First the School

The following from the Clark County Review is so applicable to our own town that it is worthy of publication, but should be taken to heart and acted upon by the people who have children attending our schools.

You hear a great deal about our schools, talk much about them, think some about them, and peradventure wonder not a little more about them than if they were in China. How many heads of families, parents, business men, men of minds, ever cross the threshold of the school room? How many ever offer a word of encouragement to teacher or scholar and let them know by your presence, at least occasionally, in the school room that you are an interested party, really desirous that they should prosper, and that you have their best welfare at heart? How many have personally recognized the head of the school, he who has the training of the mind and the building of the character, the character of your girl or boy? How many have kindly counseled and advised with him, showing you are with him in the great work, wishing him well, and cheering with a "God speed." How few, methinks can answer in the affirmative, and yet you often hear of the school and feel that it is not what it should be, and what you wish it was. Will it help to be constantly finding fault, continually growling and denouncing it with almost every breath? and when some trivial or even grave mistake is made will it better matters to pompously parade the same before the public?

Things are not often just as we would like to have them, and surrounding circumstances not always as we imagine or hear they are, and very often if we knew the exact condition and state of affairs our minds and opinions would be the reverse of what they were without a knowledge of facts.

Now this is merely offered as a hint and while we presume many will read it, it is hoped some will think about it and at least a few be induced to act upon it and visit our schools at least occasionally.

While few people in this part of the state were caught in the failure of the State Bank & Trust company, they will sympathize with the depositors in that institution when they read of the easy manner in which a judge was induced to let the receiver grab all he wanted of the depositors' money as salary, while also drawing salary from the state—Ely Exporter.

When two auto trucks collide on the desert it is a sure sign that we are facing an overcrowded condition and that population is fast increasing.

Exit Jack Johnson—and the sporting world is now waiting to see who will take his place in the squared ring.
