CLARAHAN THE INSPECTOR AS A WITNESS

COMPETENCY OF POSTOFFICE INSPECTOR CLARAHAN IS CAUSE OF ARGUMENT.

BOSTON, June 12.—A contest between counsel over the competency of Postoffice Inspector Clarahan as a witness was the feature of the opening of the trial of the Redeemable Investment company's case in the United States district court here yesterday.

On October 13 Clarahan led a raid on the offices of the company, in which books and papers were removed to the federal building. Subject to exception from counsel for the defense, the testimony of the witnesses was permitted to proceed.

Of the three defendants, the Rev. Norman Plass, former president; Charles H. Brooks, manager, and John I. Traphagen, assistant secretary, the witness testified that Brooks was arrested by Deputy Marshal Ruhl on the first visit to the office on October 13. Traphagen was arrested in December after he had been indicted with the other two on charges of using the mails in a scheme to defraud.

QUALITY IN MILK.
Is milk that is clean, that will test 4 per cent and test it every day in the year; milked from healthy cows; handled in a sanitary dairy and stable. We have the quality. 6-1-11 TONOPAH DAIRY.

Don't forget amateur night every Friday at the Idora. Fun for everybody.

Fred Roth, a well-known traveling man, representing E. Martin company, wholesale liquor dealers of San Francisco, died in Salt Lake recently. Mr. Roth has visited Tonopah regularly in the interest of his house and has many friends here.

TAFT DECLINES.

WASHINGTON, June 12.—In declining an invitation to visit Astoria, Oregon, in August, President Taft yesterday indicated to Representative Lafferty that he expected to spend August at Beverly. His vacation, he told Mr. Lafferty, would be limited, both by the date on which congress adjourns and the beginning of a western trip in September.

Tow acts, an entire change, Thursday, Friday and Saturday at the ever popular Idora this week.

280. A profitable tenant dairy farm.

442. The treatment of bee diseases.
445. Marketing eggs through the creamery.
446. Choice of crops for alkali.
447. Bees.

USING ALFALFA ROOTS AS A TABLE DELICACY

Alfalfa now has reached such a stage of development that it can be used for human consumption—at least the roots of it can. C. F. Waters, an enterprising farmer residing near Spray, Oregon, has completed experiments that convince him that the roots of the ordinary commercial alfalfa plant can be treated so that they will be readily edible as well as highly nourishing and palatable.

He has arranged to construct a large building for canning alfalfa roots and expects to offer his products to the trade within the present year. The roots can be taken from the ground after the crops of several seasons have been harvested, so that the plant is given an added value. Mr. Waters declares that by proper treatment the clever housewife can convert canned alfalfa roots into a variety of tempting dishes, which can be served either as a vegetable or as a dessert.

CHANGE OF ADDRESS.

Macdonald and Moran, civil engineers, wish to notify that they can be reached by addressing Box 514, Oakland, or Box, 855, Tonopah 6 10 11.

Wanted—Performers for amateur night at the Idora; substantial prizes offered. See Manager F. B. Spencer.
