

HOUSE ADOPTS CONFERENCE REPORT

Payne Asks Colleagues to Support the Bill and Also the Report.

Minority Leader Clark Accuses Majority of Bad Faith.

(Associated Press.) WASHINGTON, July 31.—Provision was made for the administration of the new tariff law by the adoption today of numerous amendments to the urgency deficiency appropriation bill which was passed. As additional salaries of judges, other officials and employes of the new United States court of customs and appeals, the senate appropriated \$300,000 to aid the state department in making commercial treaties and to pay the expenses of an advisory board which will assist the president in carrying out the duties imposed upon him by the maximum and minimum provisions to defray the expenses of the bureau which will enforce the collection of the new corporation tax. An amendment appropriating \$6000 each for an automobile and other vehicles to be used by the vice president and speaker of the house was adopted. The house tonight adopted the conference report on the tariff bill by a vote of 195 to 183. Twenty Republicans voted against the report, two Democrats for it. The vote was the climax of an eleven-hour session conducted through the most oppressive heat. A dozen speeches were made during the day of a more or less fiery nature. The day opened with what appeared to be part of an organized filibuster against the conference report when Mondell of Wyoming demanded the reading of the lengthy document. This proceeded for half an hour when with two-thirds remaining to be read Mondell permitted the debate to go on. Payne defended the report and appealed to his Republican colleagues to support it. Clark, the minority leader, and many of his colleagues denounced the bill, criticized the Republicans for failing, as they alleged, to revise the tariff downward in keeping with the party pledges. The most sensational speech was by Tex Mann of Illinois (Republican), who said he would vote against the report provided the rates on pulp and print paper as reduced by the house were not retained. He said: "These rates increase the revenue from customs by less than four million. The corporation tax it is estimated will produce twenty-six million, and tobacco nine and one-third million dollars." He placed the increased revenue at about \$40,000,000, which he said "was revenue enough when this bill gets into full working order to supply the necessary demands of the government, but not to build the Panama canal. We'll leave that to another generation. We've provided for funds that will establish the policy of this government in that respect." The house with the conference report ready to be sent to the senate for action adjourned at 9:07 until Monday at noon.

CONDITIONS IN SPAIN ARE SAID TO BE IMPROVED

(By Associated Press.) MADRID, July 31.—Tonight's summary of the situation shows the condition at Barcelona as improved. The belief prevails that by tomorrow entire quiet will be restored. Throughout Catalonia and other parts of the country similar improvement in conditions is reported. At Melilla the Moors are actively preparing for a new attack upon the Spaniards. General Marina has been instructed to assume the offensive and will soon with a big army, concentrated, march out of Melilla to strike a decisive blow.

RICE WOUNDED WHEN HE AGAIN MAKES ESCAPE

(By Associated Press.) NEEDLES (Cal.), July 31.—Chester Rice, the New Mexico fugitive, who several days ago made a sensational escape from officers and was recaptured after he had wounded one of his pursuers, made another unsuccessful attempt to get away today, which resulted in his being wounded, probably fatally. When an officer entered the jail with lunch for the prisoners, Rice struck him a stinging blow on the head and jumped through the open cell door. The officer drew his pistol and fired four shots at the fleeing man, one of which struck near the heart, passing through the body.

GOVERNOR GLASSCOCK AT FAIR.

(By Associated Press.) SEATTLE, July 31.—Governor William E. Glasscock of West Virginia, arrived today to take part in the celebration of West Virginia day at the Alaska-Yukon-Pacific exposition tomorrow.

The Bonanza has the most complete ruling and binding plant in the state of Nevada. Give us a trial.

LAKE TAHOE'S CHARMS FORBIDDEN IN NEVADA

With the completion of the repair of the old incline road to Lake Tahoe and the nearing of the time when that route will be followed to the resort in the mountains, Washoe county residents are again forcibly reminded that were it not for the unprogressive policy adopted by the representatives of the Hobart estate, a great part of the lake's beauty might be enjoyed in Washoe county. Lake Tahoe, as is known, has a corner of the beautiful shore line in Washoe county. There is as pretty scenery on the Nevada side as on that of California, but the tourists and sightseers generally stay on the California side, because the lands in Washoe county are for the most part held by the trustees of the Hobart estate. Conspicuously posted around the lake in Washoe county, in plain view of those who may use the incline road to go to Tahoe, are numerous signs "No Camping Here," and thus the virgin wilderness remains forbidden to those who would make it a scene of as much revelry and life as that on the farther side of the lake.—Reno Journal.

BONANZA ROCK OPENED IN POMPEII AT SEARCHLIGHT

Night before last at Pompeii they popped into some bonanza rock. It was encountered in crosscutting the vein on the 300, and its extent is not yet known.

Confirmation was obtained of Manager Matt Hoveek by telephone. He stated that the extra choice was then about six inches wide and he estimated its value at around \$500 to the ton. Others who saw it all figured higher, even up to \$1000. The general run of ore, from the starting of the mill, has all been better than expected and the marked improvement commenced lately with the exploitation of the 315-foot level, the lowest attained.—Searchlight Bulletin.

DR. LUKE WING ASSASSINATED

FOUR KILLED AS RESULT OF AN EXPLOSION

MACHINE INVENTED FOR PURPOSE OF FILLING AUTOS BLOWS UP.

(By Associated Press.) ST. PAUL, July 31.—An explosion from gasoline followed by a fire in a four-story building in West Third street today is known to have caused the death of five persons, two children, a woman and two men, as well as injuring four men and three women. The police think four persons are still in the ruins. Arnold Kuhle, president of the Kuhle Manufacturing company, and a young man named McCauley are thought to be among those still in the ruins. It was Kuhle's fatal invention, a gasoline machine to fill automobiles that caused the explosion. He, with McCauley, were experimenting when the explosion occurred. The building was wrecked, windows across the street were broken and the Central police station buildings adjoining were set afire. The property loss is small.

MEXICO CITY EXPERIENCES 'NOTHER SHOCK

PARTLY AFFECTED BUILDINGS TUMBLE AND FALL TO GROUND.

(By Associated Press.) MEXICO CITY, July 31.—Mexico City was again severely bumped by an earthquake again today. The shock was the most severe yet experienced and rocked the city for a minute and forty seconds. No great damage was done, though walls weakened by the three shocks of yesterday fell while public buildings were cracked. The National palace suffered considerably. At Acapulco the customs house with the warehouse, military barracks and a number of prominent buildings were completely destroyed, while the municipal palace suffered serious damage. Thirteen earthquakes within thirty hours were registered by the government seismograph at Tacubaya.

Chinaman Shoots the Chinese Vice-Consul to Death in New York.

(By Associated Press.) NEW YORK, July 31.—Dr. Luk Wing, Chinese vice consul of New York, who was shot by a Chinese giving contradictory reports of himself, died at St. Gregory's hospital tonight. Michael McDonald, 27 years of age, a special watchman at the Chinese consulate, identified the murderer tonight as Wong Bow Cheung, who he says was formerly a steward on the United States battleship Indiana. No rational motive for the murder was developed. McDonald believes the man to be crazy. He denies that he murdered Wing and asserts that he fired in self defense. He says he was being forcibly ejected from the consulate when he resisted, the vice consul drawing a revolver. They fought for the weapon and he declares he got it and fired point blank. There were no witnesses to the shooting. The assassin was arrested when he reached the street by a policeman who noticed the agitation. Wing married an American girl sixteen years ago.

BASE BALL NEWS

(By Associated Press.) NATIONAL LEAGUE.

Table with columns: Team, W, L, Pct. Pittsburgh 64 25 .719, Chicago 57 30 .655, New York 51 35 .593, Philadelphia 50 48 .510, Cincinnati 45 44 .506, St. Louis 36 49 .424, Brooklyn 32 56 .364, Boston 25 63 .284.

At Pittsburgh—New York 4, Pittsburgh 0. At Chicago—Chicago 1, Philadelphia 0. At Cincinnati—Cincinnati 1, Brooklyn 0 (called in the fifth inning on account of rain).

AMERICAN LEAGUE.

At San Francisco—San Francisco 4, Sacramento 3. At Los Angeles—Los Angeles 13, Vernon 4. At Portland—Oakland 3, Portland 2.

MAY SUCCEED M. W. FOX.

The will of the late Martin W. Fox, former president of the Hale and Norcross Mining company, names his brother, Frank Fox, a wealthy, retired banker and contractor of Cincinnati, Ohio, as sole legatee of the estate. At the time of his death, M. W. Fox was the largest holder of stock in the Hale and Norcross mine and his brother presumably will succeed him as president of the company. Frank Fox has just been elected president of the West Con. Virginia Mining company and the Segregated Con. Virginia Mining company, two concerns in which the late M. W. Fox was heavily interested and he has signified his intention of fully carrying out all his deceased brother's plans in regard to Hale and Norcross and other mining affairs.

D. D. Keltner, formerly of this city, but recently linotype operator on the Goldfield News, was in town last evening. He leaves for Iowa this morning.

CHALMERS DETROIT DRIVEN BY ROBERTSON WINS

(By Associated Press.) BRIGHTON BEACH (N. Y.), July 31.—George Robertson, driver of the Simplex car, won the twenty-four hour automobile race tonight. Robertson's distance, 1091 miles, is eighty-six miles less than the world's record of 1177 miles, established by himself in October. The Rainier was second, the Palmer-Singer third.

FEDERATION TURNS DOWN REFERENDUM PROPOSITION

(By Associated Press.) DENVER, July 31.—The Western Federation of Miners today turned down the proposition to elect officers by a referendum vote by a vote of 195 to 160. Action was taken allowing women's auxiliaries to local unions to send one delegate each to the national convention.

ELECTRIC CARS CRASH WHILE RUNNING FAST

MANY KILLED IN HEAD-ON COLLISION UP IN THE NORTH-WEST.

(By Associated Press.) SPOKANE (Wash.), July 31.—Ten persons were killed and at least fifty persons were injured in a head-on collision between two electric trains on the Spokane and Inland railway tonight. The wreck occurred at Caldwell, Idaho, twenty-five miles east of Spokane. A partial list of the dead is: William Ward, Wenatche, Washington; A. P. Whigley, Memphis, Tennessee; D. E. Campbell, motorman, Couer de Alene; Orville Putterbaugh, Elkhardt, Indiana; John A. Vernie, Springfield, Missouri; Dallis Golden, Spokane; W. H. Dahlquist, Esterville, Iowa; J. C. Cox, Hayden Lake, Idaho. Both trains were going about fifteen miles an hour and crashed together without a moment's warning.

LONG TERM FOR THEFT OF CLOTHING

(By Associated Press.) SAN FRANCISCO, July 31.—George P. Clifford was sentenced today to fifteen years at hard labor in San Quentin for stealing clothing valued at \$15. Edward McKee, a companion, was given a similar sentence.

TERRIBLE QUAKE.

(By Associated Press.) TORTOSA (Spain), July 31.—The Ebro observatory registered an intense earth shock of two hours duration today from a great distance.

Two Disastrous Fires

Japanese Town Visited by Fire

(By Associated Press.) OSAKA, Aug. 1.—At 6 o'clock this morning (Sunday) a conflagration which reduced to ashes a large portion of this city is under control. Up to that hour 13,000 buildings had been destroyed. An area four miles square was swept by flames.

Santa Rosa is Scene of Fire

(By Associated Press.) SANTA ROSA, July 31.—Fire at Santa Rosa woolen mills this afternoon destroyed \$225,000 worth of property before it was extinguished. The fire which started in the woolen mills is believed to have been caused by sparks from the chimney falling into an open ventilator. Besides the mills the Italia Unica hotel, a Japanese lodging house, a frame residence and several cottages were destroyed.

DENVER PHOTOGRAPHER NOT SLAYER OF WAELTZ

(By Associated Press.) DENVER, July 31.—Roy L. Griswold is not the man wanted for the murder of Peter Waeltz at Belleville, Illinois, last November. Sheriff Charles Cashel of St. Clair county, Illinois, arrived at Georgetown, where Griswold has been under arrest for the last three days, and after seeing and talking with Griswold for a moment declared positively that he was not Sydney Baker, the young photographer who is believed to have robbed Waeltz and then thrown him out of a third story window to his death. Griswold was released today.

NEVADA CLUB ARTISTS TO PLAY NEW SELECTIONS

Professors Tatro and Voss have received a new selection of classical music. A number of these pieces will be played by the Nevada Club artists today. These gentlemen, who have come to be regarded about the best in their line that have ever visited these parts, keep abreast of the times. The music they afford the patrons of the Nevada Club is greatly enjoyed and appreciated. Today's program will be the best they have yet attempted in Tonopah.

Big Work is Finished In U. S. Land Office

The United States land office has just finished a computation of the unappropriated public lands of the state of Nevada as of date June 30, 1909. The work involved was tremendous and was done by Clerk Edmund Robinson under the supervision of Land Office Agent Louis J. Cohn. The total land and water areas of the state comprise 70,087,863 acres and the total unappropriated vacant land in the state is shown by the estimate to be 56,700,871 acres. Each county is segregated in the computation and Ormsby county is estimated to have a total of 46,906 acres of vacant land within its borders, with a total land and water area of 108,886 acres. The statement was computed from the township plats and the unsurveyed townships were estimated from the official map of the state in connection with adjacent surveyed townships. Fully one month's steady work was expended in the prepara-

tion of the report and over 3100 townships and fractional townships are included. The report has disclosed the fact of great inaccuracies in previous computations showing differences in estimates of millions of acres. The statement is of great value, both for its accuracy and for its historical worth and will be forwarded direct to the department at Washington.

RESUMES OPEN SHOP.

(By Associated Press.) YOUNGSTOWN (O.), July 31.—The first of the six sheet mills at Youngstown Sheet and Tube company's plant was started up last evening with non-union labor following the "open shop" declaration of the company July 15.

Daily Bonanza and San Francisco Bulletin delivered to your door for \$1.25 per month.
