

BUSY DAY IN CONGRESS--MACON WOULD RESIGN, CANNON TALKS, HOBSON APOLOGIZES, BORAH AFRAID TO GO HOME--WHEW!

COOLER HEADS PREVAIL AND ALL IS WELL

STRIKERS WILL TRY TO END STRIKE BY PEACEFUL MEANS.

BUTLER (Pa.), July 19.—Following the advice of cooler heads, the striking employes of the Standard Steel Car company abandoned acts tending toward inciting violence. During the next twenty-four hours they will endeavor to end the strike by legal and quiet means. This decision was reached after the strikers had been refused permission to hold a mass meeting.

DOGS ARE BECOMING A TERRIBLE NUISANCE

The authorities are informed that there is no end of complaint of late on account of the number of dogs of late that are allowed to roam the streets at all hours of the day and night. It is true that the canines in Tonopah render the night hideous with their yelps and yells. Some action should be taken to the end that people who are compelled to work nights may be able to secure their rest.

HENEY PAID FOR SERVICES HE NEVER RENDERED IS THE CRY

(By Associated Press.) WASHINGTON, July 19.—That Francis J. Heney, special counsel of the department of justice, also assistant prosecutor in the so-called graft cases in San Francisco, received from the government last year \$23,000 for which he performed no services, was the frank admission of Chairman Tawney of the appropriations committee in the house today. "As a matter of fact," said Tawney, "Heney hasn't performed any active service for the last three years. He was appointed November 7, 1903, and his active service continued about three years, for which he received in all \$69,000." Clark of Missouri denounced the appointment of incompetent district attorneys which necessitates special counsel. "The practice had grown into a fad, and a very expensive fad." He declared if there had been a competent district attorney or two in the west, there wouldn't have been so much stealing of public lands. Mann, of Illinois said that Heney needed no defense. "The only people who opposed him," he remarked, "are those who sympathize with some of those who have been accused, if not convicted of graft."

GOOD PLACER IS REPORTED IN DEATH VALLEY

Bob Haviland is showing some splendid gravel from the Death valley country which pans freely of gold. Mr. Haviland is interested in a number of placer locations in that region of the earth which has claimed many a victim. He located the ground some month ago and is awaiting cooler weather before proceeding down there to further his investigations. Like many other, he is of the opinion that Death valley will one day prove to be rich in placer gold. The claims from which the gold comes are located at the lower end of the Panamint range in a section that is desolation itself. However, he believes that there is enough placer there to admit of profitable working. The gold is quite coarse, proving that it carries weight and good value.

"My, What Fun in Washington While Taft Sits in the Presidential Chair."

RYAN MUST FACE CHARGE OF MURDER

ORGANIZER OF WESTERN FEDERATION ARRAIGNED YESTERDAY.

(By Associated Press.) LOS ANGELES, July 19.—Albert Ryan, organizer of the Western Federation of Miners, who shot and killed H. E. Snyder, wounded Otto Miller and Michael Lopez at a local hotel Friday night, was arraigned before Justice Frederickson today on a charge of murder. The preliminary hearing was set for July 26th.

Mrs. T. F. Rowland and daughter Miss Irene, left last evening for Tonopah where they will visit for a few days with friends.—Reno Gazette.

If you have any old volumes you wish rebound call at the Bonanza bindery.

(Associated Press.) WASHINGTON, July 19.—The house today passed an omnibus bridge bill and listened to an apology by Hobson of Alabama for having made uncomplimentary remarks last February about Ambassador O'Brien at Tokio. It further considered the urgent deficiency bill. The most serious discussion centered about Francis Heney, now traveling in Alaska, when Chairman Tawney of the appropriations committee made a statement that Heney received \$23,000 for services he didn't render. A lively tilt during the session between Macon of Arkansas, Rucker of Colorado and Mann of Illinois culminated in the announcement of the former that he would resign his seat if it could be proved that he was a legislative obstructor. Rucker was defending his vote for an appropriation of \$25,000 for the president's traveling expenses, which appropriation Macon opposed, when personalities were indulged in by the members of the house. All the Republican members of the tariff conference committee have been invited by Taft to take dinner with him on Wednesday night at the White House. It is assumed the president expects to be ready to report progress in getting votes for the abolition or reduction of duties on raw materials. When Speaker Cannon left Senator Aldrich's room tonight he said the conference committee must frame progress for passing the conference report and that the representatives would have to assume responsibility for their actions. This remark is understood to signify that a binding rule couldn't be looked for to carry an unpopular report through the house. There is no indication of a lack of understanding between the leaders of the senate and those of the house. Aldrich left his office with Crane to consider the possibility of putting through the senate conference report providing for free iron ore, free oil and reducing the duties on coal, lumber and hides. Borah declared that if the free raw material program was adopted some of the western senators would be afraid to go home and couldn't expect to continue holding their positions. He is in sympathy with Taft's attitude on the question of downward revision, but declares they shouldn't be confined to raw materials. Today the conferees devoted their attention mainly to the revised corporation provision, which was adopted.

NO TRUTH IN THE RUMOR OF BARBER'S DEATH

RATTLE-BRAINED INDIVIDUALS CIRCULATE RUMOR OF BERGMAN'S DEATH.

Sunday word was received in this city stating that Harry Bergman, a barber of Ellendale, who is well known here, had dropped dead in the new camp Sunday evening. However late arrivals from Ellendale stated last evening that when they left the place Bergman was well and in fact was busily engaged at his place of business. The rumor, it is thought, arose over the fact that several nights ago Bergman was taken sick with a slight attack of ptomaine poisoning which confined him to his bed for a day or so. Undoubtedly the rattle-brained people, who circulated the report of the death, heard of this illness and with a little exaggeration were soon busily engaged in conveying the manufactured news to the town.

FLYNN SUPPORTERS LAY FOUNDATION FOR THEIR FIGHT AGAINST MOYER

DENVER, July 19.—The supporters of P. W. Flynn of Butte laid the foundation of their fight against President Moyer at today's session of the Western Federation of Miners' convention. The program was outlined in the annual report of Joseph Hutchinson, a member of the executive board. It includes the abolishment of the offices of president and vice president, the creation of a new non-salaried executive board consisting of one member from each state, and one salaried officer, that of secretary-treasurer. The report of an executive board member, Tance Terzich of Alaska, contained a review of the strike situation in the Treadwell district. He charged the Guggenheim interests with importing men by the hundreds, thus overstocking the market and following this by a reduction of wages. Moyer again defeated the "insurgents" by refusing to consider a resolution providing for certain changes in the constitution. The resolutions sought provide that delegates to the annual convention be elected in June, permitting that charges could be filed up to one day before the convention.

HERBERT KNOX SMITH FILES HIS REPORT

A Reasonable Share of the Country's Freight Should be Transported by Water

(By Associated Press.) WASHINGTON, July 19.—Lack of practical and commercial unity in the entire inland water system of the United States is the principal text of part 1 of the report on transportation by water, now submitted to the president by Herbert Knox Smith, commissioner of corporations of the department of commerce and labor. The commissioner delutes in his letter of transmittal upon the facts that while the United States has altogether a total of about 5800 miles of river navigation of six feet depth and over, and more than 2000 miles of canals, these totals are broken up into a large number of unrelated parts by reason of different depths and different conditions, and that the diverse nature of the floating equipment increases this lack of organization. Many vessels are built for special traffic or local conditions, and are thus often not "interchangeable" over different, even though connecting, routes. In general, the commissioner shows primarily the relation in which the inland waterways (rivers and canals) stand to the whole transportation system of the country. While waterways are subject to many limitations, they are not now carrying anything like

their proper share of the country's traffic. This, the commissioner points out, is a broad economic defect of serious disadvantage to the entire business of the country, and he gives some of the reasons for this condition. "Through" freight constitutes a great part of the country's traffic. A reasonable share of such through freight is essential to the success of the water system. Inland waterways cannot prosper generally on merely local traffic. But the water system, unorganized and divided as it is by diversities of channels and equipment, is greatly at a disadvantage in competition with the rail system of the country as standardized, physically unified, and its control largely centralized, and is thus well adapted to handle through freight. The canals of the country illustrate an extreme case of waterway decline. About 4500 miles of canals have been constructed. Over one-half of this mileage, costing over \$80,000,000, has been abandoned, and canal traffic (excepting that of some short ship canals) has steadily decreased. The report also calls attention briefly to the very satisfactory con-

CALHOUN ON RETRIAL

Langdon Chief Prosecutor in Absence of Heney

(By Associated Press.) SAN FRANCISCO, July 19.—The second trial of Patrick Calhoun, president of the United Railroads, on a charge of offering a bribe to John Furey, a member of the former Schitz board of supervisors, to influence his vote on the overhead trolley permit, was begun today before Superior Judge Lawlor. Half the day was devoted to interrogation of prospective jurors. When the first panel of twenty-five citizens was exhausted an adjournment was taken until next Wednesday morning. Heney being away on a trip to Alaska, his place was taken by District Attorney Langdon, who acted as chief attorney in the prosecution.

ELLA GINGLES IS ACQUITTED BY A JURY

HER STORY OF BEING WHITE SLAVE DENOUNCED AS UNTRUE.
CHICAGO, July 19.—Ella Gingles was cleared tonight from the charge of stealing lace, but the story she told on the witness stand of being a "white slave" victim was denounced by the jury that freed her. The basis of defense made by the Gingles girl, who was on trial for stealing lace from Miss Baggett, was that Miss Barrett attacked and mistreated her twice last winter, their object being to attempt to sell her to an unnamed man.

FOREST FIRE IS RAGING IN THE YOSEMITE

SOLDIERS FIGHTING WORST BLAZE EVER KNOWN IN NATIONAL PARK.

YOSEMITE, July 19.—One of the worst forest fires ever broken out in the Yosemite national park has raged for two days in the Merced gorge between Happy Isles and Vernal falls. Hundreds of acres have been devastated and the flames are still unchecked. It is believed the fire started from a camp of fishermen on Merced river. Soldiers are fighting the blaze.

ICE CREAM FREEZERS GOING LIKE HOT CAKES

The first consignment of ice cream freezers, which numbered fifty-two, has been completely sold out by the Richard Hardware company. The demand for the labor-saving Twentieth Century freezer, for which the Richard Hardware company is the sole agent, far exceeds the supply. Another invoice is expected within the next few days. Persons intending to get one of the freezers should go to the store and register so that they will be able to get one in the next order to reach Tonopah.

RETURNS FROM FIRST SHIPMENT FROM ELLENDALE

The Tonopah Banking corporation yesterday received a check from the Western Ore Purchasing company, which concern transacts business through the corporation, for \$19,777.95, which sum will be turned over to Mr. Clifford as the full amount to be received by him and his associates for the first shipment of ore sent from the Ellendale country. The check did not come in the name of Mr. Clifford, contrary to the statement made in the eyeing paper, first, as usual, to misrepresent. The amount discloses that the ore which comprised the initial shipment from Ellendale was extremely rich, there being but five tons in the consignment. A charge of \$1100 was made by the Western Ore Purchasing company on account of assaying and smelting expenses.
