lected by the United States geological survey and will be incorporated in an advance chapter of "Mineral resources of the United States, calendar year 1908," soon to be issued by the survey.

## BRINGS BULLION FROM BLUE BELL

AUSTIN, Nev., Dec. 11.—Colonel S. T. Pearson came down from Berlin last Saturday, bringing with him \$2000 in gold bullion. This was from the Berlin mill, now the property of the Goldfield Blue Bell Mining company, and was the product of ore mined by leasers on the company's property. The mill is now running steadily, and these consignments of bullion may be looked for right along.

Fully as important as the output of this bullion is the discovery of picture rock on the Shamrock group of claims, also belonging to the Blue Bell people. The discovery was made by S. Lampa, who was at once given a lease on liberal terms. The high grade streak is four or five inches thick, and is very rich in gold. This strike will be followed closely, and if it holds out it means the liveliest times Ione has seen since it was the county seat of Nye county.

The Shamrock group is one of the earliest patented groups of claims in the state of Nevada. The mines have not been worked since 1864. At that time shafts were sunk to 250 feet, but there has never been such ore found on the group before as this brought in by Lampa.

It is not far from this place that Thomas Murphy of Goldfield has been successfully carrying on placer operations during the past season.

Progress is also being made in the King Midas tunnel on the Goodling property. San Francisco parties are said to be taking hold of adjacent property, expecting to find fully as good ore on the acreage. —Reese River Reveille.

## "SCOTTY" NOW SPENDING SILVER

BUT HINTS THAT HE WILL BE AGAIN IN THE MONEY

Walter Scott, the Death valley mystery, blew into Winnemucca last evening and blew out again on one of the night trains. This was his first visit to this place since about a year ago, when he dropped off here while on his way east, where he went broke and, according to the newspaper stories, met with one of the worst hard luck streaks of his career. Since that time "Scotty" and his wife have been making their home near Humboldt House, having practically dropped out of sight as far as public notoriety is concerned.

While in town last night "Scotty" didn't break any records as a spender, but he bought a few rounds of drinks for some of his friends and acquaintances, passing silver over the bar in payment. Of himself, he wouldn't talk, either of his past, present or future, because he said

the newspapers had never given him a square deal. But he threw out a few hints of something in the wind which would throw any of his past exploits into the shade. But he wouldn't do more than hint as to his expected restoration to fame and fortune, so the public will have to await developments in the career of the mysterious "Scotty."

## RAILROAD MEN TO ASK BIG INCREASE

BUT IT WILL NOT BE GRANTED UNLESS RATES ARE RAISED

A New York dispatch says: Demands for increases in wages formulated for presentation to the railroads, will call in some cases for a raise of 100 per cent. Vice President James Murdock of the Brotherhood of Railway Trainmen declared Wednesday.

The demands would not be presented, however, he stated, until after January 1st, and then only if ratified by a vote of the employees.

"There is no thought of a strike in connection with the demands to be presented," said Mr. Murdock. "By the agreements between the organizations and the railroads it is required that 30 days' notice be given the railway managers for consideration of the wage scale, so that some time must elapse before any question might be raised as to whether the roads will meet the men's desires."

An important statement bearing on the attitude of the railroads in the matter of increasing wages was made by W. C. Brown, president of the New York Central railroad.

"If it is true," he said, "that there has been an increase in the cost of living since the increase in railroad wages in the latter part of 1906 and early in 1907, then the men are justified in asking for some further increase at this time."

"If no such increase in the cost of living has taken place, then the men cannot expect more pay. The facts remain to be determined."

"But it cannot be stated too emphatically or too promptly, that no increase whatsoever in wages, no matter how large or small, is possible without commensurate increase in railroad rates. There is not a railroad in the country that can afford to pay its employees more now without getting better rates."

IT PAYS TO PLACE YOUR AD WITH US

A certain farmer had studied long and earnestly into the goods offered by Montgomery Ward & Co., and picked out a \$50 order. The next morning he read one of the Tonopah ads in the columns of the Bonanza and in the afternoon came into town and purchased \$60 worth from a local merchant.

Better goods than the mail order houses handle can always be purchased from your home merchant, and this at a lower price, if you will only call on them. The fact is that the merchants are just a little bit diffident about telling the public just what they have. They forget that it pays to advertise.

### MISCELLANEOUS

GREYSTONE HOTEL—For rent. Apply this office. 81f

EXPERIENCED camp or club cook, best of references, wants position, \$3 a day. Apply Colorado House

THE HOLLY—Mrs. Holly Heisner, formerly proprietress of the Greystone, is serving first-class meals at the Bacon house. 12 12

FOUND—Elk's tooth charm. Owner may have same by applying to this office, proving property, and paying for this notice.

BELMONT HOTEL—Room and board. Rooms all warm. Under new management. Mrs. Harrington, proprietress. 8 6t

FOUND—Near Miners' hospital, a ladies' fur. Owner can have same by applying to this office and paying for this ad.

FOR SALE—One new two-horse power Wagner 60-cycle, single phase, electric motor; starter and fixtures complete. Address B, Bonanza office. 1f

### BOARD OF PARDONS REVOKES A PAROLE

The state board of pardons has revoked the parole of P. W. Bennett, paroled from the Nevada state prison on September 15 last.

Bennett, whose right name is Ray W. Bartlett, was sentenced from the eastern part of the state to serve seven years for grand larceny. After serving two years he applied for a parole under the new parole act and the same was granted him by the board of pardons at the July session, the parole to become effective September 15 last.

Recently Bennett was arrested at Oakland and charged with larceny, and the Nevada officials were notified.

Bennett was one of the first men to be paroled under the new law and has been out of prison but a little over two months.

### GOVERNMENT WARNS MINERAL SURVEYORS

An order has been issued by the general land office at Washington modifying a ruling issued in Sep-

tember, which prohibited United States deputy mineral surveyors from making location or amended location surveys of mining claims, or an official survey thereof, and acting before the land office in securing patent.

A number of Goldfield surveyors joined in a protest to the land office against the ruling, and yesterday the following letter was received by Thomas Withers, who was one of the protestants, from the United States land office at Reno: Department of the Interior, Reno, Nev., Dec. 9, 1909.

To U. S. Deputy Mineral Surveyors, District of Nevada:

Sirs:—By letter "N" H. G. P., dated November 30, 1909, the Honorable Commissioner of the General Land Office, Washington, D. C., has modified his ruling to this office on paragraph 128 of the Mining Regulations as contained in circular letters to you, dated Sept. 8, 1909, by recognizing the right of a U. S. Mineral Surveyor to make not only a location, or an amended location survey of a mining claim, but an official survey thereof as well.

However, the Honorable Commissioner holds that a U. S. Mineral Surveyor under said paragraph is prohibited from filing a certificate of location with the recording officer, as he is thereby acting for his principal, the locator, in the matter of making the location. He also states that it would seem that such acts of locating would in the interest of good business principles, be performed by the locator or his duly authorized agent instead of a mineral surveyor who is disqualified to so act and whose assistance along that line might bring into question the validity of the location. He also held in a letter dated July 26, 1909, and addressed to the surveyor general of Arizona:

"It may be in line with economy but it is not good practice for a U. S. Mineral Surveyor to be the agent of the claimant one day, and an employe of the land department the next, in work upon the same location."

Following the Honorable Commissioner's instructions, this office will not issue an order for survey to a U. S. Mineral Surveyor who appears from the record to have acted as an agent or attorney for mineral claimants, by filing their location certificates for record.

Very respectfully, MATTHEW KYLE, U. S. Surveyor General for Nevada.

### PRODUCTION OF MINERALS IN CALIFORNIA

The United States geological survey reports that in 1908 California produced \$18,761,599 in gold; 1,647,278 ounces of silver, valued at \$873,057; and 706 ounces of refined platinum, valued at \$13,414. This platinum was all produced at placer mines in Butte, Humboldt, Siskiyou, Trinity, Calaveras, Sacramento and Del Norte counties, three-fourths of it having been mined in Butte county.

The values of California's output of gold, silver, and platinum in 1907 were \$16,727,928, \$751,646, and \$8900, respectively. The quantity of silver mined in the state in 1907 was 1,138,858 ounces; the quantity of platinum mined was 300 ounces. The record of the state's production of these metals in 1908 therefore shows considerable gains over the production on 1907. The value of the gold produced in the state in 1905 was slightly in excess of the value for 1908, but with that exception the figures for gold and silver production in 1908 are the largest attained within the last decade.

Gains over 1907 in the production of gold were made by 21 counties, chiefly Butte, Calaveras, Merced and Stanislaus, Inyo, Mariposa, Nevada, Sacramento, Shasta, Siskiyou, and Yuba, and gains in the production of both gold and silver were made by 17 counties, among which were Butte, Calaveras, Eldorado, Nevada, Plumas, San Bernardino, Shasta, Siskiyou, Trinity, and Yuba.

The statistics presented were col-

## Clothing that Will Fit

ADLER'S FINE SUITS AND OVERCOATS, LATEST FALL STYLES AT LOWER PRICES. BIG CHANCE TO TOG UP FOR LITTLE MONEY.

### Odds and Ends Sale

SIXTY PER CENT ALLOWED ON BOYS' AND YOUNG MEN'S SCHOOL SUITS ALSO ON MEN'S SUITS, SIZES 35, 36 AND 37.

## The Distribution of Goods for the Holidays Might Well Begin Right Now THIS STORE IS READY

The Busier Season is Already Upon Us and Finds Us Ready—Prepared, in other words, in every way that a big store could be ready and deserve success. And bear in mind that the pushing out of old stock to replace it now with new is only part of the story which is of interest to every man, woman and child who knows that Christmas is coming. Rotholz Bros., Inc., carry so many articles that fit the traditions of the day, touches your Christmas thought at so many places, that a full detail is excluded from a single page where of necessity we must speak of the goods themselves. The service, for instance, during the busy season we have brought to the highest state of efficiency that you may select and buy with least personal discomfort.

The Rotholz Bros., Inc., Prices—At this time of the year, when so many stores advance prices anticipating a Christmas trade, it is a relief to know that here at least your money will go as far now as any other time of the year; that while every effort is being made to keep up stocks to a high standard, no effort has been made to advance prices—it is due to this as much as any other reason that thousands of people have confidence in Rotholz Bros., Inc.

### We Would Rather Show You Than Tell You About It

And we are ready today and in the future to prove to you the advantage of shopping at Rotholz Bros., Inc.
