SENATE PASSES NAVAL INCREASE BILL

Two First Class Battleships Will Be Constructed at a Cost of Six Million Dollars Each

TEDDY SPENDS A QUIET WEEK IN ENGLAND

By Associated Press.
LONDON, May 23.—Roosevelt is enjoying the quietest days thus far of his European tour, and is getting something like real rest. His throat, however, still bothers him, and his voice is husky. After spending a week end at Wrest park, the home of Ambassador Reid, Mr. and Mrs. Roosevelt, Ethel and Kermit returned to London today and are the guests of Lieutenant Colonel and Mrs. Arthur Lee at their city home.
Roosevelt's only speaking engagements this week will be on Wednesday and Thursday. On Wednesday he will receive a delegation from the British group of Interparliamentary Union and the following day will receive a degree from Cambridge college.

PINCHOT COMING HOME.

By Associated Press.
LIVERPOOL, May 23.—Gifford Pinchot, the former chief forester of the United States, was a passenger on board the steamer Arabic, which sailed for New York today.

FORMER EMPLOYEE OF SUGAR COMPANY TELLS OF FRAUDS

After Being Pardoned From Prison His Conscience Hurts so Bad That He Tells of Fraud Conspiracy.

By Associated Press.
NEW YORK, May 23.—Oliver Spitzer, the man whose conscience hurt him and came back to New York like a spectre from the grave, with a pardon from Taft in his pocket, gave testimony today at the trial of Charles Heike, secretary and treasurer of the American Sugar Refining company, who, with five subordinates, is charged with conspiracy to defraud the government in underweights of sugar imports.
Spitzer, as superintendent of the company's Williamsburg docks, was sentenced to two years in the Atlantic penitentiary for his participation in the frauds, but was pardoned by President Taft last Thursday after serving three months, having made a full confession and from now on will aid the government in an attempt to convict his former associates.
Spitzer's story from the stand today did not directly connect Heike with the frauds, but the con-

Bill Also Provides for Fleet Colliers, Five Submarines and Six Torpedo Destroyers.

MADRIZ ARMY ESCAPES FROM THE INSURGENTS

By Associated Press.
NEW ORLEANS, La., May 23.—That General Fernando Rivas, at the head of a thousand troops of the Madriz army, had arrived at Rama at the beginning of the engagement yesterday between the Estrada and Madriz forces in Nicaragua and had made a successful passage around the insurgents, was cabled to members of the Central American colony tonight.

IRRIGATION PROJECTS HELD IN ABEYANCE

By Associated Press.
WASHINGTON, May 23.—According to the announcement of Director Newell of the reclamation service today, no new irrigation projects will be started by the government within the next ten years.

Debate on Subject Elicits Important Historical Revelation Bearing on War With Spain.

By Associated Press.
WASHINGTON, May 23.—After voting down the amendment offered by Burton to authorize only one new battleship instead of two, the senate today passed the naval appropriation bill. The bill carries an appropriation of almost \$134,000,000. The naval increase for the fiscal year ending June 30th, 1911, as provided by the bill, is for two first-class battleships, not to exceed a cost of \$6,000,000 each, and when equipped with armament and armor, about \$12,500,000 each, two fleet colliers, five submarines and six torpedo boat destroyers. The house bill provided for only four submarines and no destroyers.
The closing hour of the debate served to elicit an important historical revelation by Dewey which was given from his own store of

information. It bore on the war with Spain. The statement regarding the Spanish war was elicited by an assertion from Senator Heyburn that the people themselves did not want war, but were generally compelled by their rulers to submit to their will.
Taking issue with the Idaho senator, Dewey said a popular demand forced the war with Spain on this country and that McKinley was opposed to it. He said also that terms as favorable could have been obtained from Spain without conflict as with war. "I know to my own knowledge," said Dewey, "Spain was prepared to abandon Cuba and Porto Rico to prevent the humiliation if they could be assured in advance of the acceptance of the proposition."

TORNADO STRIKES CAIRO AND HOUSES ARE DEMOLISHED

By Associated Press.
CAIRO, Ill., May 23.—A tornado that struck Cairo at 6:50 p. m., yesterday, demolished four homes, damaged a dozen more and destroyed several barns, besides tearing up large trees by the roots.
No fatalities were reported, but one woman was badly bruised and several persons slightly injured.
The house occupied by Henry Smith was lifted bodily from its foundation, carried about 50 feet northward and landed bottom side up. Mrs. Smith and three children were in the house and the former was painfully bruised, while the children were slightly injured.
The house of Arthur Linguest was carried 100 feet and landed right side up, but badly twisted. The occupants were slightly injured. While members of the family of Wise were at supper the storm lifted the roof of the house so suddenly that they did not realize what was happening.
A large barn was carried 200 feet and landed on a coalshed. Other houses lost porches and several were unroofed.

DO NOT FAVOR PAYING EXPENSES OF TARIFF BOARD

By Associated Press.
WASHINGTON, May 23.—The proposed appropriation of \$250,000, to pay the expenses of the tariff board, as recommended by President Taft, was stricken from the sundry and civil bill in the house today on a point of order by Fitzgerald of New York. Taft immediately proposed another amendment appropriating the same amount for practically the same purpose, but leaving out reference to the tariff board.

PIONEER LEASE UNDER FULL SWAY WITH FINE OUTLOOK

Captain Herman Davis has been getting the interior workings of the Pioneer lease in condition for making a steady output, says the Rhyolite Herald.
The extraction of the ore will start early next week, and will likely continue until the lease expires.
Meanwhile forty to fifty tons of ore are being freighted daily from the lease dumps of the Mayflower mill. These dumps are of considerable size and will keep the mill running for months. It is judged that this ore will run \$16 to \$20 a ton.
The mill has been delayed in operation, but started up Friday morning in such shape that it is expected to run steadily until the end of the lease, and dividends may result.

RHYOLITE LEASERS MAKE SHIPMENTS

Rhyolite leasers have made three shipments of ore within the last few days. O'Connell, Kalaber and Phillips, leasing at the Denver, shipped a 20-ton car to the Moun-

LYNCH IS AGAIN ELECTED PRESIDENT OF THE TYPOS

By Associated Press.
INDIANAPOLIS, Ind., May 23.—Reports from 577 of the 700 unions of the International Typographical Union indicate, probably with one exception, that all the national officers have been re-elected. The exception is T. D. Fennessy, of Los Angeles, the total showing Michael Powell of Canada leading by several hundred majority in the race for trustee of the Union Printers' home at Colorado Springs. The reports received indicate that President Lynch is re-elected by seven thousand majority.

REPUBLICANS CONTROL BOARD OF ALDERMEN

By Associated Press.
DOUGLAS, Ariz., May 23.—A democratic municipal ticket headed by Mayor H. J. Wright, was elected today. The republicans elected one alderman and have a majority of one.

MAGNATES SHOULD BE MEASURED FOR HUMANITY ACTS

President David Starr Jordan of Stanford University Delivers Address on Nation's Wealth.

By Associated Press.
PALO ALTO, Cal., May 23.—President Jordan's address to the graduating class of Stanford university today, the subject of which was, "The Wealth of the Nations," reference was made to the lives of E. H. Harriman and other great financiers in drawing a lesson that man's success in life is not measured by what he does himself, but rather what he does for humanity.
After declaring that Harriman was a wise man, whose energy and ability extended the Union Pacific and Southern Pacific across the continent adding much to the wealth of the country, and developing the west, Jordan said:
"The Harriman expedition to Alaska would outlive the railroad

TAKE PICTURE OF COMET DURING THE ECLIPSE

By Associated Press.
SAN JOSE, Cal., May 23.—Neither the comet nor the eclipse of the moon was observable at San Jose tonight, because of the high fog. Director Campbell of the Lick observatory, however, stated that the sky was clear at Mount Hamilton and that he saw the comet and tail for 45 degrees of its length. The eclipse of the moon took place as scheduled and a photograph of the comet was taken during the eclipse.

BEEN ROBBING MAILS FOR OVER FOUR YEARS

By Associated Press.
CHICAGO, Ill., May 23.—Albert C. Gordon, for nineteen years a Chicago mail carrier, was arrested today by order of Inspector James E. Stuart, who says Gordon has been robbing the mails for more than four years.
Complaints from all over the country of the loss of money from registered letters had baffled officials. Gordon was arrested five years ago on a similar charge but it could not be proved and he was continued in the service.

man's wealth and his mastery of transportation, and that likewise Carnegie will be remembered by generations to come as the donor of Carnegie institutions, rather than the king of the steel and iron industry."

Continuing, he said: "The name of Rockefeller should not suggest the Standard Oil or associations of monopolies. The Rockefeller institute for medical research represents one of the wisest and most far-reaching uses to which any man's money can ever be put."
Speaking of the political situation Jordan remarked the country stood on the turning point of political history and that the government by parties is passing away and in future we shall be governed by the demands of the nation.

TAFT HOLDS CONSULTATION WITH STARS

By Associated Press.
WASHINGTON, May 23.—President Taft for the first time saw Halley's comet through a telescope tonight at the United States naval observatory. The president showed much more interest in Jupiter and the moon and some of the other heavenly bodies than in the comet. Senator Stephenson, of Wisconsin saw the comet tonight for the second time in his life, having seen it in Maine 75 years ago when he was only six years old.

The Bonanza's ruling and binding plant is still running. Bring in your

SUNDAY SCHOOL CONVENTION ELECTS NEW OFFICERS

By Associated Press.
WASHINGTON, May 23.—At the election of officers of the World's Sunday School convention today George W. Bailey of Philadelphia was elected president. The vice presidents were elected from every country in the world. The next place of meeting will probably be chosen tomorrow, although it was decided that the National Sunday School association, comprised of the Sunday schools of the United States and Great Britain will meet at San Francisco in 1911.

STOCK BROKER KILLED BY WOMAN CHAUFFEUR

By Associated Press.
ST. PAUL, Minn., May 23.—S. B. Shotwell, a stock broker, was run down and killed by an automobile tonight while on his way home from the ball game.
The machine was driven by Miss Theodora Stewart, aged 19, of Minneapolis, who was accompanied by her mother and sister and two men relatives. Miss Stewart is being held without bail pending investigation.

LEASE ON THE BOOTH DEVELOPING ORE SHOOT

The Weber-McLaughlin lease on the Booth is steadily developing the ore shoot that was picked up some weeks ago, and which have found

to have been entered at or near its apex.

An exploration winze was put down on the shoot for some 35 feet, and a drift was run along the vein, showing three feet of ore, increasing in value as depth was gained. The shaft will now be sunk to 265 feet, and a cut run from the 250-foot level, to get under the 100 feet below where it is now being worked. The vein that is now being proved up is of fine appearance, and the leasers are at a high pitch of expectation.—Goldfield News.

GOLD TOO HEAVY FOR BIN.

Schmidt and Loufek had a slight accident on their lease on the Roseberry ground the other day. The bottom of their ore bin gave way and now the bin is on top of the ore. The boys say that they never dreamed they were getting so much highgrade in the bin, as it was built strong enough to hold twice the ordinary bulk of ore.—Rawhide Press-Times.
