

REDUCTION WILL AMOUNT TO 25 PER CENT IN FREIGHTS

RAILROAD COMMISSION ISSUES LATE STATEMENT AS TO RECENT ORDER.

The following statement of facts has been sent out by the railroad commission and partially describes the benefits to be derived by the recent order reducing freight rates within the state:

The railroad commission, on June 18, 1913, entered an order reducing intra-state class freight rates on the Southern Pacific company's system in Nevada, the order being based on a reconsideration of cases 76 and 139 in which orders had already been entered, the validity of which have been pending the in the United States circuit court, district of Nevada.

The opinion gives a history of the two cases under reconsideration and states that the final conclusions have been reached on the basis of the testimony submitted in the original hearings, in the hearings before the United States circuit court, and at the hearing on reconsideration which was held June 5, 1913. It is further set forth, that in the judgment of the commission, the rates heretofore prescribed in cases 76 and 139, need substantial modification in view of changed conditions.

The order prescribes a new scale of class rates to govern the movement of freight, and vacates the former orders of the commission as soon as the new rates are put into full force and effect.

On the basis of the tonnage moving, the reduction will amount to approximately 25 per cent when compared with the present rates in effect, and this order prescribes approximately 10 per cent greater reduction than the orders in the former cases which were vacated.

The rates prescribed by the commission will mean a great saving to shippers of freight in the state of Nevada, and it effects reductions in the class rates between practically every point in the state of Nevada upon the main line and branches of the Southern Pacific company, and from main line Southern Pacific points to points on the Tonopah & Goldfield railroad which will be automatically reduced by the combination of the new rates applying to Mina plus the rates established by the Tonopah & Goldfield railroad to points south; further the order will effect reductions to points located on the Nevada Northern railway, Nevada Central railroad and the Eureka-Nevada railway, on account of the reduction in rates to the Southern Pacific company's junctions with those roads.

These rates are to become effective July 1, 1913, and aside from the great saving of freight charges on the present movement it will undoubtedly mean that shippers in the state of Nevada will be able to greatly increase their business on account of these lower charges for the transportation of their commodities.

HEART TROUBLE CAUSES DEATH OF TONOPAH PIONEER

AUGUST ANDERSON PASSES AWAY AT OAKLAND AFTER ILLNESS SEVERAL MONTHS.

August Anderson, a pioneer resident of Tonopah, died in Oakland yesterday after a short illness. Death was caused by valvular heart trouble. He was 57 years of age and had resided in this city for eight years. For a number of years Anderson had charge of the Mt. Oddie Mines company property, which lies east of the Buckeye property.

About two months ago Anderson was taken ill and visited the coast in the hope that the change would prove beneficial. He is survived by two daughters, Mrs. Fred Wille of San Francisco, and Mrs. C. M. Johnson of Tonopah, both of whom were at the bedside when death came.

TEMPERATURE REPORT.

Highest temperature yesterday, 75; a year ago, 80. Lowest temperature last night, 49; a year ago, 46.

LARGEST PHOTOGRAPH IN WORLD IS TAKEN IN TONOPAH BY CAMERA MANUFACTURED IN THIS CAMP

After laboring for six months and incurring an expense of \$3000, F. W. Sheelor of Tonopah has constructed the largest panorama camera in the world and the first picture, which also has the distinction of being the largest ever taken, is now on exhibition. The picture is 12 feet, 3 inches, in length, and 25 inches in width, and shows a panoramic view of Tonopah district with over two miles of territory being clearly defined.

Sheelor is originally from Sisson, Calif., and about six months ago started work upon the construction of what he declares to be the largest camera in the world. For a number of years he offered manufacturing firms a fancy price to make such a picture taking machine but the offer was refused. Every piece of the camera was made in Tonopah, excepting the lens, which was imported from Germany. The progress was necessarily slow and it was not until a short time ago that the work was completed.

Last Thursday Sheelor carried the camera to the top of Mt. Brougher. The outfit was conveyed to the mountain top in sections and late in the afternoon it was set up and the picture taken. The sweep of the machine includes views starting below the Extension mine and ending with the old high school building. Practically every mining company in the district is included in the view, while every building in the city stands out in prominence. The picture is clear in detail and shows people walking about the streets in every part of town. Two pedestrians are to be observed walking along the railroad track near the Montana mine, practically a mile from the point where the view was taken, showing the clear manner in which objects were brought out.

MUST HANDLE DAILY PAPERS WITH DISPATCH

NEW INSTRUCTIONS SENT OUT TO ALL POSTMASTERS FROM WASHINGTON.

Instructions have been received by Postmaster Stewart, of the Tonopah office, and in fact all postmasters from First Assistant Postmaster General Daniel C. Roper, directing them to handle all daily newspapers sent to subscribers through the mails, with the utmost dispatch possible after disposition of first class matter.

"Many of these publications contain market quotations and other commercial data which are used frequently as the basis of the subscribers' daily business transactions, and the value of this information is lost if it is unduly delayed in transit," Mr. Roper explained to the postmasters.

He directed that upon the receipt of mail at a postoffice, all sacks labeled "daily papers" should be distributed promptly, and every effort made to effect their delivery on the first carrier trip after the receipt of mail in the office, provided the delivery of first class mail was not delayed.

TWO HORSES ARE KILLED AND LOAD OF HAY BURNED

NELS FAUERDY LOSES OUTFIT BY DRIVING INTO ELECTRIC WIRE.

Nels Fauerdy, the Manhattan freighter, is mourning the loss of two horses, a wagon and a load of hay, as the result of coming in contact with an electric wire Sunday at the northern camp.

Fauerdy was hauling a heavily loaded hay wagon when the electric wire that had sagged evidently from the high wind that had been blowing, came in contact with the hay. The voltage was also transmitted to the two wheel horses and both were killed. The hay caught fire and within a few minutes the entire wagon was a mass of flames. Both wagon and contents were consumed.

Fauerdy escaped injury although his nervous system was shocked by the suddenness of the accident.

11,000 GARMENT WORKERS AT CINCINNATI STRIKE

CINCINNATI, June 24.—Eleven thousand garment workers obeyed the strike order yesterday. Work in nearly all factories and shops is at a standstill.

One of the views has been purchased by H. H. Bacon and is now attracting attention at his place of business. It was inspected by a large number of people yesterday and declared to be a work of art.

Sheelor will leave shortly for Montana where he is under contract to take photographs for several of the leading railroads crossing that state, and will probably use his new camera during the trip. The films used in the machine are of special manufacture and are imported from France.

The machine can take a picture 36 feet in length, which means a complete circle. The width will be the same in all pictures, or 25 inches. The mechanism is so adjusted that any fraction of the 36 feet of film can be exposed.

TWO RUNAWAYS CAUSE DAMAGE TO MACHINES

AUTOMOBILES ARE SLIGHTLY DAMAGED DURING WINDY AFTERNOON INCIDENTS.

Ignorance of the ways of a bustling community and the failure to tie his automobile to the curbstone, resulted in a slight damage to the machine owned by Jake Goodfriend last evening. Goodfriend drove over from Goldfield during the afternoon and his auto was left standing in front of the Butler theater.

Shortly afterward Mike Glogovias of the Extension grocery store purchased a new horse for his delivery team, and was hitching the animal to the wagon. The steed became frightened and started down the street. One of the front wheels of the wagon interlocked with the front wheel of the auto and the two vehicles traveled together. The auto started for the gasoline pumping station in front of the Lothrop-Davis company and after coming in contact with the pump, the horse was thrown to the sidewalk.

The damage to the auto was slight, nevertheless the owner insists he will tie it to a post the next time he visits the city. The horse likewise escaped damage, while the wagon fractured a shaft.

Another runaway occurred earlier in the afternoon on Main street in which the automobile belonging to Superintendent Bradshaw of the Belmont and the Wells Fargo wagon figured. The machine was driven by Mrs. Bradshaw and lightly collided with the heavy wagon. The wheel of the express vehicle was chained and the horses after running for about half a block were stopped. The front of the automobile was smashed.

JOHNSON SIGNS THE WRONG JUVENILE BILL

SACRAMENTO, June 24.—It was discovered today that the governor had signed the wrong juvenile court bill. The original provided for the rotation of judges, but was amended several times, and the rotation feature was stricken out. The original was engrossed and sent to the governor with amendments omitted.

BRITISH CHAMPION AGAIN THE VICTOR

HOY LAKE, England, June 24.—J. H. Taylor, four times winner of the British open gold championship won again today with 304 for four rounds.

Captain of industry, mine operators and promoters, financing or sales campaign lags consult newcomer who thoroughly understands the promotion business and knows how to bring results. No benefits—no pay. Excellent credentials. Address "London," care Tonopah Bonanza. 124-42

MASS MEETING WILL DECIDE DRILLING CONTEST

PLANS ARE UNDER WAY FOR TWO DAYS CELEBRATION TO OBSERVE FOURTH.

For the purpose of outlining plans for the holding of a drilling contest and baseball game on the Fourth of July, a mass meeting of all interested in the two sports will be held this evening at the brokerage offices of Harry Epstine. Chief of Police Will Evans has called the meeting and it is practically assured that at least a drilling contest will be on the program.

The matter was placed before the ladies in charge of the celebration yesterday and the approval of the general committee was secured. It has been planned to hold a two-days celebration. On Friday, the Fourth, will be held the program for the children as already arranged, while on the fifth the drilling and baseball features will be pulled off. However, should it be decided to confine the program to one day only, the drilling contest will be placed among the list of events for some time Friday.

Practically every business man in the camp has approved of the late plans and pledges have been secured sufficient to raise a purse of at least \$500 for the drilling. The plans will be discussed in full tonight and a definite conclusion will be reached.

TWO MORE POLICEMEN INVOLVED IN SCANDAL

SAN FRANCISCO, June 24.—Frank McConnell and Thomas Curtis, policemen, formerly detectives with the Italian bunco detail, were involved in the scandal today by the testimony of Bical Gallo, the convict witness in the McPhee-Taylor trial. This was the first time their names had been mentioned in connection with the bunco men. Gallo said he had been told they would take money.

CALIFORNIA JURIST MAY SECURE FEDERAL BENCH

WASHINGTON, June 24.—It was reported today that Judge M. T. Dooley of the California superior court had been selected to fill the vacancy in the federal court of San Francisco. A. C. Campbell of Los Angeles has been endorsed for federal district attorney of the southern district, and may be asked to prosecute the cases continued on McNab's request.

FELLOWSHIP IN ADVERTISEMENTS.

Merchants and manufacturers have certain articles they wish to sell. In order to sell them they advertise. "That is their business," you say; "they are doing it for themselves." True they are advertising primarily for their own profit. But there is more to present day advertising than that. It has created a spirit of confidence and friendliness between the seller and the buyer that has become so much a part of our daily lives that we hardly realize it unless we stop to think.

Have you ever made a purchase in the Orient? If so, you remember how you have entered a shop and after poking through confused heaps of articles you have found something that struck your fancy. You asked the price and were told it was worth, perhaps, the equivalent of a dollar. Then ensued haggling, harranging, threats, imprecations until finally at the end of half an hour you triumphantly emerged from the shop, the article in your hand and 50 cents gone from your pocket. When you looked again at your purchase your good common sense told you it was worth about 10 cents.

Contrast such an experience with shopping here today. You will appreciate as never before the value of the BONANZA advertisements, which lead you to firms known for their honest goods and their fair dealings.

HENEY IS NAMED TO PROSECUTE WHITE SLAVE CASES

WILSON DECIDES UPON THE IMMEDIATE PROSECUTION OF FEDERAL SUITS.

(Special to the Bonanza.) WASHINGTON, June 24.—President Wilson has decided upon the immediate prosecution of the Western Fuel company and the Diggs-Caminetti cases, according to an announcement from the white house this afternoon. It was also stated that Francis J. Heney of Los Angeles has been named as special prosecutor, to take the place of Federal District Attorney McNab who has tendered his resignation, owing to alleged interference in the prosecution of the cases on the part of Attorney General McReynolds. No action was taken this afternoon upon McNab's resignation.

REBEL TROOPS AGAIN ADVANCE UPON JAUREZ

ATTACK WILL BE MADE UPON MUCHLY CAPTURED CITY WEDNESDAY NIGHT.

EL PASO, June 24.—A messenger from Casas Grandes reported today that Pancho Villa and 1100 rebels were advancing to attack Juarez. Juarez is defended by mounted cannon and it is estimated the attack cannot possibly be made until Wednesday night.

Ojeda Bottled Up. DOUGLAS, June 24.—Governor Peckham of Sonora telegraphed today a denial that General Ojeda was defeated by state troops at Ortiz, Santa Rosa. He said Ojeda was bottled up, and the rebels were certain of victory.

POINCAIRE IS ROYAL GUEST OF KING GEORGE

PRESIDENT OF FRANCE IS PAYING BRIEF VISIT TO HIS ROYAL NEIGHBOR.

(By Associated Press.) LONDON, June 24.—President Poincare of France arrived today to visit King George until June 27. He arrived at Portsmouth aboard the war vessel Royal and was greeted by the Prince of Wales. Upon the arrival of the royal train at London he was greeted at Victoria station by King George, and escorted to York house where he will stay.

INCENDIARY IS RESPONSIBLE FOR CALIF. FIRES

PLANT OF BAKERSFIELD CALIFORNIA IS DESTROYED BY FIREBUG.

(By Associated Press.) BAKERSFIELD, Cal., June 24.—As a result of the destruction by fire early today of the plant of the Bakersfield Californian, the authorities are investigating several recent fires, suspected of being incendiary. During the past four days the fire loss has been \$250,000.

TWELVE TURKS KILLED FOR DEATH OF OFFICIAL

(By Associated Press.) CONSTANTINOPLE, June 2.—Twelve of the men sentenced in connection with the assassination of Mahmoud Schefket Pasha, grand vizier, were executed today. There was no demonstration. Some of the condemned made speeches and all were brave.

M'NAB SECURES CONTINUANCE IN FEDERAL CASES

DECLARES DELAY HAS BEEN REQUESTED BY ATTORNEY GENERAL M'REYNOLDS.

(By Associated Press.) SAN FRANCISCO, June 24.—United States District Attorney McNab obtained today from Federal Judge Bean a continuance until July 15 of the cases of John Howard and other officials of the Western Fuel company; the Diggs and Caminetti case and the case of the brokers indicted in connection with the charges of the F. Baker embezzlement from the Crocker bank.

McNab said the reason for the continuance was the difference of opinion between himself and the attorney general. "Since these cases have been set," he said, "certain conditions have arisen in the matter of the indictments. The attorney general has requested me to withdraw from the trial owing to certain defendants of the Western Fuel company. We are absolutely unable to agree and I have tendered my resignation."

He said he believed he would be out of office before the trial of Diggs and Caminetti was started.

To Investigate Delay. WASHINGTON, June 24.—At a hearing Thursday the house judiciary committee would investigate the delay ordered by the attorney general in the prosecution of Diggs and Caminetti, and the officers of the Western Fuel company. The president has not acted upon McNab's resignation, and the impression is he will wait further investigation.

START CONTEST LIBERTY GODDESS FOR THE FOURTH

NOMINATIONS ARE MADE AND MANY CANDIDATES HAVE ENTERED FIELD.

At the request of a number of Tonopah people the committee on Fourth of July celebration has decided to open a contest for the Goddess of Liberty. Tickets will be on sale tomorrow at Tonopah Drug Co. and already the following names have been nominated: Miss Lizzie Wardle, Miss Edith Foutler, Miss Mildred Hooper, Miss Anna Critchfield, Miss Anna Malley, Miss Claire Lawrence and Miss Eleanor Malone. Now is the time for everybody to come forward and choose a favorite and work for her election.

The automobile committee requests that all autos be decorated and enter the parade. A prize of \$15.00 will be awarded to the best decorated auto and it is hoped that every one who owns an auto will enter the parade and help to add to the gaiety of the day.

The committee on street lighting is making an effort to have the streets as light as possible for the benefit of the evening revelries. Everybody turn out with some kind of a fancy costume.

CREW OF THE LINER IMPERATOR GO ON STRIKE

PROTEST TO WORKING CONDITIONS AND SAY THEY WERE TREATED LIKE PIGS.

(By Associated Press.) HOBOKEN, N. J., June 24.—The thousand members of the crew of the giant liner, Imperator, at a mass meeting here last night denounced the working conditions of the vessel. They said they had "been treated like pigs," were poorly fed, overworked and placed in crowded quarters. The company is considering the demands for improvement.

REFRIGERATORS. Refrigerators sold at cost by Wood-Sullivan Co. m131f

GOOD CONTENT QUICKSILVER IN MINA ORES

ANALYSES OF SPECIMENS SHOWS NEARLY SEVEN PER CENT OF MERCURY.

Analyses made of the cinnabar ore from the new Mina discovery show the content to be big in mercury. Several specimens brought to Tonopah by the stampedeers from this district, have undergone analyses at hands of local chemists and the returns are practically the same in every instance. The first report was made by Adolph Meyers, of the Nevada-California Power company who late yesterday afternoon announced that the ore showed about 6 1/2 per cent mercury. During the afternoon Prof. Jos. Scott, teacher of chemistry at the high school, conducted two experiments and the returns, although of different specimens, showed mercury to the extent of 6.81 per cent and 7.19 per cent.

It was also discovered that the rock carried lead but no determination was made as to the extent. The value of the mercury ore is best appreciated when it is known that rock containing less than one per cent quicksilver is being worked at a profit in California, while at lone the ore frequently contains about 1 1/2 per cent mercury.

The analyses were made from ore taken from property located by Summerfield, Buck and Shepherd, about a half mile north of the original strike. The ore from the Pepper-Keough main strike gave returns as high as 12 per cent.

MEMORIAL DAY TO BE OBSERVED BY THE EAGLES

EXERCISES THIS YEAR WILL BE CONDUCTED ON SUNDAY, JULY 13.

Elaborate and impressive ceremonies will be held in Tonopah on Sunday, July 13, by the local aerie of Eagles, when the memorial day exercises have been called for the purpose of paying a tribute to the memory of those who are no more. Since the inception of the Tonopah aerie twenty-six deaths have occurred among the membership and it will be to the memory of these lost members that the services will be conducted.

Leonard Fowler of Reno, former deputy attorney general, will deliver the eulogy, Fowler having signified his willingness to journey to this city for that purpose. He is an eloquent speaker at all times. The services will be open to the public.

SUPPLY TEAM WILLOW CREEK LEAVES TODAY

DAN CRONIN DEPARTS FOR EASTERN DISTRICT TO SUPERINTEND OPERATIONS.

Work on the Willow Creek Mining company property at Willow Creek, recently acquired by George Winsfield, will be started this week. This morning a ten horse team from the Wittenberg stables, departed for the district, conveying lumber and mining supplies of all kinds to be used in the development of the property.

Dan Cronin, a pioneer of Nevada, who recently arrived from Eureka, accompanied the supplies and will superintend the mine operations under Albert Burch, superintendent of the Goldfield Consolidated.

MANHATTAN UNION OFFICERS. At the recent semi-annual election held by the Manhattan Miners' union, the following officers were elected: Tom Reid, president; F. P. Crews, vice president; W. A. Hess, secretary-treasurer; Dan Sullivan, recording secretary; Walter Meissner, G. O. Field, wardens; Jake Hoffman, James Slater, conductors.
