### Black Ravisher Escorted to Safety by Seven Companies of Soldiers

#### Mayor Sleeps Quietly Throughout Uprising and Did Not Know the City Was in Control of the Mob.

(Associated Press.)  
CAIRO, Ill., Nov. 12.—With the negro Arthur Alexander, the last of those arrested in connection with the murder Monday of Miss Anna Pelly safely out of town and some 150 members of the Fourth Regiment, I. N. G., on duty in the city tonight, the mob spirit that held Cairo for days seems quelled. Alexander was sent north on a special train under escort of two companies of militia. Where the prisoner was taken is unknown.

While Alexander was being taken to the train under escort of seven companies of militia, the crowds yelled: "That's him!" "We'll get him yet!" "Burn the nigger!" No effort, however, was made to break through the line of militia.

Sheriff Davis in an interview told of recognizing several members of the mob that took James from him last night. What steps will be used to bring those implicated to trial is not known.

Mayor Parsons said he was asleep and heard no shots or other sound to indicate that the city was in the hands of a mob.

The blame for the rioting is generally ascribed by officials to inadequate police protection. But the fact that a large number of felons have been acquitted here despite apparently conclusive evidence against them evidently had much to do with the mob spirit.

## FIFTY MILE AUTO TRACK RECORD AGAIN LOWERED

(By Associated Press.)  
ATLANTIC CITY, Nov. 12.—Today's automobile races reached a climax when George Robertson, driving a sixty horsepower Fiat lowered the American track record for fifty miles by 04:07, making the distance in 40:14.2. Eight cars started and five of them finished. Lewis Strang, piloting a 200 horsepower Fiat, set a terrific pace for the first seventeen miles. In the eighteenth mile as he passed the judges' stand a tire exploded, compelling him to withdraw

as it was impossible with his specially designed car to make a quick replacement of the tire. The time for the first ten miles was 07:18.32.

During the practice hour a specially designed, high power Pope-Toledo, valued at \$25,000, was badly wrecked. N. J. Kilpatrick, the driver, and R. G. Church, the mechanic, were thrown fully 150 feet from the seat, but escaped with slight injuries. The car was a total loss.

## PAN-AMERICAN CONGRESS TO MEET NEXT JULY

(By Associated Press.)  
WASHINGTON, Nov. 12.—The fourth of a series of great conferences that are steadily strengthening the bonds between the republics of the western hemisphere is to be held in Buenos Ayres, Argentine Republic, between the 15th and 20th of next July, and already the Argentine government, which is to be the host in this case, has been doing much to prepare for the meeting. The date originally fixed for the fourth international conference of American states was May 20, 1910, but the fact that a great exposition was to be held in the same capital that month, which might overshadow the importance of the international conference, led to the postponement of the latter. More-over the month of July, being in the middle of the Argentine winter, is certain to make the visit to Buenos Ayres more agreeable to the delegates from the north.

The governing board of the Bureau of American Republics has dispatched to every South and Central American capital a tentative programme of the subjects to be considered by the conference and the various foreign offices have been at work upon this with the purpose of submitting objections or suggesting amendments. Much progress has been made and it is hoped that it will soon be possible to promulgate the final programme, which according to present indications will not vary considerably from that prepared by the board of governors.

(By Associated Press.)  
GRASS VALLEY, Cal., Nov. 12.—Much excitement prevails at Forest City over the discovery of the richest placer gravel in recent years, some of which is said to run \$6000 to a miner's car of less than a ton. This strike appears to be of some permanency, as it has steadily grown richer. The channel in which it was found is believed by geologists to be an extension of the famous Bald Mountain system, which yielded many millions in the early days of placer mining.

(By Associated Press.)  
NEW YORK, Nov. 12.—After months of work by government investigators who have been scrutinizing the ins and outs of the complicated sugar frauds, there came an indictment today, followed by the arrest of a former official of the American Refining company, who is charged with conspiracy to defraud the government by the false weighing of sugar. The man arrested is James F. Bendernagle, for more than thirty years superintendent of the Havermyer and Elder refinery at Williamsburg, the largest plant of the American Sugar Refining company.

When arraigned before United States Commissioner Benedict, Bendernagle deposited \$5000 for his appearance Monday. The indictment was of the blanket variety, including in its terms also the so-called "big six," Oliver Spitzer, Thomas Kehoe, Edward A. Boyle, Jean M. Voelker, John R. Coyle and Patrick J. ### Seventeen Year Old Lad Makes Second Unsuccessful Attempt to Rob a Bank

(By Associated Press.)  
EUDORA, Kas., Nov. 12.—Driven to bay by an armed posse, Earl Bullock, the 17-year-old bandit of Lawrence, Kas., who twice within the last month robbed the Eudora bank, murdered a policeman and shot another man, probably fatally wounded himself in an attempt at suicide here today.

Bullock's attempted suicide followed his second attempt to rob the bank here today, and the shooting of Fred Starr, cashier of the Kaw Valley State bank, who was in the Eudora State bank with his clearings.

Bullock was accompanied by William McKay, aged 15 years, from Jacksonville, Fla., when he held up the bank. Starr offered no resistance, but was shot through the jaw, after which Bullock snatched \$800 and fled with his companion.

The alarm was quickly given and a crowd of armed citizens pursued the youthful bandits across the adjacent fields. McKay soon surrendered. Bullock, realizing that he was about to be captured, shot himself through the head. Meantime the crowd threatened to lynch McKay, but the officers hurried him to Lawrence, where he is now in jail. Bullock's previous hold-up of the Eudora bank and the murder of Policeman Pringle occurred October 11.

(By Associated Press.)  
AUBURN, Cal., Nov. 12.—As a result of the failure of the special venire summoned to appear in court today in the trial of Alma Bell, the court adjourned without any progress being made. ## MME. STEINHEIL WILL SOON KNOW HER FATE

(By Associated Press.)  
PARIS, Nov. 12.—The entire session of the Steinheil murder trial today was taken up with an impassioned plea of the advocate general, Truand Riolle, for the conviction of the woman charged with killing her husband and step-mother. As the prisoner's counsel, M. Aubin, is yet to be heard, it is doubtful whether the case will go to the jury tomorrow, as was expected.

The prosecutor showed neither pity nor mercy in his address, and painted the accused woman in the blackest of colors, as a horn liar, and as one whose whole life, both

before and after the crime, justified the presumption of guilt. He developed the theory that after her rich and generous lover, Chouanard, abandoned her in 1907, Mme. Steinheil realized that she was almost at the end of her tether, and when she got Maurice Borderel in her clutches she was determined to hold him even at the price of murder. The prosecutor insisted that Mme. Steinheil's story that burglars had committed the crime was a myth.

It is understood that at the end of M. Aubin's address, Mme. Steinheil intends to address the jury in her own behalf.

(By Associated Press.)  
SAN FRANCISCO, Nov. 12.—The annual inter-collegiate Rugby football game between Stanford and the University of California will be played tomorrow on the Stanford campus, and from the showing made by each in the preliminary games, the struggle will be the most thrilling in which the rival colleges have been engaged in years.

The average weight of the Stanford players is 179 pounds, and of California 177.

him in his apartments in the La Salle.

The MacKenzie matrimonial difficulties enjoy the distinction of having been certified to the United States supreme court twice, something that probably has not happened before in this country. During the eight years the man and wife have been in the courts she has thrice had him arrested on various charges, the first time for abandonment and on another occasion for contempt in failing to pay her alimony.

Mrs. MacKenzie brought her suit for separate maintenance in 1901. In her complaint she charged that MacKenzie in 1901 left her stranded in Chicago, taking the family fortune, \$11,000, with him. He went to Idaho, where he engaged in various mining ventures, and prospered. She took employment in a millinery store. Believing that he would sooner or later come east, she set spies to watch his movements. In 1904 MacKenzie ventured to pass through Chicago, but his wife caught him napping aboard the train and served him with a summons into court. The suit followed.

It was fought bitterly by both parties, and MacKenzie's lawyers went up to the higher courts for rulings. The defendant lost out at almost every turn, except that he was able to prevent a trial of the action on its merits.

After the superior courts had ruled against him, MacKenzie sought to make peace with his wife, and in this was successful.

"We have just forgot our dispute," is what MacKenzie said yesterday, "that is all, and we have decided to live together again. Our son is with us and we expect to get along as well as ever. We will go abroad for a year and then live in California."
