MAMMALS OF THE PREHISTORIC AGE FOUND NEAR MINA

DISCOVERY OF BONES OF THREE TOED HORSE IS MADE BY SEARCHERS

Marvelous discoveries of prehistoric mammals in the shale fields on the desert 28 miles east of Mina, Nev., are announced as the result of the explorations of Professor Lawrence Baker of the department of the geological research of the University of California. Professor Baker is assisted in his researches by Professor Buwaldo, also of the university faculty.

The announcement of the discovery appeared in the San Francisco papers yesterday morning. The investigations disclose the fact that region about Mina was once an immense body of tropical water. The bones of a three toed horse, about the size of a lamb, have been unearthed. The teeth, well preserved, and the entire remains of a prehistoric dog have been brought to light. It is believed that this animal lived at least 5,000,000 or 6,000,000 years ago. The scientists say that the fields about Mina are the most marvelous in the world.

Fossils 18 feet high are to be seen cropping out in the heart of the desert miles away from any human life. In the vicinity is a bed of pure carbonate of magnesia, which assays show runs 97 per cent.

The remains of fish are to be seen sticking out of the banks. The professors are bending their efforts to secure specimens of mammals. The remains of an extinct camel, dating from the miocene period, have been secured.

Effort is being made to obtain specimens of the water lizzard, believed to be the oldest known form of animal life. Fish many feet in length are to be seen and every indication points to the fact that the remains, so perfectly preserved, belong to a period at least 5,000,000 years ago. Along the southern edge of the desert, which is believed to have been a lake at one time, there has been discovered coal of a high quality.

An eastern syndicate owns the property upon which the prehistoric discoveries have been made. They acquired the land to work the magnesia deposits and also to prospect for gold, which is found in nearby sections in quantity. Permission was granted the scientists by the local manager to study and take specimens of the relics.

An effort will be made to have the Smithsonian Institute send an expedition to make a thorough

study, as it did of the mammoth tracks discovered at Carson City in the yard of the state penitentiary.

WESTERN FILM FEATURE TONIGHT AT THE BUTLER

IN ADDITION TO FILM PROGRAM VAUDEVILLE ENTERTAINERS HAVE NEW ACTS

"Aunt Miranda's Cat," Edison, a hearty comedy intermingling the love affair of an old maid and her charming niece. The story hinges on a pet cat who died and lived again, but not in vain.
"Fisher Maid's Love Affair," is one of Pathe's very best dramas.
"Trail of Gold," by Essany, and the last number on the program will be "The Craven." A young western woman marries and promises to love and honor her husband. He is such an arrant coward she cannot respect him, much less honor him. He is elected sheriff by his neighbors, who are led by his wife's protection, to believe he is a brave man. He is requested to arrest an outlaw, dead or alive. He lacks the nerve to do it. His wife takes the desperado, shooting him in an exchange of shots. She makes her husband deliver the body at the jail, claiming for himself the honor which she won by her own determination and courage, saving him from disgrace. A stronger play has never been staged than this western Vitagraph portrayal to be shown at the Butler tonight. There is something about it that gets you and makes an impression for good.
Stewart and Irion, that clever singing team, will be heard again in new songs. The orchestra needs no mention, but tonight it will have a special program of music.

WILL ATTEMPT TO BREAK UP WHITE SLAVE TRAFFIC

GERMAN GOVERNMENT WILL SECURE ASSISTANCE FROM RAILROAD MEN

BERLIN, June 13.—Determined to break up the "white slave traffic" the German government has pressed into service the employes of the railways, which are state owned.
Promotion and money rewards are to be given, according to a plan announced today, to station men and conductors who discover and intercept girls who are being sent out of the country for immoral purposes. Usually the girls are unaware of their fate, and railway employes are ordered to intercept and hold for investigation any young woman whom they believe a victim of traffickers.

TONOPAH DIVIDE COMPANY HAS BEEN INCORPORATED

Articles of incorporation of the Tonopah Divide Mining company have been filed with County Clerk Joseph Hamilton at Goldfield, the company to be headed by George Wingfield, F. C. Favier and A. H. Howe of the Consolidated, and H. C. Brougher and S. H. Brady of Tonopah.
The company is incorporated in the sum of \$1,000,000, covered by a stock issue of 1,000,000 shares of a par value of \$1 each. The paid-up capital is \$1000, the shares covering this amount being held by Messrs. Wingfield, Favier and Howe. The board of directors has established its quarters in the Consolidated building at Goldfield and is composed of all the parties mentioned above.
