TONOPAH DAILY BONANZA

Today's Silver
Quotation, 52 3-8

VOL. X. NO. 111

TONOPAH, NEVADA, FRIDAY EVENING, SEPTEMBER 1, 1911.

PRICE 10 CENTS.

BOY ARRESTED FOR CONTEMPT DISTRICT COURT

WARRANT ISSUED FOR EDWARD HAND—BOY TOOK HORSES FROM RECEIVER.

Last evening a warrant was issued and placed in the hands of Sheriff Malley for the arrest of Ed Hand, a cowboy who has been in the employ of Stimler & Marsh, at the Hunt ranch, twenty-six miles from the Pine Creek ranch, for contempt of court. The land holdings and stock of Stimler & Marsh are in the hands of a receiver, the Tonopah Banking Corporation having foreclosed on a mortgage.

R. F. Gilbert, the receiver in charge, arrived in town on Thursday morning and stated that Hand came to the Pine Creek ranch and, drove several head of horses away bearing the brand of the corporation. The horses were not vented, but Hand claimed they were his individual property. When told that he would have to procure an order from the court for the release of the animals he is said to have replied that he did not have to ask for an order; that he would take the animals and no sheriff or men could stop him as he owned the stock, having taken the horses in payment for wages.

Sheriff Malley returned at one o'clock this afternoon with the young man, who is about 20 years of age, and placed him in the county jail. The boy undoubtedly is ignorant of the law and claims that he has done nothing but what another person would do, as he is the qualified owner of the animals, fourteen in number.

The contempt hearing may take place this evening or tomorrow before Judge Averill. The boy bears a good reputation and will simply have to plead ignorance of the knowledge of law.

CLAIMS NEW RECORD FOR KILLING SNAKES

OXFORD, Conn., Sept. 1.—A new record for killing snakes is claimed by Clifford B. Hawley, an Oxford farmer, who last night killed 180 feet of black snake in seven minutes, assisted only by his woodchuck dog Spot. The nest of the snakes was found by the dog and Hawley went to his assistance with a hoe. Between them they killed forty-five, one of them being five feet nine inches long.

GREAT CORPORATION NOW A THING OF THE PAST

Obedying the Decree of Dissolution Handed Down By the Supreme Court the Great Standard Oil Trust Ceases to Be.

NEW YORK, Sept. 1.—The Standard Oil company of New Jersey yesterday passed out of existence, so far as its present form and functions are concerned.

After today this famous corporation will cease officially to carry on its operations as the head of a vast organization whose activities extend into almost every part of the world.

In obedience to the decree of dissolution of the supreme court it is relinquishing its control of the subsidiary concerns and today is the date set for the ending of the old regime.

With the end of this business day, the company's books, containing the list of stockholders, will close and the stock of its subsidiary companies will be distributed among the stockholders in the parent organization of record at that time.

The work of apportioning the company's holdings of the stock of more than thirty subsidiaries affected will occupy at least three long months, it is expected, so that the readjustment will not be complete prior to December 1.

Standard Oil stock was traded

STRIKE SITUATION STILL HANGING IN THE BALANCE

EXCITEMENT IS STILL ON OVER THE NEW STRIKE

The new mining discovery at Eldorado, three miles northwest of Cedar Corral and 15 miles from Tonopah, is creating considerable excitement these days. The stampede is on and many vehicles and autos loaded with mining men and prospectors are leaving hourly for the new fields. The ledge croppings have been trenced for thirty feet and assays run from \$30 up. The ore is gold, silver and lead of the galena character.

Many of the men who were among the first locators are now outfitting in Tonopah preparatory to doing the holding work on their new acquisitions. It is claimed, though unofficial, that George Wingfield's engineer will be here in a day or two with a number of surveyors to look over the new field. At least three men are interested in the same claims in the new strike are going ahead making preparations to sink a shaft to a depth of at least 100 feet, and at this depth a crosscut will be run to tap the ledge. On the surface this ledge is several feet in width and carries gold and silver values as high as \$30 per ton. Silver predominates in the ore croppings, but the gold values run fairly high, while there are stringers of gold ore that it is estimated will run as high as 15 ounces to the ton. The main ledge in the new strike runs in a northeasterly and southwesterly direction. The formation is porphyry and diorite.

CORONER'S INQUEST BEING HELD THIS DAY

The inquest inquiring into the cause of death of Gabriel Kovacevich, who lost his life in the Mizpah mine yesterday morning from powder gas, is being held this afternoon before Acting Coroner Judge Heywood. The following persons compose the jury: Thomas Marshall, Joseph Norris, Thomas O'Neil, Clarence Mayes, James McCambridge and James Cochran. At the time of going to press all of the witnesses had not been examined.

Ben Rotholz returned from San Francisco this morning after a month's absence.

Officials and Employees Still In Conference In San Francisco and Chicago Over Demands—100 Men Laid Off at the Ogden, Utah Shops.

SAN FRANCISCO, Sept. 1.—J. W. Klue, international president of the Blacksmiths' union; M. F. Ryan, international president of the Brotherhood of Railway Carmen; J. A. Franklin, international president of the Boilermakers' union, and J. D. Buckalew, vice president of the International Association of Machinists, who arrived in this city yesterday to hold a conference with Vice President Julius Kruttschnitt of the Harriman lines, are in consultation with the local railway union leaders.

Also present are leaders of the railway unions in other cities in this state: Sam Grace of Omaha, business agent of the Harriman line machinists, and John Southons, deputy of the grand lodge, Rochester. Investigation to follow.

It is the purpose of the international leaders thoroughly to investigate the situation in the west and to possess themselves of every detail before they meet Kruttschnitt.

Present indications are that they will be held until today.

Mr. Kruttschnitt has declared that he will not recognize the leaders as representatives of the federation. The leaders say they must gain this point before any agreement is reached with the road.

Many Men Discharged. OGDEN, Utah, Sept. 1.—Follow-

ing a reduction in hours in the local Southern Pacific shops, which reduced the working week from 60 to 40 hours, the railroad officials announced yesterday that 100 men would be laid off tonight. This further retrenchment means a 20 per cent reduction of the working force employed in the motor power department of the Southern Pacific company at this point.

Chicago Conference. CHICAGO, Sept. 1.—C. H. Mark-

ham, president of the Illinois Central Railroad company, will hold a conference with labor leaders this afternoon in another effort to adjust difficulties between 15,000 shopmen and the company.

The conferees of the confederated crafts, it is said, will insist on but one point—recognition of the federation.

A similar conference between representatives of the shopmen and Vice President Parks and General Manager Foley, held yesterday, failed of result.

NEW YORK POLICEMAN JOINS SURVEYING PARTY AND BECOMING CRAZED BY HEAT DISCARDS CLOTHING AND RUNS NAKED ACROSS BURNING SANDS—HAS PROBABLY PERISHED.

RENO, Nev., Sept. 1.—Stripping himself of his outer garments, Jas. Mahoney fled from a government engineering camp near Leete's salt works at 2 o'clock yesterday afternoon and had not yet been found, although the engineering party searched all afternoon, through the night and are still endeavoring to find the unfortunate man.

It is feared that he has perished on the desert, for the heat was intense when he left camp.

Mr. Mahoney was a New York policeman, having first had a beat from West 125th street and Eighth avenue station, and then been transferred to the Bronx, patrolling 148th street.

Matrimonial troubles caused him to seek a leave of absence and he came to Reno with intent to make this his permanent home if he could secure employment. Although possessed of considerable means, he sought a position until such time as he could secure a piece of ground and make his dwelling.

By before yesterday he secured from Captain Stover a position in one of his surveying parties and went to the Eagle salt works on the Churchill county desert to begin work.

His tracks were finally picked up, but night came on and the surveyors, who followed his trail, were at a loss, but they continued the search through the night.

Mr. Mahoney resided in Reno only a few weeks, but in that time he made many acquaintances and friends, who are anxiously awaiting news from the searching parties.

Mahoney is said to be a cousin of Bourke Cochran, who controls the tiger of Tammany Hall. He is said to have been in Reno for a divorce.

SWELL PROGRAM AT THE BUTLER THIS EVENING

Leo Dulmage, the novelty trick cyclist and comedian opened a three-days' engagement at the Butler theater last night and scored a big hit. He is clever and amusing and will be seen in entirely new stunts this evening. The pleasures for tonight are all new and are as follows: "St. Malo and the English Channel," a scenic picture; "A Favoring Current," comedy; "Bob's New Scheme," comedy; "A

TONOPAH CAMPERS ARE GETTING TOADS AND CHIPPIE BIRDS

The hunting party consisting of Jim Hays, County Clerk "Bob" Pohl and Frank Dorroh, who left here Sunday morning, bright and early, gay and happy as larks, in pursuit of the toothsome sagehen and the wily rainbow trout, in the Reese River country, when last heard from were camped at Cloverdale and had bagged over 80 small chippy birds and caught a few frogs in the big spring near by.

Jim Hays has a chug wagon, all his own. Bought and paid for with his individual money. Now this auto, machine, chug wagon, misfit or whatever you elect to call or name it, is a very refractory and obstinate bug or thing. Sometimes Jim makes a journey and sometimes he doesn't. It all depends. The machine is of the 1890 model and any old parts of a buggy or wagon can be used to take the places of broken parts.

The Jim Hays auto, model 1890, broke an axle when it slipped a cog at Cloverdale and the party is anxiously awaiting the return of a ranch wagon that is being driven from Lone with provisions. On its arrival an axle will be borrowed and the party will undoubtedly reach their hunting reserve.

EXCHANGE ADJOURNS.

The stock exchanges of San Francisco and New York adjourned this afternoon until Tuesday morning. Labor Day occurring on Monday and being a national holiday, the brokers will rest for three days.

LOST ON SALTEN DESERT BECOMES RAVING MANIAC

AFTERNOON BLAZE DESTROYS TENT HOUSE

At 2 o'clock this afternoon a small tent house on the hill southeast of the high school was burned to the ground. The place was the home of Mr. and Mrs. Frank Clark. The origin of the fire is not known. The house and contents were consumed, being a total loss. The fire department stretched 400 yards of hose to reach the conflagration and saved the adjoining houses. A heavy wind storm was in progress during blaze.

Paris Hiatt departed this morning for Reno and Denver.

SHALL GREATEST UNION CAMP NEGLECT TO HONOR LABOR DAY

Present Indications Point to the Passing of This Holiday Without a Demonstration of Any Kind.

Labor Day will not be properly observed this year in Tonopah from the present outlook. And it is really to be regretted, as Tonopah is one of the largest union towns in the state of Nevada. The celebration of Labor was inaugurated by the Knight of Labor as early as 1882, and began to become general as a holiday after 1887. The day is usually celebrated by parades, addresses and sports. The observance of this day has become so marked that some form of festivity obtains in all the states and territories of the United States.

Only three more days from today and Labor Day will be on us. What has become of the tug-of-war contest? What has become of the baseball game between Goldfield and Tonopah? What have the business men and the unions and fraternal organizations been doing? Not a murmur regarding the appropriate celebration of the day set aside for the toilers has been heard. While it is a little late for the proper observance of the day, some move should be made to start the machinery in motion that

BANK CASE IS NOTHING SHORT OF A BIG FARCE

The litigation now going on in Carson in the district court in the State Bank and Trust company is nauseating in the extreme, as nothing will ever come of it. It matters not which side will be victorious, appeals will follow, and when a final decision is reached and rendered, all of the defendants and their heirs will have passed to the Great Beyond, and the court records in the defunct bank case have become ancient history. It will be the same in the Nye and Ormsby County bank hearings, if any should ever occur, which is safe to predict never will materialize.

The depositors of the State Bank may receive another dividend of 5 cents—but this is very far distant. These of the Nye and Ormsby bank will not receive one cent.

There is no one to ensure in these two disastrous failures but the lawmakers of the state of Nevada. A banking bill will pass both houses and the signature of the governor of our great state will be placed upon the document only later to have the said bill picked to pieces by the legal fraternity—only "niggers in the woodpile" can be found in each banking law passed.

The depositors of both defunct institutions in Tonopah have long ago given up all hope of ever receiving one cent of their hard earnings which required the labor of years to accumulate—stolen from the banks by most infamous bank presidents who are still at large.

The editor of the Bonanza is opposed to lynching by mob, but a dose of "necktie purgative" in such cases would be a great enhancement to the state in its future up-building.

TYPHOID PATIENTS RECOVERING RAPIDLY

The men employed at the Liberty mine who were brought to the Miners' Union hospital a couple of weeks ago, all having typhoid fever, are doing nicely, and will soon be around again.

THEY ARE GOING EAST.

"They are going east," is what Ed Wilson imparted to us today, when asked about the 10 and 20-acre farms he was selling in his farm tract near Stockton. This land is an ideal farming place, being a rich loam, and is a snap at the price he is disposing of the blocks. See him at once.

The observance of this day has become so marked that some form of festivity obtains in all the states and territories of the United States.

TEN FIREMEN SUFFER IN A CHICAGO FIRE

CHICAGO, Sept. 1.—Fighting against flames which swept through a four-story building in the downtown district yesterday, 10 firemen were injured by the explosion of chemicals before the fire was extinguished. Property worth \$100,000 was destroyed. Patients of a hospital adjoining were quieted with much difficulty.
