TONOPAH DAILY BONANZA

Today's Silver
Quotation, 58 3-8

VOL. XI. NO. 143

TONOPAH, NEVADA, WEDNESDAY EVENING, APRIL 10, 1912.

PRICE 10 CENTS.

ROOSEVELT'S PLURALITY IN ILLINOIS IS 130,000

NEW YORK MAN DENOUNCES HIS PARTY'S PLATFORM

ROCHESTER, April 10.—The plank in the platform referring to Taft was heartily cheered. Senator Root spoke and denounced the recall of the judiciary. Controller Prendergast of New York denounced the platform. He said in part:

"Because men are prone to differ from you and believe in the initiative referendum and the recall is no sign that they are anarchists, socialists or agitators. You will never stop socialism's spread until you show the people that they can expect relief from the two great parties. The people, as a whole are not now enjoying prosperity, nor have they enjoyed such since 1907. With the spectacle recently presented at Lawrence, Mass., were women and children were beaten with clubs by the police and the militia, does not close your eyes to the fact that the country is now facing a serious crisis. We need remedies, not rhetoric." He defended Colonel Roosevelt eloquently, electrifying the galleries.

ROCHESTER, April 10.—The convention has just adopted the platform without any change. No roll-call was had. The convention then adjourned.

PRISON CELL AGAIN HOLDS PAROLE JUMPER

RENO, Nev., April 10.—Charles Clark, a Nevada convict, who was paroled and who violated his parole by not keeping the state police informed as to his whereabouts, was brought back from Sacramento this morning and taken on to Carson City, where he will be placed in prison to complete the service of his sentence. He was sent to the penitentiary on October 22, 1908, to serve ten years for attempting to escape from jail and was paroled on January 1, 1911. He was first arrested after his parole for selling some cocaine in Bakersfield, but the officers there would not hold him for the state officers. He then went to Sacramento and there got into trouble and was again arrested. He will now serve out the remainder of his ten years.

LA FOLLETTE HAS STARTED ON TOUR

NEW YORK, April 10.—Robert M. La Follette starts on his tour through the state of Oregon on Thursday. Discussing the result in Illinois Senator La Follette that Taft's nomination on the first ballot was now impossible. Roosevelt carried Illinois, he said, and that simply means that Taft cannot be nominated on the first ballot. La Follette was under the impression that he would have carried the state if he could have campaigned there a week.

ON ILLINOIS ELECTION

WASHINGTON, April 10.—Campaign Manager McKinley, when asked today what he thought of the result in Illinois, said:

"The local Illinois issues were responsible for our defeat. However, the result has no bearing whatever on the outcome of the presidential contest. Just wait until you see the results in Pennsylvania."

Senator Joseph A. Dixon, campaign manager for Colonel Roosevelt, when asked today regarding the outcome of the Illinois election, said: "The voters of the state of Illinois served notice at the recent election that they were unalterably opposed to the reactionary policies of President Taft and the reactionary issues to which he has committed his political fortunes."

REPORT BRIBERY CASE.
SANTA FE, N. M., April 10.—The house bribery investigation committee by a vote of nine to six decided to make a report adverse to the four house members accused of bribery and recommended that they be unseated. A minority report in favor of the defendants will be made.

POPULAR SOCIETY YOUNG WOMAN TO BE EASTER BRIDE

Wednesday, April 24th, is the date chosen for the marriage of Miss Mae Kind and Mr. Herbert Goldsmith of Newark, N. J. The ceremony will be held at the home of the bride-elect's uncle and aunt, Mr. and Mrs. Jonas Kind, of 675 High street, Newark, N. J.

The bride-elect has been extensively entertained before leaving Tonopah, being a general favorite. Miss Kind is the youngest daughter of the late Henry Kind and Mrs. Kind, well-known pioneers of Nevada, and closely identified for many years with Eureka, and with Tonopah since its discovery.

The young couple will make their home in Newark, N. J., where Mr. Goldsmith's business interests are located.

The many friends of Miss Mae Kind regret that her marriage will necessitate her living in the east, but all join in wishing her health and happiness in her new epoch in life.

ONE DISTRICT IS NOW FORGING TO THE FRONT

SLUGGED THEM OVER THE ROPES

GLEENSBURG, Pa., April 10.—Colonel Roosevelt, in referring to his Illinois victory this afternoon said: "We have slugged them over the ropes of the ring in which my hat is in." He told the crowd at Jeanette, Pa., a little later: "We want to see Pennsylvania do identically what Illinois did, and I think she will, to declare for the people against the Wall street politicians."

NEW BROKERAGE FIRM IS READY FOR BUSINESS

The new brokerage firm of Ralston & Brown, composed of W. C. Ralston, assistant United States Treasurer of San Francisco, and Fred Brown of Tonopah, opened their doors this morning to the public.

The members of the firm are well and favorably known to our citizens as both are good square business fellows. Their office, on West Main street, five doors above the Milers' Drug store, has been artistically and cosily fitted up for the accommodation of their clients and the public in general. The new firm is certainly entitled to their share of the stock business. An invitation is extended to all to drop in.

CONFLAGRATION IS NOW RAGING IN BUTTE CITY

BUTTE, Mont., April 10.—A fire which broke out early this afternoon in the southeast portion of the city where most of the wholesale section is situated caused a loss of one million dollars. The fire spread in the east side business section. The whole fire force has been called out.

Hot Free Lunch at the New Nevada Club Day and Night. 3-29-12

Champ Clark Gets the Solid Illinois Delegation—Deneen Is Choice for Governor—Dunn Democratic Choice for Governor—Woman's Suffrage Was Defeated Two to One.

CHICAGO, April 10.—Incomplete returns from all sections of the state indicate Roosevelt has a plurality over Taft of one hundred and fifteen thousand to one hundred and fifty thousand for Roosevelt. The Colonel is certain of fifty-two Illinois delegates. Champ Clark, of Missouri, gets the solid Illinois delegation, winning over his nearest adversary, Woodrow Wilson, by at least three to one in the count. Governor Deneen will be the republican candidate for governor to succeed himself.

Candidate Dunne, on the democratic gubernatorial ticket was elected handsily. La Follette polled forty thousand votes. Sherman defeated Cullom. Woman's suffrage was defeated in Cook county two to one.

Latest returns this afternoon give Colonel Roosevelt's plurality one hundred and thirty thousand votes. Roosevelt henchmen today claim at least fifty-four delegates, conceding two only for Taft. One district is yet incomplete. Champ Clark's majority over Wilson, conceded by the Wilsonites, is over one hundred and fifty thousand.

Sewer Question Is Attracting Attention

Tonopah, April 10, 1912.
W. W. Booth, Esq.,
Editor of the Daily Bonanza.

Dear Sir:—I have read with much interest the different views of those who have been writing about the sewer proposition, and with your permission I would like to put forth my views.

I am, as representative of the sewer company, willing to submit the matter to a vote of the people and we are willing to sell the plant

at an appraised value, provided that the county commissioners will select two capable men, we to select the same number and the four thus chosen to select a fifth. I would urge that the men appointed be the best qualified to pass upon the matter so that neither side will receive any more than to which it is entitled. I want only a fair deal and the people of Tonopah should have the same. We don't want any the best of it, and I am willing to leave

After Having Been Overlooked for Many Years, This Rich Mineral Section Now Gives Promise of Becoming a Great Producing Camp.

It does, indeed, seem to be one of the anomalies of mining that the lone section, with its wonderfully rich surface showings, was overlooked like a white check when, five or six years ago, the whole state, and particularly the southern portion of it, was in the maelstrom of one of the greatest mining excitement the world has seen in recent years.

Then nearly everything that showed any promise whatever was gone through as if with a fine-tooth comb and given a chance; but, for some inexplicable reason, lone failed of recognition. Perhaps, though, it was one of the decrees of fate that lone, or the Union mining district, as it was better known in the olden days, should be held in reserve in order that when things financial had once more readjusted themselves and a new cycle of mining interest launched, lone was to be the point of impact from which Nevada's newest mining renaissance would make its start.

And if that be the program, lone will surely make good, for there is probably no section in the state where there has been so prodigal a deposition of commercial and precious metals as the country which lies contiguous to its doors. Anywhere you go there is gold; in the washes, in the surface dirt, in the crevices of ledges that exist everywhere throughout the mountains and foothills it can be detected with pan and water, and in scores of cases in payable quantities. Prospectors and miners are now flocking to the fields and assiduously endeavoring to locate the many, mountain heads, with the probability that before the summer is half over they will have uncovered a score of future producers. The mass, too, is here, and judging by the work which he has so far done, he is going to receive a commensurate reward for the chances he has taken and the nerve he has displayed.

And, however, is not the only mineral product with which this section is to be credited, for within three miles of the camp, in the mountains about half way to the old town of Berlin the Mercury Mining company, composed of people

who are connected with the Consolidated of Goldfield, is opening up a similar proposition that promises to become one of the greatest of its kind. They have a small smelter in operation, capable of handling about forty tons of ore per day, and from this they are shipping from twenty-five to thirty thousand pounds of "quick" per month, yielding them probably a net profit of \$19,000. This summer, it is stated, their plant will be enlarged and the output thereby correspondingly increased.

A short distance from this property, the Davis brothers, formerly well and favorably known in Tonopah, are opening up another cinnabar mine, and it has been developed to such an extent that they are planning to erect a smelter the coming summer.

Nearer lone, in fact, within a stone's throw of the town—if town at the present time it can be called—Murphy, Forman and Jarvis are doing some good work on the Katherine property and keeping two shifts employed, in addition to practical development of the property a force is kept busy extracting ore and filling the bins in anticipation of a big run at the Berlin mill, six miles distant. A number of leases have been let on this property, but because of the presence of so much snow and the inclemency of the weather, they have thus far been unable to make much progress.

At Bald Mountain, five miles to the north of the town, the owners of the Katherine have recently taken hold of what was known as the Allen-Steale strike, and it gives promise of making a big producer. They have started a regulation sized working shaft, and at the bottom some fifteen or eighteen feet—they have a five-foot ledge that yields high-grade milling values.

In the vicinity of this property a corps of prospectors is encamped, and they are only awaiting the disappearance of the snow in order to give the territory a thorough and systematic search. At different times a great deal of rich float has been found in this section, and this fact gives reason to the belief
(Continued on Page Four.)

it to the people themselves. This to me is certainly a fair enough proposition and I am sure that all believers in a fair and square deal to everyone will agree with me, that in leaving it to the citizens of Tonopah I am doing my part.

Respectfully,
J. GRANT CRUMLEY, Pres.

GOV. HUGHES' FRIENDS ASK FOR NOMINATION

ROCHESTER, April 10.—Delegates today are discussing Governor Hughes as a possible candidate for president, despite the fact that he declared that nothing will induce him to leave the supreme bench. Republican leaders believe the result of the Illinois primaries may cause Taft's name not to be presented at the Chicago convention. Some think if Taft's name is eliminated Hughes can be nominated easily. Taft's manager says no danger of president's name being withdrawn, as he is a sure winner.

This afternoon amid vociferous cheering and applauding the convention adopted a resolution commending President Taft for the patriotism, wisdom and undramatic courage he has display since he began his administration. The resolution also denounced the initiative referendum and recall. It endorsed the tariff board plan of revision and condemned the democratic house for revising tariff downward, and urged ex-Senator Aldrich's bank plan.

WOMEN BEATEN BY SPECIALS

ABERDEEN, Wash., April 10.—Many women were beaten and thrown into jail today as a result of the lumber workers' strike here. One woman and her 3-months-old babe in her arms were thrown into jail. Deputies beat women on the head, shoulders and backs with their blackjacks. Much clubbing has been done at the Wilson and Donovan mills, where the pickets tried to induce the workers to quit.

WILL BE AN EVENING OF ENJOYMENT

Friday evening next will be the evening of all evenings during the month of April. On that night the much-talked-of Knights of Columbus dance will occur. Many pretty gowns will be worn by the ladies and the tailors say they are doing a fine business in men's suits, to be worn on this occasion. But dress matters not, for on that evening everybody who is going to attend is going with the avowed intention of spending an evening of real enjoyment. Remember next Friday night if the night.

CONFEDERATE RECEIVES SENTENCE EIGHTEEN MONTHS

SAN FRANCISCO, April 10.—Federal Judge Farrington today sentenced L. B. Thorne to 18 months at McNeill's Island. Thorne is the man who aided Dr. J. Grant Lyman, formerly of Goldfield, to escape from an Oakland hospital, while being treated for an injured limb and who at the time was being held on a federal indictment for fraudulent use of the mails.

COAL MINERS MEET OPERATORS; NO AGREEMENT

PHILADELPHIA, April 10.—The anthracite miners' and operators' officers met at noon today. It is reported that an agreement for a raise of ten per cent in wages has been decided. President White insists that the operators recognize the United Mine Workers of America. The operators have taken a firm stand against this demand. John Mitchell, former president of the United Mine Workers of America, will arrive tonight to confer with President White.

PHILADELPHIA, April 10.—At 2 p. m. today the anthracite operators and miners officers failed to reach a settlement. The sub-committee of eight conferees, four from each side, appointed, agreed to argue the facts further. The meeting adjourned to 2 o'clock tomorrow afternoon. It is evidence the intention of the operators are to arbitrate with the miners in their demands for a higher wage. In the event of the operators refusing, the union means to strike.

WATERS RECEDING.

ST. LOUIS, April 10.—The high waters of the Mississippi river are receding rapidly, especially above the city of Memphis, and all danger is now passed.

ENCAMPMENT OF THE G. A. R. TO BE HELD AT RENO

STOCKTON, April 10.—That Reno will be the meeting place for the next G. A. R. encampment seems assured. The Reno delegation arrived yesterday morning and immediately began getting acquainted. Colonel Reeves, who heads the delegation, had already received assurances of support from a great many posts, and before the day had passed this list had been materially added to.

This morning it was announced that Los Angeles, which had been a contender for the next meeting place, has decided that the odds in favor of Reno were too heavy and had withdrawn from the race.

There is much enthusiasm over the prospect of holding the next convention the famous little city in the west, and it is more than likely that the vote will be made unanimous when the question is presented.

RAILROADS HAVE CLOSED OFFICES

MONTREY, April 10.—The San Francisco, Rock Island and Southern Pacific railroads have closed their Mexican offices on account of the prospective strike on the National railways and have cancelled all the passes of the employes.

As a result of this action on the part of the railroads, hundreds of Americans are stranded and unable to return to their homes.

ALL GAMES IN PACIFIC COAST LEAGUE POSTPONED

The Bonanza this morning received telegraphic communication from the president of the Pacific Coast league that all games scheduled for today have been postponed on account of rain and wet grounds. It is probable the games will take place as per schedule tomorrow.

DEATH OF A MISER.

JOHNSTOWN, Pa., April 10.—Joseph Campaigno, an aged retiree, died last night and the undertaker, examining the effects, found \$19,000 in cash, stocks and other securities. Campaigno, known as "Old Joe," was believed to be in poverty.
