntyre, formerly of Tonopah, but now of Manhattan, and Miss Chilton of the northern camp.
