STATE BANK CASE STILL FOOLS PEOPLE

Thursday the proceedings of the State Bank case was enlivened by some gentlemanly tiffs between the attorneys. Receiver Wildes was upon the stand telling what he had done in the way of collecting money on many securities that were held by the bank.
Massey objected to the volubility of the witness.
Attorney Mack stated that the witness was testifying just as he had instructed him to and then the court took a hand in the matter, and stated that he would insist that the question and nothing else be answered. Wildes apologized for his slip of the tongue, and the case continued.
The books of the historical Bullion bank were brought into court yesterday and brought back memories of the past to the old-timers who remember the battles that were fought. There is many a skeleton in the State Bank closet that has not had an airing yet, but will come to light some day.—Carson News.

PRESSED THE TRIGGER AND BLEW OUT BRAINS

George A. Smith, who conducted a chicken ranch at Reno, blew his brains out yesterday with a shotgun, the deed being deliberately planned and executed. He placed the gun in a vice in the woodshed, stood in front of the barrel, and pressed the trigger with a stick. His body was found when Deputy Sheriff Nichols, of Reno, went to the ranch to serve a subpoena on the man. Smith, it is said, formerly ran a newspaper at Genoa.

STATE OF CALIFORNIA SETS GOOD EXAMPLE

A number of letters have come from California to this office from a California town which is advertising its fruit. The letter heads, the paper and the envelopes are decorated with the best lithographic work that money can buy. It makes attractive, neat and catchy ads. It looks a lot better than a plain statement, as it is an advertisement.
California knows how. She always goes the limit on advertising. There has been more done to that state from advertising than any section on the map. They never let up. Advertising is the one game they know and it pays like smoke. Every railroad, every steamship, every autoist, who travels, carries a reminder that California is delivering the goods.
This section, or any section in the state could do well to follow the examples of advertising that come through on every mail from the state across the line. Advertising has made California, Nevada can be built up with printer's ink and

ery town of over two hundred people has its own paper. Get the ink working, it's the only way.

ELECTED OFFICERS FOR THIS YEAR

The annual meeting of the stockholders of the Comstock Tunnel company was held at New York on Monday, and the following directors were unanimously elected: Franklin Leonard of Sutro, John Landers of San Francisco, Franklin Leonard, Jr., George D. Hyland, E. B. Smith, A. F. Cushman and E. R. Tappen of New York. The directors organized as follows: President and superintendent, Franklin Leonard; vice president, A. F. Cushman; secretary, E. R. Tappen; treasurer, Franklin Leonard, Jr.

VISIT THE SCHOOLS IT WILL SURELY HELP

Few people have any idea what an incentive it is to both the teacher and the scholar to know that both parents and outsiders are taking a lively interest in their work. We believe the "little folks" at the school appreciate such interest, more perhaps than the larger ones. Still the effect is not lost on any of them, and we hope every parent will take a hint from this and place the public school on their visiting list.

HEAVY POTATO CROP IS REPORTED AT MASON

The Mason Valley potato crop promises to break all previous record at the coming harvest. Contrary to the usual situation, there has been no damaging frosts in the fore part of September, and as the danger line is now passed, it is certain that the crop will fully mature. A large harvest of spuds means many thousands of dollars to the Mason Valley ranchers and added prosperity to the state in general.

SMALL WRECK AT MOUND HOUSE YESTERDAY

Owing to the breaking of an axle on the locomotive of the passenger train last evening, the other side of Mound House, the train was two hours late reaching Reno. No great damage was done and the wrecking train was sent up to clear the track of debris. The passengers were transferred to the local train and brought to Reno.

WHERE DO FLIES COME FROM?

How often do we hear people say: "Where in the world do all the flies come from?" It is simple enough. The toper makes the blue-bottle fly, the stern father makes the gad fly, the cyclone makes the house fly, the blacksmith makes the fire fly, the driver makes the horse fly, the grocer makes the sand fly, and the boarder makes the lutter fly.—Exchange.

FIRE DESTROYS PIPE LINE.

A fire near Verdi, where the Truckee River General Electric company is operating, destroyed 100 feet of new wooden pipe which had recently been assembled. The loss is figured at \$4000 and was fully insured. It is believed that the fire was the work of an incendiary. Duplicate pipe has been ordered to take the place of that destroyed, as the company hopes to use its additional power this winter.

GOES TO AUSTRALIA.

Maurice McLaughlin, the Carson born boy, who has annexed the championship belt as a tennis player in America, has been chosen to represent the American clubs in Australia. He will leave for the long ocean voyage on October 4th. The big game is to come off early in December.

SHOULD RETURN THANKS.

The man who gets mad for what the newspaper says about him should return thanks three times a day for what the newspaper knows about him and suppresses.

NOTICE OF DIVIDEND.
