

HUERTA DENIES RIGHT OF THE U. S. TO DICTATE

Retorts to Implied Threat by Raising His Army to 500,000 Men

Tonopah Will Meet Goldfield On Local Gridiron Saturday

Tomorrow Tonopah people will have their only chance to witness a football game this season. The teams of the Tonopah and Goldfield high schools will meet at the Fireman's park in the second of a series of three games. The game will start promptly at 2:30 and will be played through without any unnecessary delay or trouble. The Tonopah boys are trained to the minute and will

play a much better game than ever before. All who have been injured in the past are in shape to take part and the back field has been strengthened very much by the changing of Farrell, who played tackle last game, to the halfback position. Harrington, who does the kicking for the team, is in shape for the game of his life and his long punts and accurate place kicks will be a factor in the

game tomorrow. Lutz, at fullback, is one of the veterans on the team and will take much stopping on the line plunges and open field work. The line proved its worth against Goldfield and time after time held them for downs in the last game. Goldfield will play the same team as in the last game, and the men who will play for Tonopah, with but two exceptions, will be used this game.

PLANS FOR FIRE PROTECTION URGED ON TOWN OF TONOPAH BY THE PUBLIC SERVICE BOARD

The county commissioners are going to do something about fire protection if they can find the money with which to do it. The matter has been dormant ever since the Brougher avenue fire, when it was demonstrated that the loss was due mainly to inadequate protection. The engineer of the public service commission took the matter up when the board was here investigating the water question in Tonopah and has made a report, with important recommendations. These will be taken up by the county commissioners after they dispose of other important matters arising from the changes in the tax roll and questions of finance.

Engineer Prudential offers three plans for improvement by which the town would secure greater fire protection. One of these is for the town to build a couple of fire tanks, of a capacity of 250,000 gallons each, to be kept exclusively for fire purposes and not drawn upon for domestic or mill service. These tanks could be erected near the small tanks on the eastern slope of Mount Brougher, where they would be readily accessible and easily installed. The supply would be delivered to the town through a strong ten-inch pipe, capable of withstanding the pressure. The latter could be governed by a system of automatically regulated valves, to be opened in case of a conflagration requiring the full head of water.

STATES MUST TAKE UP THE MORAL SIDE

PURITY CONGRESS HEARS DISCUSSION OF THE SOCIAL EVIL.

(By Associated Press.) MINNEAPOLIS, Nov. 7.—"Public immorality is a problem with which the states must deal," said Herbert S. Gernert, of New York, in the principal address at the morning session of the International purity congress, which opened today. He said the federal government was seriously handicapped by limitation of correction in a large territory in the extent and growth of the evil. He suggested that each state have a commission on morals.

Mrs. Alice Tebbins Wells of Los Angeles police department, said the policeman had come to stay, and she believed all cities will have many eventually.

JUDGE AVERILL EXPLAINS HE HAS NO CLAIM

Tonopah, Nev., Nov. 7, 1913.—To the Editor Bonanza: Will you please correct a mistake appearing in the issue of the Tonopah Daily Bonanza of November 6? It is stated therein that the supreme court denied to Judge Averill the right to collect for board and mileage while away from home. It is not possible that the supreme court made any such denial, because I had no such claim, nor any claim, before the supreme court or before the state board of examiners, that the supreme court could have acted upon denied. I have not been away from home, except a few hours in Goldfield, but once this year, on which occasion I paid all my own expenses and made no claim upon any one for reimbursement. Nor was I one of the judges who, having more than one county in their districts, took part in an action to compel the state board of examiners to pay expenses other than traveling expenses. In conclusion, the denial by the supreme court does not affect me or apply to me to the extent of one dollar. Very respectfully yours, MARK R. AVERILL.

The information used by the Bonanza was taken from the Carson City News.

OVERHEATED STOVE.

The fire department was called to Corona street at 1:30 this morning by a blaze caused by an overheated stove that had set fire to the roof of a house near the corner of Main and Corona streets.

GOOD ORE IN THE RAISES FURNISHES TWO CARLOADS A WEEK.

Manager Chandler has begun to drift on the North Star, going west from a point 80 feet below the 1950-foot level in the mine. The company is now stopping from the 1959 rise in three feet of good ore. The 1971 raise is now connected through to the 950-foot level and in excellent grade of ore. During the week two carloads have been shipped.

"HOME RUN" HOGAN IS HELD FOR THEFT

FORMER TONOPAH BALL PLAYER ARRESTED LEAVING GOLD-FIELD.

"Home Run" Hogan, the baseball player and catcher for various teams during the last summer in and around Goldfield, says the Tribune, was arrested as he was starting for Taft, Cal. The arrest was made on a warrant sworn to by a man named Orr. Hogan was confronted by Orr at the sheriff's office and the watch, a \$100 gold one that was taken from Orr's room at the Grimshaw on October 19, was found on him. Orr swears Hogan stole it.

MARRIED IN LONDON.

LONDON, Nov. 7.—William F. McCombs and Miss Dorothy Williams, daughter of Colonel and Mrs. John R. Williams of Washington, were married today.

LABOR LEADER ADVISES MEN HOW TO WORK

TOM MANN DECLARES WORKERS SHOULD NOT SEEK A REMEDY IN POLITICS.

Efficiency and not legislation is the recommendation of Tom Mann, the English labor leader, to the workmen of Tonopah. Mr. Mann spoke last night at the Nevada theater to an audience that remained until long after the usual hour for lecturers to dismiss their listeners, and would have waited twice as long if the speaker would only continue his talk. This was one of the most entertaining discourses heard in Tonopah and the remarks were punctuated with applause that kept the house in a thrill.

Beginning with the feudal days, Mr. Mann traced the conduct of labor to the present time, and proved to the satisfaction of his hearers that all unions were making a mistake in their fratricidal warfare and urged them to unite in a solidarity of force—not to use force, but to make their demands and stand for their demands. The organized should help the unorganized and they should stand shoulder to shoulder.

Laboring men had no business in politics and they should not dabble in the affairs of politicians. The history of the world proved that labor never had gained an inch headway through legislative channels. It was all right, he said, for workmen to participate in government, but nothing could be won by making the labor question a subject of legislation. In conclusion, Mr. Mann advocated a higher efficiency as a means to the end of improving social and political standing, as efficiency counted more than talk. Efficiency was a duty for labor to learn and every man should educate himself to that end and educate his children to know that the unskilled worker will always remain at the bottom of capital.

TONOPAH WOMAN'S CLUB.

The regular meeting of the Tonopah Woman's club will take place tomorrow (Saturday) afternoon at the Christian Science church. All members are requested to come promptly at 2:30 p. m., as business of unusual importance is to be considered and a full attendance is hoped for.

MALLEY GOES TO MANHATTAN.

Sheriff Ed Malley left this morning for Manhattan, Round Mountain and Lone, to serve summonses for the jury which is called to meet on the 12th of November.

Man Who Found the Appendix

By Associated Press. STOCKBRIDGE, Mass., Nov. 7.—Dr. Charles McBurney died unexpectedly of heart disease at the home of his sister in Brookline today. He was 68 years old. Because of his discoveries in diseases of the vermiform appendix he gained world recognition, and his colleagues called him "Father Appendicitis."

STAMP MILL OF SURPRISING EFFICIENCY

TONOPAH FIRM PRODUCES A LITTLE GIANT IN SMALL SPACE.

One of the most remarkable stamp mills produced is being manufactured in Tonopah by Campbell & Kelly, the foundrymen, who have every reason to believe a new era in mining has been established by the discovery. The mill is the invention of Alexis Tetrault, formerly of Denver, who has spent his lifetime in the mill business, and believes he has perfected a device or a series of devices that cannot be excelled for their usefulness in mining.

"This is what I call the biggest small mill in the world," is the way the inventor puts it, and his claims are making good as rapidly as the shops can turn out the little masterpieces of mechanism. The mill consists of two 100-pound stamps, delivering 600 blows a minute, with each blow equaling an impact of 1000 pounds, crushing 5 to 15 tons daily, according to the ore and fineness. All that is required to operate it is a three-horsepower engine and the cost is only \$250. Then there is a concentrator, a simple device that will do clean work with a close saving. A crusher of 25 tons capacity of the roll jaw type is made in sections for easy transportation.

muzeback, is furnished for \$150, and a copper plate for amalgamation, all-steel-plated, 18 inches wide by 5 feet long, may be had for \$25. A six-horsepower gasoline engine can be delivered f. o. b. for \$195, making the cost of a complete outfit \$795, weighing 4000 pounds and capable of competing with a plant costing \$100,000. For the purpose of testing and demonstrating, a complete plant may be seen in operation at Campbell & Kelly's foundry. Mr. Tetrault is now selling state rights and has awarded Nevada to Campbell & Kelly, who have already delivered three mills. These are at Athens, Silver Bow and Republic. Orders for five others have been received, as follows: From Jim Golden, for Klondike; Ed Clifford, at Stone Cabin; Paul Irvine, in White Pine, and two for the West End to be used on the slag from the refinery.

Experienced mining men who have seen the mill say it is so simple that it is bound to revolutionize the industry of milling and to cheapen the cost so every prospector will be able to install his own plant. Manager Jules Smith of the Butler theater, has engaged Mr. MacNamara to appear each evening of next week in a program of songs and choice vocal selections.

SOLOIST ENGAGED FOR THE BUTLER THEATER

TONOPAH COMPANY WEEKLY REPORT

The weekly statement of the Tonopah Mining company shows a total of 3000 tons of ore sent to the mill of an average value of \$18. Eighty-seven stamps were kept dropping through the week and 29 bars of bullion, valued at \$55,900, were sent out, in addition to 34 tons of concentrates valued at \$24,500, making a total production of \$80,500.

SCOUT SHIP SAILS FOR VERA CRUZ EQUIPPED FOR ANY EVENTUALITY

ADMISSION DAY CELEBRATED IN PORTLAND, ORE.

UNIQUE REUNION DINNER AT PORTLAND REMINISCENT OF OLD DAYS.

Unable to return to Nevada to celebrate Admission day, a little colony of former Nevadans celebrated the event at Portland, Ore., Halloween, at a unique reminiscent dinner. Nothing was overlooked that would bring back pleasant memories of their Nevada days and the occasion showed that although all were strangers in a strange land, the odor of the sagebrush was still keen and familiar to them.

One of the party, writing to a Reno friend, described the dinner as follows: "Mr. and Mrs. Paul Keyser, alumni of the University of Nevada, entertained at their home at 1147 East Yamhill street, Portland, at a Halloween dinner and took their guests back over the old days in Nevada. The rooms were decorated to recall familiar scenes in and about Reno and were artistic and beautiful; but the table was the immense thing. Beside each place was a sprig of sagebrush (imported from Nevada), the scene of which brought back sweet memories of that good old state. The courses were many, but the one that appealed most consisted of hot tamales (also imported from Reno, and made by 'Tamale Joe,' the old original, at the 'tamale joint' where the old-time classes used to hold their impromptu sessions, the place where the 1905 sophomore class gave its sensational smoker an event of history in university days). There came pumpkin pies, made from pumpkins shipped from a farm in the Truckee meadows, and it was the best pumpkin pie ever served to hungry sagebrushers.

"The cigars were all lighted with blazing sagebrush to top off the feast. "One room in the Keyser home was decorated to represent a Nevada gambling house of the wild and woolly days; in one corner stood a miniature roulette wheel, with all the chips in sight and ready for action. It was not long idle. H. L. Wilkerson, formerly of Reno, was chosen as croupier and all tried their luck. As usual, the game soon had all the coin. In other parts of the room appeared a faro table, a crap table and even a 21 game was operated. No time was wasted in explaining games, because all were from Nevada. The evening was spent in this amusing feature of the pioneer days of the state. "Those present were: Mr. and Mrs. Louis Kline, Mr. and Mrs. Curry Jamison, Dr. and Mrs. Ong, Mr. Edgar Pierson, Mr. and Mrs. John C. Dickson, Mr. and Mrs. H. W. Wilkerson and Miss Betty Resberg, all of Reno."

KNIGHTS OF COLUMBUS INSTALLATION OF OFFICERS

Tonopah council, Knights of Columbus, installed officers last evening at the home of the order, when the impressive obligations were administered by Hon. E. A. Kellher, district deputy. Luncheon was served. The officers are: Grand knight, F. P. Manuix; district grand knight, Joseph P. Stenson; chancellor, Thomas E. Dwyer; recorder, P. Mooney; financial secretary, William M. Roach; treasurer, Christopher Barry; advocate, Peter McLaughlin; warden, Stephen S. Clarke; inside guard, M. M. Buckley; outside guard, John Grace; trustee, John J. Murray.

TREATED FOR TONSILLITIS.

Letson Ballet's son is recovering from an operation for tonsillitis, performed by Dr. O'Neal.

President of Mexican Republic Declines to Eliminate Himself From the Situation With a Defiance to This Country to Bring About Any Other Decision.

(By Associated Press.) MEXICO CITY, Nov. 7.—Huerta's formal negative reply to the United States' demands, as discussed in detail at the cabinet meeting last night, will set forth that the United States has no right, legal or otherwise, to demand Huerta's elimination. This statement was given today by one of the departments of the Mexican government. It is said the reply also will point out that Huerta has no legal right to accede to the demands. The informant says it was decided to incorporate in the reply a declaration that Huerta intends to increase his army to 500,000.

WASHINGTON, Nov. 7.—The cabinet met today, for the first time in several weeks, with all except Secretary Garrison, President Wilson and the attorney general attending. At the end of the meeting the members were shown Mexican dispatches saying Huerta's reply will be a complete refusal to comply with the demands of the United States. None would comment. All admitted that the Mexican situation was discussed.

MEXICO CITY, Nov. 7.—John Lind arrived here today from Vera Cruz. It is understood the final stages in the negotiations will be participated in at short range. Lind's sudden appearance here is presumed to indicate a desire to bring things to a point immediately.

PHILADELPHIA, Nov. 7.—The scout cruiser Chester sailed today for Vera Cruz. She is equipped for any eventuality. WASHINGTON, Nov. 7.—The navy department officially explained today the order directing marines at the Portsmouth navy yard to prepare for immediate service in a warm climate. It is said the order is preliminary to the execution of a plan announced several weeks ago for working out an advanced base problem. About 1500 marines are going to Cuba for a short voyage on the receiving ship Hancock.

WASHINGTON, Nov. 7.—Under orders, Rear Admiral Fletcher, commanding the squadron in the Gulf of Mexico, on the battleship New Hampshire, is proceeding to Vera Cruz. His arrival will make eighteen American war vessels there.

TRYING TO ARRANGE TAX REBATE OWING TO THE HEAVY GROWTH OF THE ASSESSED VALUATION

County Auditor Grimes is compiling a statement for the commissioners of the amount of taxes to be collected by the county on the new valuation substituted for the valuation of the assessor. This gives Nye county an increase of over \$400,000, on which the taxes for the town of Tonopah would amount to a considerable sum, which it is estimated can be saved to the taxpayers by providing for a scaling down of the amount due from each person. In the cases of those who have already paid their taxes the sum could be related. The district attorney was asked by the county commissioners if such a course would be valid, and was assured that it would. The levy is made for the ensuing fiscal year, and is supposed to be predicated on an estimate of what is required to operate the county after the first of January, 1914. If the commissioners see fit, District Attorney Sanders advised them, they have a perfect right to do as they see fit in the premises by altering or revising their estimates. A flat reduction of 14 per cent is under advisement, as this would enable the county to go ahead with every improvement contemplated when the annual budget was drafted. Unless there is a reduction the funds at the disposal of the town of Tonopah would furnish an embarrassment of riches that might lead to a raid on the treasury.

DIAZ SHOOTS MEXICAN WHO STABBED HIM

ASSAILANT IN CRITICAL STATE AND THE SHOOTER UNDER ARREST.

(By Associated Press.) HAVANA, Nov. 7.—Felix Diaz was arrested today, accused of shooting Pedro Guerrero, a young Mexican, who was wounded last night in an altercation, in the course of which Diaz was slightly wounded. It is reported Diaz handed his revolver to a companion after he shot Guerrero, whose condition is critical. Guerrero stabbed Diaz in the ear and neck.

TEMPERATURE REPORT. Highest temperature yesterday, 61 degrees; a year ago, 52. Lowest temperature last night, 44 degrees; a year ago, 40.

THREE TAPS WILL TELL THE KIDS TO BEAT IT Beginning Monday night the doleful tapping of the fire bell at 8 o'clock will cease and instead of the former eight bells there will be but three taps to notify all children under age to get off the streets. The law will be enforced, as a special officer has been appointed to see that it is observed.
