You Can't Teach An Old Canine New Accomplishments

IS YOUR TAILOR IN TONOPAH OR CHICAGO?

We wish to call the attention of the men of Tonopah to the largest and finest stock of suit and overcoat patterns ever brought to Nevada.

W. D. ELLIOTT, Merchant Tailor BROUGHNER AVENUE, OPPOSITE MIZPAH HOTEL.

WOMAN NAMED IN THE LYMAN CASE

MISS MAUD LEHMAN OF NEW YORK ACCOMPANIED THE PROMOTER ON BUSINESS TRIP.

LOS ANGELES, Nov. 2.—The name of Miss Maud Lehman of New York, for whom a nation-wide search has been in progress for weeks in an effort to obtain her as a witness for the government in the case of Dr. John Grant Lyman, was mentioned today at the Panama land promoter's trial on charges of fraudulent use of the mails.

Miss Lehman, who was said to have known Lyman intimately, lived in the most fashionable section of Los Angeles during the prosperity of the now defunct Panama Development company, through which the promoter was said to have disposed of isthmian lands.

As Lyman's trial grew near government agents attempted to subpoena Miss Lehman as a witness, but were unable to locate her. Her name was brought out in court today by R. J. Halderman of Riverside, who testified concerning a deal through which he exchanged a \$10,000 equity in an orange orchard for 200 acres of land in the Agua Dulce tract in Panama. The Panama Development company was represented as owning the tract, but the government declares it did not.

Halderman, who testified that he had forced Lyman later to trade back, said that Miss Lehman accompanied the promoter when he went to Riverside to examine the orange orchard before arranging for the exchange. He also asserted that Lyman had represented himself as the authorized agent of the Panama government.

DELINQUENT SALE NOTICE

TONOPAH GIBST QUEEN MINING COMPANY—Location of Principal Place of Business San Francisco, California. Location of Works, Tonopah, Nevada.

Notice.—There are delinquent upon the following described stock on account of Assessment No. 7, levied on the 4th day of September, 1913, the several amounts set opposite the names of the respective shareholders, as follows:

Table with columns: Name, No. of Shares, Certifi. No., and Amount. Lists various shareholders and their respective shares and amounts due.

NO NEW TALENT FOUND IN GERMANY AMONG ENTRANTS FOR OLYMPIC GAMES

(By Associated Press.) BERLIN, Nov. 2.—The first inter-collegiate athletic meet ever held in Germany took place at Leipzig during the recent festivities connected with the centennial of the "Battle of Nations."

Dr. Alvin C. Kraenzlein, the old American hurdler and broad jumper, now in charge of the development of German athletics for the Olympic games here in 1916, was present, but if he hoped to discover any hidden talent for the German team in 1916 he was disappointed. All the events on the short program, except the high jump, were won by athletes already well known in the student sections of the regular athletic clubs, and judging by the performances a team picked from all the talent at the meeting would stand little show of winning at an average dual meet between leading American colleges.

The events and performances were as follows, the performances at the Stockholm games being inserted in parentheses for purposes of comparison: 100-meter dash, Kern of Munich, time 10 4-5 seconds (Lippincott, America, 10 3-5); 400 meters, Hermann of Berlin, time 53 seconds (Reidpath, America, 48 1-5); 1500-meter run, Hoffmann of Charlottenburg, time 4:17 4-5 (Jackson, England, 3:56 4-5); 110-meter hurdles, Hait, Munich, time 17 2-5 seconds (Kelly, America, 15 seconds); high jump, Liebrich of Stuttgart, 5 feet 7 1-8 inches (Richards, America, 5 feet 4 inches); broad jump, Hagen of Charlottenburg, 22 feet 1/2 inch (Guterson, America, 24 feet 1 1/2 in.); pole vault, Pohlmann of Charlottenburg, 16 feet 6 inches (Babcock, America, 12 feet 1 1/2 inches); discus throw, Buchgeister of Charlottenburg, 132 feet 4 1/2 inches (Tatpala, Finland, 148 feet 4 inches).

Only a comparative handful of the thousands of university students in Germany competed, and there were only a few hundred spectators, these including Prince Johann George of Saxony, and the rector of the University of Leipzig. Several of the winners in this first meet, notably Kern, Hagen and Buchgeister, may be expected to develop Olympic class in Dr. Kraenzlein's hands. The American trainer is devoting himself with energy to the building up of a system to make the most of the admittedly good German raw material in the short two and a half years before the games. At a meeting of the German committee on athletics, held during the Leipzig meet, he declared that German efforts must be directed first toward bringing out and developing latent talent, and secondly toward inducing promising athletes to specialize instead of scattering their energies over a dozen events in as many different sports.

Next year will be devoted to finding and assembling as many candidates for the team as possible, who will be brought to Berlin during the summer at the expense of the committee, lodged at the Stadium, fed at a regulation American "training table" and put through a regular course of training similar to that of an American college athlete. The program for the year starts with cross-country club runs April 5, held in every city in which there are two or more athletic clubs, followed on May 3 by similar simultaneous competitions for novices. Olympic elimination meets will be held May 24, the athletes thus selected will compete at provincial or sectional meets during June, which Dr. Kraenzlein will attend to pick his candidates for the course of training at the Stadium.

BIG PROFITS MADE IN MINING GOAL

COLORADO CONSUMERS SEEK TO RESTORE THE CHEAPER SCALE.

DENVER, Nov. 2.—Coal should be retailed in Denver at \$3.50 to \$4 a ton, S. B. Strang of the Real Estate exchange has told the city commissioners, who are considering legislation looking to the restoration of this price from the present rate of \$7. The feasibility of taking over some coal mine to supply the city with fuel is being considered. Deputy Commissioner of Supplies Reed predicts that some such action is imperative if the coal shortage becomes more acute as winter advances.

Strang alleges that, even with the freight rate of 80 cents a ton for the 14-mile run from the northern coal fields, there are liberal profits for operator and retailer in the sale of lignite coal at \$3.50 a ton.

"I myself have sold thousands of tons of coal at \$3," he declared, "and I realized a snug profit, too." He offers to debate before the commissioners with any operator—the issue involved in the present coal strike in Colorado as regards its effect on the price of coal. Strang believes if the city should purchase or lease a mine in the northern fields, the output could be transported to Denver in wagons cheaper than by rail.

If it's of exceptional value at the price, it's sure to be advertised in the Bonanza, else the merchant would be hopelessly unprogressive.

ALL-STEEL THROUGH PASSENGER TRAINS

...TO AND FROM... SAN FRANCISCO

Close connections at Hazen and Reno with six S. P. overland passenger trains.

Tri-weekly refrigerator and box car service from San Francisco and Sacramento.

Sixty hours San Francisco to T. & G. railroad points.
