

Neat Fortune for Tonopah Stockholders

LOCAL BUYERS CLEAN UP ESTIMATED SUM OF \$189,000

AVAILABLE FIGURES SHOW THAT TOTAL OF 350,000 SHARES NORTH STAR STOCK PURCHASED LOCALLY

Tonopah certainly made a killing on North Star and what's more, the boys have the money to show for it. Instead of doing as they did before, waiting for the stock to reach a given point at which they had concluded to get off, the local speculators staid with the game long enough to catch the market on the first sign of a break and cash in their holdings. Yesterday was a wild day on 'change and when the sun went down Tonopah was \$150,000 better off as a result of foresight in anticipating the rest of the wave.

North Star has always been one of the prime favorites with the local rail birds who haunt the offices on Main street and they have had such faith in the outcome of that antipathetic property that they began buying six months ago when Star was in the teens. They kept on buying when the stock reached 20 and 25 and some of the tardy ones got in at 28. Beyond that the wise ones feared to venture but they remained with the market and watched the steady ascent since the day when the March interest in New York was defeated and Zelig retained control with Jim McQuillan and Jim Heney in executive positions.

It is estimated that something like 25,000 shares of North Star were owned in Tonopah and out of this the same conservative authority figures that three-fourths of the aggregate changed hands pretty close to the top of the market. The windings are difficult to figure and a whole lot is left to the imagination of the reader since there is no possible way of learning whether a man was trading in his stock of working in a margin. San Francisco advices state that a majority of the trading was done this week and last week was for Tonopah clients

and the rest is left to inference. The sales some days amounted to over 50,000 shares and one of the tightest days since the advent of the North Star in the firmament of speculation called for the delivery of 35,000 shares, representing a market value of \$22,000. The highest day's business was when the market reached the top notch and prices ran from 96 to 73 involving transactions amounting to an average of \$76,500.

The unloading began Sunday afternoon when the first evidence of weakness developed through the circulation of a report that the Star had entered another fault and that the end of the big ore body was in sight. The report was scattered broadcast and it is significant that the time for transmitting the news was the same day and hour that marked the big break in Tonopah last summer. Sunday is a good day to circulate reports, good or bad, as it leaves to the rustling broker the faculty of availing himself of the knowledge imparted over the wires. Sunday afternoon seventy was bid for North Star and the wise ones began to seek cover. Monday morning quotations from New York, Boston and Philadelphia seemed to give the lie to the Sunday story for the market in every case was decidedly strong and bullish. Then the buyers ran away with prices which rapidly soared until the high mark of the boom was touched at 96. Then the decline began and the whole framework tumbled like a house of cards coming down with huge chunks cut off quotations and stopping only with the lower end of the seventies in sight. This morning the opening was in the sixties and reference to the quotations on the fourth page of the Bonanza will show the business registered today.

APPROPRIATIONS IN CALIFORNIA SHOW HUGE INCREASE

BULL MOOSE ADMINISTRATION PROVES COSTLY LUXURY FOR TAXPAYERS.

(By Associated Press.)
SACRAMENTO, May 6.—The biennial appropriation bill was completed today by Assemblyman Chandler, chairman of the ways and means committee, and carries an appropriation of between thirteen and fourteen million dollars for the support of the departments of the government and state institutions for the next two years. It is estimated this exceeds by a million and a half the appropriations of two years ago.

The principal items that cause the increase are \$700,000 for the agricultural department of the state university; half a million for free text books; a fund for the workmen's compensation board of \$300,000; the orphan and half orphan aid of \$860,000, and a fund for parole work by prison directors of \$30,000. It is expected the bill will be introduced this afternoon or tomorrow.

WILSON CABINET LITTLE CHANGE IN CONDITION OF VICTIMS EXPLOSION

ADMINISTRATION IS SCORED IN RESOLUTION INTRODUCED IN THE HOUSE.

(By Associated Press.)
WASHINGTON, May 6.—The statement by Secretary Worcester of the Philippine commission that slavery existed in the islands was denied in a protest filed today with Secretary Garrison by Manuel Quezon, resident commissioner of the Philippines who said the conduct of Worcester and new evidence secured necessitated prompt action being taken to remove every member of the commission from governor general down. He says the false report was purposed to convince the Americans that the Philippine assembly was representing the capacity of the Filipinos for self government and was a failure.

President Wilson did not discuss at the cabinet meeting today the California anti-alien land bill, but the Mexican problems were considered. Representative Britton of Illinois introduced in the house a resolution providing for a test by the department of state of the constitutionality of the land bill "with a view of its annulment." He scored the administration attitude toward the Japan and California situation and the England-Panama canal kink controversy.

FREDDIE ROWE RALLIES SLIGHTLY BUT NO HOPE HELD FOR RECOVERY.

NOTED TODAY IN THE CONDITION OF VICTIMS OF SUNDAY'S ACCIDENT.

But little improvement was to be noted today in the condition of Freddie Rowe, one of the youthful victims of Sunday's accident. This morning the young patient was declared to be in a sinking condition with no hope held out for his recovery, but shortly afterwards he rallied and gained considerable strength. It was stated, however, that the rally was but temporary, and indications pointed to the return of the sinking condition. This afternoon he was resting easily.

No word was received today from San Francisco regarding the condition of Reuben Shiroda, who was taken to the coast yesterday by the father to be placed in the care of an eye specialist as the only hope of saving the eyesight of the injured boy. The lack of news is construed to mean that the lad stood the trip well.

Russell Shiroda, who suffered the amputation of his leg as a result of the injuries received from the explosion, is regarded as practically out of danger. He is fast gaining strength and no complications have resulted that would cause worry over his condition. Today he was cheerful, although he passed a restless night.

NEVADA SCHOOL LAWS CHANGED AND REVISED BY ACTION OF THE RECENT LEGISLATIVE SESSION

The state legislature at its twenty-sixth session made several important changes in the school law. The duties of the state board of education were enlarged requiring that the board add to the present course of study for the seventh and eighth grades, business forms and elementary bookkeeping or some form of industrial work and to the high school course of study full commercial and industrial courses.

The text book law now provides that school trustees shall purchase all new text and supplementary books and school supplies that are needed by the pupils and pay for them out of the county school fund of the district. The books are to be held as the property of the district and loaned to the pupils. Parents and guardians of pupils will be held responsible for the proper use and care of the books and shall pay for any books damaged or lost by the children. Manual training and domestic science equipment may be bought and used in the same manner as text books. In making up the budget of school expenses for next year it will be well for trustees to note that the district must furnish the text books and make allowances for that additional expense.

After July 1, 1913, a new census law will go into effect and will in all school districts having fewer than thirty school census children the teacher will act as census marshal without receiving additional compensation for the work. In districts having more than thirty census children the present system will continue.

The new law granting teachers' certificates adds business forms, civics and current events to the subjects required for elementary certificates and also allows the state board to

give credits toward certificates for satisfactory work in standard summer schools.

In order to help needy school districts the county commissioners may now transfer money from the county general fund to the county school fund of any district if the district has levied a special school tax for that year of not less than 25 cents on the hundred dollars. Under certain restrictions such a transfer may be made to help the district carry on high school work.

The superintendent of public instruction now has the power to compel the transfer of school money due to any child or children from the fund of one district to that of another if the child or children have during the school year moved from the one district to the other.

Heretofore the state board of education has had full control of the state permanent school fund. There is now created a state investment board consisting of the board of education, the attorney general, and the state treasurer. The investment board may use the money to buy United States securities, bonds of this state or other states, and bonds of any county of Nevada, provided the total indebtedness of the county does not exceed ten per cent of its assessed valuation and the bonds bear not less than five per cent interest.

A decidedly welcome change in the law is one which allows a county to bond for building a high school without receiving additional compensation for the work. In districts having more than thirty census children the present system will continue.

The new law granting teachers' certificates adds business forms, civics and current events to the subjects required for elementary certificates and also allows the state board to

OFFICE WORK IS REVIEWED BY ATTY. GENERAL

BIENNIAL REPORT IS DISTRIBUTED SHOWING RECORD OF TWO YEARS.

The biennial report of Attorney General George B. Thatcher has been printed and distributed. It is an interesting volume, containing a complete review of all the work done in the attorney general's office during the last two years. All the opinions written by the attorney general are in the report, as well as a review of the work done by the railroad commission. Among the opinions are two interpretations of the anti-gambling law written at the request of District Attorney Woodburn of Washoe county and District Attorney Sanders of this county.

The report also contains a number of opinions written by the late Cleveland H. Baker and the annual reports of each district attorney in the state.

Accompanying the attorney general's report is a carefully prepared schedule showing changes made in the revised statutes by legislative acts passed by the twenty-sixth legislature.

Memorials to the late Attorney General Baker and the late Deputy Attorney General James H. Judge also are found in the report.

JUSTICE COURT IN NEW LOCATION FLORENCE AVE.

JUDGE DUNSEATH MOVES QUARTERS SEVERAL DOORS SOUTH OF OLD OFFICE.

Justice of the Peace Harry Dunseath has moved the justice court from upper Main street to Florence avenue, a few doors above the point of intersection between Florence and Erie street. The new location is in the building formerly located on Main street and occupied by M. G. Orr as a grocery store. The structure was purchased by Dunseath and recently moved to its present location.

Owing to the confusion of the moving of the court furniture and records no cases came up for trial today. Tomorrow the court will be running in full blast.

ARM CRUSHED WHEN STRUCK BY SLAB OF STONE

TIMBERMAN AT TONOPAH EXTENSION MEETS WITH PAINFUL ACCIDENT.

John Gallon, timberman at the Tonopah Extension mine sustained a badly crushed wrist and forearm this morning when he was struck by a falling slab of rock. He was rushed to the Miners hospital where Dr. McLeod announced that it was possible the hand would be saved.

Gallon, who is well known in Tonopah, was at work in the mine placing a timber in position when the slab of stone fell and struck him on the forearm.

A store that advertises must be a store of values—"bargains"—or the advertising would not pay.

BENEFIT DANCE FOR RELIEF OF TWO FAMILIES

FUNDS WILL GO TO ASSISTANCE OF LADS INJURED BY EXPLOSION SUNDAY.

For the benefit of the three children who were injured by the explosion Sunday afternoon, a dance will be given at the Miners Exchange hall Friday evening and the proceeds donated to the families of the three youths. Both families are not overburdened with the goods of this world and are somewhat hard pressed by the recent misfortune. This is especially true with Fred Rowe, who has been unable to work for the past six months, having sustained a fractured leg while at work in the Montana.

The management of the Miners Exchange hall, Messrs. Flood and Davidovich have donated the use of the hall for the evening, while the Casino orchestra members have volunteered their services for the occasion. Several donations have been received to date and it is expected the total amount of funds derived from other sources and also from the ticket sale will reach over \$500.

Among the donations thus far received is \$40 from the Tonopah Banking Corporation. The dance is being arranged by Mrs. Eugene Howell and Mrs. Tom Landborough.

POSSE SEARCH FOR ROBBERS WHO MOLEST JAPS

LITTLE BROWN MEN FORCED TO STAND ALONG WALL AND DELIVER COIN.

(By Associated Press.)
LOS ANGELES, May 6.—The sheriff's posse is searching for three men who robbed the Japanese gardeners at a colony near here early today. The victims were forced to stand facing a wall while their clothing was searched. The loss is about \$50.

MILITIA CALLED OUT TO SETTLE SYRACUSE STRIKE

SYRACUSE, MAY 6.—THE MILITIA WAS CALLED OUT ON STRIKE DUTY AS THE RESULT OF A RIOT TODAY WHEN FIFTEEN MEN WERE INJURED, SEVEN OF THEM POLICEMEN. FIVE HUNDRED ITALIAN BUILDING LABORERS ARE INVOLVED. QUIET WAS RESTORED TEMPORARILY.

(By Associated Press.)
SYRACUSE, May 6.—The militia was called out on strike duty as the result of a riot today when fifteen men were injured, seven of them policemen. Five hundred Italian building laborers are involved. Quiet was restored temporarily.

THE METHOLICAL HOUSEWIFE

One woman said to another the other day:
"Florence, how do you manage? You have prettier things in your house, better food on your table and wear better clothes than I, and yet I don't believe you spend nearly as much money as I do."
"I'll tell you how I do it. I spend just twenty minutes a day reading the newspapers. By looking through the advertisements each day I see just where and how I can get the smartest things and the best values for my money."
"By looking at the ads, I learn just who is selling what I need at the best price and then I go right after it. No matter what I want, food, clothing or entertainment, I find out where I can get it most quickly and conveniently. Twenty minutes a day saves me hundreds of dollars a year."
The advertisements in the BONANZA are signboards to many women. By the regular perusal of these ads the cost of living is reduced in many a home.

FROM MANGER TO THE CROSS IS A FEATURE FILM

LIFE OF CHRIST FROM BIRTH TO CRUCIFIXION TO BE SHOWN TOMORROW.

Everybody should go to the Butler theater on Wednesday of this week and see that most remarkable of motion pictures, "From the Manger to the Cross," the story of Jesus of Nazareth produced in authentic locations in Palestine and Egypt by the Kalem company. There will be two presentations in the afternoon and three at night.

This is probably the most expensive and carefully planned film in the world, consisting of five parts in six reels. The life of Christ from His birth in a manger at Bethlehem to his crucifixion upon the cross at Mount Calvary is presented. The pictures are wonderfully good, depicting the costumes and scenes of the Holy Land. The Kalem company followed Tissot in the detail of dress and customs and Herr Schick in architectural matters. Critics from all the larger cities say that this is a greater production than the Passion play. The price of admission to this production will be 25 cents, children 10 cents. Special music to suit the picture.

MILITANTS WOULD DESTROY GRAND HOTEL AT LONDON

(By Associated Press.)

LONDON, May 6.—A suffragette was arrested this morning for placing a bomb at the entrance of the Grand hotel which was crowded with Americans.

St. Catherine's church in the suburbs was virtually ruined by a suffragette fire.

HEAVY DECREASE IN VOTE OF SOCIALISTS

(By Associated Press.)
LOS ANGELES, May 6.—A heavy decrease in the Socialist vote was indicated early during the voting at today's municipal primary election. It was predicted that Job Harriman would not qualify as one of the two nominees for mayor for the election on June 3.

CHURCH WILL GIVE DANCE ON NEXT THURSDAY

ENJOYABLE AFFAIR IS PLANNED AT NEVADA THEATER ON EVENING OF MAY 15.

For the purpose of securing funds to pay off the outstanding indebtedness the members of St. Mark's Episcopal church have arranged for a dance to be held at the Nevada theater on Thursday evening, May 15. Tickets for the affair will be offered for sale during the latter part of this week by the members of the church.

It is intended to wipe out all obligations before the departure of Rev. Geo. Gallup for Denver where he was recently promoted to the office of assistant priest of St. John's Cathedral. Several small bills are outstanding and the church members decided upon the dance as the best method of securing the necessary funds. It is probable that an interesting instrumental and vocal program will be rendered during the evening, as arrangements to that effect are now being prepared.

TOWNSITE DAY AT CARRARA WILL BE ATTRACTION

MANY EXCURSIONISTS FROM ALL POINTS WILL GATHER AT NEW TOWN MAY 8.

Townsite day at Carrara, which will be on May 8, gives promise of attracting many Tonopah business people. In addition to the attendance from Goldfield, Reno, Los Angeles and other points it is expected that nearly a thousand sight seekers will journey to the new town and inspect the working of the mammoth marble quarry.

M. J. Moore, who has charge of the Townsite day, has stated that ample accommodations will be provided to all who join the excursion and that an opportunity will be provided all visitors to visit the quarries. The town has been laid out in a model manner and all public utilities have been installed. A feature of the young city is the establishment of a fountain in the center of the townsite. The water to supply the fountain is furnished by means of a pipe laid to Gold Center.

FORMER LOCAL CHARACTER WINS STREET BATTLE

ONE TIME HEAVYWEIGHT CHAMPION WINS IN WALK FROM STRANGER TO RENO.

Jim Fell, once a well known character about Tonopah, who was asked to leave this camp three or four years ago on account of his continued idleness engaged in a one round battle in Reno Saturday and emerged the victor. Concerning the scrap the Gazette has the following: "Old Jim" Fell, formerly of Virginia City, remains the undefeated heavyweight champion. The hero of hundreds of hard fought ring battles figured in his last contest Saturday and emerged victorious, his opponent being lifted to his feet and helped from the arena.

The arena this time was Commercial row, immediately in front of the Palace saloon, and the battle was witnessed by several hundred persons. It was pulled off while No. 9 was standing in the yard and a large number of travelers witnessed the fight, which was under London prize ring rules.

Fell and the unknown fighter whose only sobriquet seems to be "Pool Shark" had several preliminary arguments and made several unsuccessful efforts to get together before striking a blow. Finally the "pool shark" rushed Fell, who up to this time had retreated when his opponent advanced stood his ground and landed a straight right to the face. Then they clinched and Fell threw his man heavily to the pavement. His head struck hard and he was dazed for several moments.

On lookers interfered, but Fell's opponent was covered with blood and staggered away unable to continue the encounter.

Jim Fell was for years one of the best known figures in sporting circles. He fought many battles on the Comstock and was never defeated.

FIVE HOISTS WORKING IN RAWHIDE DISTRICT

J. M. STAFFEN, ENGAGED IN HAULING THE QUARTZ MILL FROM WADSWORTH TO RAWHIDE, WILL TAKE FOUR EIGHTS ON HIS NEXT TRIP. HE SAYS WHEN THE 20 STAMP MILL IS ESTABLISHED A TUBE MILL WILL BE ADDED TO IT, THE SAME AS USED AT FAIRVIEW AND WONDER. HE SAYS FIVE HOISTS ARE NOW AT WORK IN RAWHIDE AND THE CAMP IS LOOKING MORE PROSPEROUS THAN EVER.—FALLEN EAGLE.

J. M. Staffen, engaged in hauling the quartz mill from Wadsworth to Rawhide, will take four eights on his next trip. He says when the 20 stamp mill is established a tube mill will be added to it, the same as used at Fairview and Wonder. He says five hoists are now at work in Rawhide and the camp is looking more prosperous than ever.—Fallon Eagle.

TEMPERATURE REPORT.
Highest temperature yesterday, 74; a year ago, 57.
Lowest temperature last night, 53; a year ago, 41.
