

MAN WHO VOTED FOR LORIMER RECEIVED CASH FOR HIS VOTE

Nine Killed and Thirty-Two Wounded In Assault on El Oro Jail When Attempt to Release Prisoners Is Made.

WASHINGTON, Aug. 2.—Charles A. White, who after running the gamut from street car conductor to member of the Illinois legislature, confessed to receiving money to vote for William Lorimer for the United States senate, yesterday began to reel his story before the Senate Lorimer committee. He was the first witness at the previous Lorimer investigation. His examination is expected to last three or four days.

White produced many testimonials of good character and ability from schools he had attended in his youth and from former employers.

Explaining that he wished to show the source from which White obtained his food for thought, Attorney J. H. Marble, for the committee, asked the witness what he was reading at the time he was elected to the legislature.

White mentioned these: Lawson's Magazine articles on high finance exposure, which he characterized as a "pretty good piece of work."

The Jungle, by Upton Sinclair, ex-

posing the stock yards—a splendid piece of work.

Four volumes of Roman history—about the Carthaginians, the Syrians, and that class of stuff.

Ingersoll's complete works. Bryan's Commoner. Taylor's life pictures.

"Appeal to Reason," a socialist publication.

Various labor magazines and the daily newspapers of St. Louis.

The witness said that before he was elected to the legislature he had heard of several men who had taken bribes and then exposed the bribers. He said he told his supporters during the campaign that if he was elected he would expose any corruption at Springfield, but he denied saying he would take the bribe in doing so.

The witness was producing letters from Lee O'Neill Browne in reference to the organization of the house when the committee adjourned.

Eight applications were dismissed for want of prosecution; three others were continued because the applicants were not sufficiently qualified to pass, and four others for various reasons, two of whom were not present and the other two for lack of witnesses.

BRACELET ON ANKLE CUT OFF BY JEWELER

MINNEAPOLIS, Minn., Aug. 2.—Miss Hermione Van Slyke, devotee of fashion from Denver, Colo., summoned a jeweler here yesterday to file a bracelet from her ankle.

Having read with interest the latest social hints from New York, Miss Van Slyke slipped the gold band from her pretty wrist to place it just above her shapely foot. There was trouble when she sought to put it back and the jeweler was called. The bracelet now reposes in its accustomed place. Mr. Van Slyke and his daughter left last night for Chicago, enroute to New York.

Brother of Convict Assaults an Editor

GLOBE, Ariz., Aug. 2.—George H. Clements, a newspaper man, was attacked and badly beaten yesterday afternoon by Wirt Anderson in front of the court house. The cause of the trouble seems to have been articles and editorials in local papers, which Anderson claimed reflected upon his brother, Robert M. Anderson. The latter was once a city marshal, who was sentenced recently to serve six years in prison for shooting George Shanley in March last. Anderson gave himself up to the local authorities.

PRES. MOYER IS LAUDED ON HIS ANNUAL REPORT

BUTTE, Mont., Aug. 2.—The convention of the Western Federation of Miners received yesterday the report of the committee on the president's annual report. The committee commended the work of the president during the past year. The report, which was adopted by unanimous vote, says:

"We realize it is idle to attempt to pledge members of any labor union with any political party. No matter how unwise the act may be, the voter has a right which must be recognized, to vote for whom and what he pleases; but at the same time this organization realizes if the interests of the workers are to be advanced, all avenues of progress must be used, and among them none offers better opportunities than wise, concerted political action on the part of that class of society on whose labor all classes depend.

"Therefore it is earnestly recommended that special efforts be made to interest our members and others in the discussion of subjects pertaining to government, political and industrial economy, to the end that they learn to vote in their interests and do so unitedly to the end that the useful class of society control the government in their own interest.

"We further recommend that a close watch be kept on the United States senators who are opposing the acceptance of Arizona's constitution at Washington to the end that steps may be taken by workers in all sections of the country to defeat all candidates for office who, by working against the Arizona constitution, show they opposed the people having a voice in their own government, and we further recommend the placing upon the statute books of all states and provinces in the jurisdiction of the Western Federation of Miners of the initiative, referendum and the recall."

TWO TRUE BILLS ARE RETURNED BY GRAND JURY

TOMANOVICH AND GEORGE McINTIRE WILL HAVE TO FACE THE DISTRICT COURT.

The grand jury this afternoon returned two true bills. Jack Tomanovich will have to stand trial for assault with intent to kill, and Geo. McIntire will face the tribunal on a charge of embezzlement.

Jack Tomanovich made an assault last Saturday on a fellow countryman with an automatic revolver, inflicting two flesh wounds on his victim and allowing himself a couple. Tomanovich could not stop the automatic after he had it in working order and only the jamming of a cartridge prevented the magazine from being emptied, as it was he hit the other fellow or himself each shot fired.

George McIntire was arrested for absconding with the funds of the Manhattan series of Eagles. It is claimed that he appropriated \$500 to his own use while acting as treasurer.

DENVER FIREMEN GETTING RICH

DENVER, Aug. 2.—Foresighted enough to scent a fortune in a slag pile, two firemen, E. Roberts and H. A. Anderson, have been quietly making thousands of dollars in Argo.

Some years ago it was decided to dismantle the Argo smelter and as soon as they heard of it these men offered to pay the company a royalty of 20 per cent for a lease, which would give them the right to work the slag pile there. The company assented gladly, little dreaming that these men had been waiting for just this opportunity for four years.

G. H. VANCE WAS FORMERLY OF MILLERS, NEV.

MAN WHO WAS DROWNED IN NORTHERN CANADA WORKED AT THE MILL TOWN.

C. H. Vance, whom the Associated Press dispatches stated was from Tonopah and who lost his life by drowning in Northern Canada, left Millers a little over a month ago.

Superintendent Jones, of the latter mill, was well acquainted with him and had worked with Vance in Colorado. Efforts are being made to locate relatives through Colorado acquaintances.

BULLFROG MINING CASE SUBMITTED

The case of Gold Bullfrog Mining company vs. G. W. Thompson, was up before Judge Averill yesterday and was submitted and taken under advisement.

On January 1, Thompson located the property of the plaintiff company and started to tear down the mill thereon and was enjoined by the company. The company claims that they have performed the work and that defendant had never perfect title, as they had done no location work at the time they started to tear down the mill.

George Thatcher represented the plaintiff, while Thompson, Moorehouse & Thompson appeared for defendant.

once and after a few days the owners found they had made \$1000 apiece.

They couldn't handle the proposition alone, however, and sold out a one-ninth interest to Gaffy & Keefe, contractors, for \$9000, who, in turn, promised to use the most up-to-date methods in working the pile. Thirty men are now at work there blasting and digging out the ore. The output averages 400 tons a day and the poorest of the ore runs higher than \$6 a ton when melted.

EL ORO, State of Mexico, Mexico, Aug. 2.—In repelling a mob of striking miners who yesterday freed the prisoners in the local jail, the troops fired, killing nine and wounding 32. The strikers were from La Esperanza mine, which they abandoned this morning.

This afternoon the men in the Mexico mine, an adjoining property, walked out and it is understood by the men of the El Oro mine that a strike will be called there tomorrow.

More than 4000 men representing the underground forces of the Mexico and La Esperanza, are out, and if these men should be joined by those in the El Oro, the number of strikers would number about 7000. They demand higher wages, but it was stated officially that the properties would be closed before increases would be granted.

It is expected 1000 soldiers will be here before morning from the capital.

The garrison originally consisted of fifty state troops and 25 rurales. Trouble began early. The rurales had arrested a few of the strikers and the idle men determined to

set them free. Arming themselves with nothing better than chunks of gold-bearing ore, they started up one street of the town toward the jail, throwing stones as they went, at such buildings as offended their sight.

Shutters were closed throughout the town and foreigners redoubled their activity to get the women out of danger.

All day the commander of the little garrison has been expecting more trouble from the gathering crowds of strikers.

Although far outnumbering the troops, the strikers have few if any arms, but in a big hardware store there is an abundance of guns and it is assumed that should rioting be resumed, this will be sacked.

This camp is regarded as one of the richest camps in the republic. On the opposite side of the mountains, where the El Oro properties are located, is the famous Dos Estrallas, and it is feared that the 300 men employed there may also go on strike. The stock of the three El Oro properties involved is held principally by British and Americans.

By order of the postmaster general, just issued, the placing of advertising or stamps other than the lawful postage stamps on the addressed side of domestic mail matter will be prohibited hereafter. Letters thus decorated will be returned to the sender or sent to the dead-letter office.

As many business houses and communities alive to the value of the mail service as an advertising medium have recently formed the habit of stamping their daily mail with adhesive stamps, boosting the home town, the new ruling will have an important effect.

Bob Stewart returned to Sodaville this morning.

OF INTEREST TO MINERS AND PROSPECTORS

One of the most interesting displays of rocks characteristic to the Tonopah district, is now being displayed by the Miners' drug store. The andesites, dacites, etc., are plainly labeled and the ores found near the surface and on the lower levels of the mines are also shown.

DEW RELIGION STARTS IN EAST

ST. PAUL, Minn., Aug. 2.—The executive committee of the "Men and Religious Movement" was in session in St. Paul yesterday for the purpose of planning a world-wide campaign for a more material religion than now offered, which is to be launched from the Twin Cities on October 1.

"This movement is intended to enlist men of all churches," said A. J. Nason of St. Paul, one of the original committee of ninety-seven. "It is not a revival, it is merely a campaign for better conditions socially, morally and mentally and, while the religious movement will not be slighted, the material prosperity of the city and its people will be uppermost in the minds of the leaders, as they have long since resolved that to make an appeal to men, we must have a more masculine religion."

The movement was started two years ago in New York by business men, who, after a long study of social and religious conditions, became impressed that the churches, in many instances, failed to appeal to the men and in all instances had not grasped the masculine mind as they should.

The campaign will embrace all cities and will last in the United States from October 1 until the last of May and then will be carried to foreign countries.

S. R. Brady was a passenger this morning for the east.
