Warning to Beer Drinkers

Read every word in this opinion. Remember it is not our statement, but the deliberate opinion of a great scientist working for perfection in beer.

Pure beer is food and tonic. G. Beck (Bierbrauer, 1881, N. Y.) finds that

"beer in light bottles deteriorates more quickly than beer in dark bottles when exposed to the direct sunlight."

His tests were continued for three weeks and proved that beer in light bottles had acquired a very disagreeable, nasty taste and flavor and was unfit for consumption.

The Brown Bottle with Schlitz is not a fad. Its use is based on scientific principles.

We have adopted every idea, every invention, every innovation that could make for purity.

Schlitz is sent to you in Brown Bottles to protect its purity from the brewery to your glass.

Why don't you make Schlitz in Brown Bottles your regular beer?

Newton Girl

PALE, RUN-DOWN, ANEMIC—RESTORED TO HEALTH BY VINOL.
Miss Katharine Burns of Newton, Mass., says: "About six months ago I was in a run-down condition and my blood was very poor. I had taken several medicines prescribed by physicians, but they seemed to do me no good. Finally Vinol was recommended, and from the first bottle I noticed a great improvement. I have taken six bottles and I feel strong and as well as ever."—Katharine Burns.
