

TONIGHT IS BIG NIGHT AMONG LOCAL ELKS

Dance, Song and Music Will Aid In a Merry Annual Celebration of the Antler Herd.

Tonight is the big night in Elkdom. The annual dance of the local lodge of Elks will take place at that time and Elks, local and visiting, together with their ladies, will participate in the great event. Everything is in readiness for the great doings. Not a single thing has been left undone that would add to the joy and festivity of the occasion. Like a nest of busy beavers the members of the lodge have been busily engaged for several weeks past making plans and preparations and during the past few days the final touches have been administered.

The banquet hall will be a thing of beauty. Three handsome chandeliers have been hung, the room—which is newly built—has been recently papered and is now decorated with the colors of the order—white and purple.

A noted chef is preparing the

feast with which the banquet board will be laden. And all the work is being done in the elaborate kitchen which goes to make a part of the Elks' home. The tables with which the banquet hall is filled have a seating capacity of six each. The dance hall has been put in first-class condition for this memorial occasion. The floor is in the prime of condition and the newest exhaust fan upon the market has been installed, besides the several circulation fans that will drive the foul air to the exhaust.

Six pieces of music will furnish the gay dance tunes to which the merry-making Elks will trip the light fantastic. And Elkdom, arrayed in all its glory, will be on hand.

None but Elks will be in attendance, owing to the limited space of the dancing floor.

BIG DEALS SAID TO BE IMPENDING AT NATIONAL

WINNEMUCCA, Nev., May 3.—Both of E. A. Smith's autos were loaded to capacity with passengers for National Saturday morning. One of the machines was chartered by prominent San Francisco mining men who are heavily interested in the property of the Mammoth National Mining company and went out to make their first inspection. The San Franciscans were A. C. Eisen, Rufus Thayer, W. H. McGuire and Ralph F. Shafer, and they were accompanied by Gordon Campbell, superintendent of the Mammoth National, and Fred J. Siebert of Reno, the well-known mining engineer.

It is reported that the visit of this party of mining men is fraught with great significance to National, and there are rumors that the biggest deals in the history of the district are impending, of which more will be known in a few days.

REBELLION, BRIGANDAGE AND ANARCHY REIGNS IN CHINA

REBELS STALKING IN WESTERN HALF OF PROVINCE MURDERING AND PILLAGING.

HONG KONG, May 3.—Rebellion, brigandage and anarchy are stalking through the western half of Kwang Tung province, murdering, pillaging and burning. The loyal troops are fighting desperately to crush the uprising, the seriousness of which is revealed in further dispatches from Canton yesterday. Wu Sun, a Chinese, who was educated in Japan and who has adopted the dress of the western countries, is the leader of the revolt against the Manchu dynasty. The brigand chief, Luk, of Shun Tak, is at the head of a horde of outlaws whose object is robbery and murder.

Following the standard of these men are anarchists, whose purpose

the present outbreak lends itself most advantageously.

These combined forces have thrown themselves with fanatical disregard of their own lives against the troops and since the first outbreak last Thursday night much blood has been shed. Sedition is rife among certain of the troops and it is feared that the dissatisfied soldiers will desert their officers if the revolters appear to have the upper hand.

Official advices and the refugees arriving from Canton confirm the sinister reports of yesterday. Bodies of the slain lie in the streets of the city.

Famine prices are asked for food-stuffs and the shops generally are closing. In the panic there have been few attempts to bury the dead and the stench from the decomposed bodies fills the air.

JAPANESE LEADER STOPS RUMORS ABOUT CABINET

TOKIO, May 3.—Count Katsura, the premier, in an interview yesterday authorized the statement that no change in the cabinet is contemplated. Various rumors have been current here and widely published that the resignation of the Katsura cabinet was imminent.

This caused an unsettled condition and has proved annoying to the government. In making his statement Count Katsura said:

"While I shall not hold the premiership permanently, the reports that my resignation is pending are absolutely unfounded. In the event of future changes, however, I can confidently assert that it will not entail alteration of the financial or other fixed policy of his majesty's government."

LOS ANGELES CARPENTERS HAVE GONE OUT ON STRIKE

DEMAND A WAGE SCALE OF \$4 A DAY INSTEAD OF \$3.50 AS AT PRESENT.

LOS ANGELES, Cal., May 3.—To enforce a demand for a wage scale of \$4 a day, instead of the present scale of \$3.50, carpenters affiliated with the Los Angeles branch of the United Brotherhood of Carpenters and Joiners were ordered out yesterday.

A strained situation also exists in the bakers' trade, which may result in a strike at any time, and it is possible that other trades will be affected at a later date.

In union labor circles, however, there is general denial of a pros-

pect of a general strike, though some of the leaders say it is possible that one will be called. The leaders of the carpenters deny that their strike is a part of a general movement.

"We want \$4 a day," said James A. Gray, general organizer for Los Angeles, "and we are not asking for anything else." He added that in cases where the contractors were not willing to pay the increased scale, men were, as a rule, obeying the strike order.

It is said by the union leaders that about 500 carpenters quit work yesterday. The employers deny this, alleging that most of the men registered as strikers were replaced by non-union workers prior to yesterday.

FIGHTING IS REPORTED IN MEXICO AGAIN

300 MEN ENGAGE IN BATTLE AND LOSS SAID TO HAVE BEEN AWUL.

DOUGLAS, Ariz., May 3.—Reports from the towns of Pitiquito and Caborca, in the state of Sonora, Mexico, have been received here telling of desperate fighting there yesterday and the day before between Mexican federal troops and the insurgents, 300 on each side.

The federals used a machine gun and defeated the rebels in both cities after the hottest kind of fighting. The government troops finally occupied both towns, which the rebels had previously held, the latter retreating, leaving twenty dead and many wounded.

Rebels under Juan Codozi, Francisco Reyna and Tinarit captured both Pitiquito and Caborca a few days ago without much opposition. The towns have a combined population of 5000. The rebel force,

all mounted, included Americans, Mexicans and Papago Indians.

Major Carlos Flores, commanding the federal regulars, and Diego Moleto, commanding the Nationals, 300 in all, with one machine gun, advanced against Pitiquito Saturday. The rebels awaited the attack in the entrenchments they had thrown up several days before.

The federal machine guns swept the crest of the trenches and the troops advanced in detachments with the machine gun in front. The fight lasted all day.

TUCSON, Ariz., May 3.—A special from Nogales, Mexico, says that the fighting around Caborca and Pitiquito has been going on intermittently for eight days. In the earlier stages and before reinforcements were sent to them the federals are said to have suffered many reverses.

They are reported to have lost 14 killed in the first skirmish and 40 in the second.

IDORA PROVES GENIAL HOST OF THE KIDS

OPERATOR STATES THAT NEW MACHINE IS WORKING PERFECTLY.

The school children were the guests of the Idora theatre last night, at the first performance and as a result are "strong" for that play house. The show was a good one, the pictures being up to the standard and the vaudeville sketch—which included the "Big Chief" dance—being immense.

By special request the "Big chief" dance will be repeated at tonight's performance. The Lorraine Sisters have made a hit with this spectacular dance, as they have with their other acts during the present week.

Luke Richards, who has been operating a picture show at Manhattan, has now been installed as operator and took charge of the machine last night. Mr. Richards well known in Manhattan and Tonopah, having a host of friends in each place. He is an efficient operator and says that the machine is now in perfect working order and that the pictures will be shown in perfect condition on the screen.

For tonight the pictures are: "Was he a Coward" (Biograph), "Opportunity and the Man" (Lubin), "Bob-Sled Races and How Tommy's wits Worked" (Pathe).

Been to the Idora yet? Well, you have missed the one best bet.
