Party Leaders Realize Fight Is On and Address From President Is Necessary to Placate Voters.

By Associated Press
BEVERLY, August 13.—President Taft has decided to accept the invitation to address the National League of Republican clubs at Carnegie Hall, New York on September 30. There is a likelihood that this will be the president's one speech of the campaign and it is probable that it may prove the keynote of the campaign, for the president will give a resume of what the republican party has accomplished since his administration began and what he hopes to accomplish if the party is continued in power.

Lloyd Griscom, president of the New York republican county committee; Warren Harding, republican nominee for governor of Ohio; Senator Dick, and Representative Longworth. It is said the leaders realize they have the fight of their lives on their hands. They are not attempting to keep the president in ignorance of the situation. As a result, it is said, the republican campaign is being planned on a more extensive scale than at any time past. The new chairman of the state executive committee, who will succeed Wade Ellis, talked matters over with the president today. It is said no decision was reached.
