IN THE FIFTH JUDICIAL DISTRICT COURT OF THE STATE OF NEVADA, IN AND FOR NYE COUNTY.

In the matter of the estate of Lizzie Hoey, deceased.

Notice is hereby given that Ellen McNamara has filed with the clerk of said court a petition praying for the admission to probate of an instrument purporting to be the last will and testament of Lizzie Hoey, deceased, and for hearing the application to her of letters testamentary thereon; and that Tuesday, the 14th day of April, 1914, at 10 o'clock a. m., the same being a day of the regular session of said court, at the court house, and in the court room thereof in the town of Tonopah, said county and state, has been set by the clerk for the hearing of said petition, when and where any person interested may appear and show cause why said petition should not be granted.

In witness whereof, I have hereunto set my hand and officialty, and affixed the seal of said court this April 4th, 1914.

(Seal) ROBERT G. POHL,  
County Clerk, Nye County, Nevada, and ex-officio Clerk of said Court.  
THOS. K. CHAMBERS,  
Attorney for Petitioner.

WHERE DO YOU EAT?

AN IMPORTANT QUESTION.

Your health depends upon the right answer. This matter of food should be given more attention by each individual. It is true the government has passed

THE PURE FOOD LAW but there is no law against dirty, ignorant cooks. "What do you eat?" and "How is it prepared?" are just as important. We answer these questions to the satisfaction of both your palate and health.

SCENE FROM "SAVAGE AND TIGER"

WASTE IN MINING BEING STUDIED BY THE BUREAU OF MINES

In the forthcoming third annual report of the National Bureau of Mines, Joseph A. Holmes, director, has an article on "The Extent of Mineral Waste," as follows:  
"It is a reasonable estimate that the present waste, in large measure unnecessary, of mineral resources amounts to a national loss of not less than \$1,000,000 a day.  
"In one respect at least a consideration of the mineral wastes has a basis quite different from the consideration of agricultural wastes. Our crops represent an annual production from a reasonably permanent soil; our forests may grow again, though a much longer period of time is required; and the soils themselves may be reproduced from the subsoil and the rock beneath. But of our mineral resources we have only the one supply. This supply is to a considerable extent destroyed in use; and at the present increasing rate at which we are using and wasting it our one supply will be either exhausted or largely depleted while the nation is yet in its youth.  
"The most urgent need for investigation and reform is in connection with the unnecessary waste of oil and natural gas that still prevails in many parts of the country. Even with the limited facilities at its disposal the bureau has been able, during the current year, to stop a waste of natural gas valued at not less than \$10,000,000, an amount that exceeds by six times the total cost of the bureau's investigations to date. There is urgent need of enlarged facilities with which to push this work more rapidly. A few years of further delay and this valuable source of national wealth will have been wasted—permanently lost.  
"The individual operators in causing this waste have followed their natural bent for temporary gain. The states have permitted this criminal waste without protest, fearing that interference might retard development. Will the National Government accomplish what the saving already accomplished was the result of inquiries

and researches that enabled the engineers of the bureau to demonstrate to the oil and gas men in one of the Oklahoma fields that much waste of gas could be prevented without stopping the drilling for oil  
"If the funds at the disposal of the bureau had been large enough to provide for more extended investigations, the prevention of waste would have been much greater. As it is, however, in many parts of the Oklahoma oil and gas fields the waste of natural gas that still continues is equivalent to \$15,000,000 to \$20,000,000 per annum, and this waste in all of the oil and gas fields of the country now aggregates more than \$50,000,000 per annum. Of the total waste of gas in the different oil fields of the country more than 80 per cent is believed to be easily preventable. As regards the remaining 20 per cent, it is believed that gasoline may be extracted from much of it and the gas itself burned for some useful purpose.  
"The need for enlarged investigation is further shown by the fact that in addition to this waste of gas the waste of petroleum, and especially the loss of the lighter oils, in pumping and storage is much greater than is ordinarily supposed. Moreover, the injury caused in a number of oil fields through the flooding of oil and gas strata by underground water is another phase of the subject calling urgently for inquiry and investigation.  
"It is estimated that the proposed investigations into the waste of oil and gas would cost from \$30,000 to \$40,000 per annum, and it is believed that the saving to the national wealth would be more than a hundredfold for each dollar expended in such an investigation.  
"The waste in coal mining is another drain on our national wealth which calls for serious and extended inquiry and investigation. A preliminary estimate, based upon limited inquiry and examination indicates an annual waste or loss of coal in mining and handling of not less than \$250,000,000 tons per annum. This

represents a loss from our best and most easily mined coals and those nearest our great centers of industry. What is needed in connection with this loss is a thorough underground survey and examination at certain carefully selected areas in each of the important coal fields of the country, with a view to determining the exact conditions under which mining operations take place and the possibilities of adopting less wasteful methods. With this large amount of accurate information laid before the public, it will then be possible to obtain the adoption of far less wasteful methods of mining. Such an investigation, thoroughly conducted, would cost about \$50,000 per annum for three or four years. It is confidently believed that the results of such an investigation would mean a saving in fuel resources having a value to the nation considerably more than \$50,000,000 per annum.  
"There is need of similar investigations looking to a reduction in the wastes or losses in the mining, preparation, and treatment of our metalliferous ores and metals, which wastes and losses aggregate in different cases from 10 to 50 per cent of the total yearly production of such minerals and metals. A few of these wastes may be regarded as representing to some extent a deferred use of the materials. These it is not now proposed to investigate. Many others represent a total and permanent loss, and in the majority of our metals this reduction in our national supply will at no distant date become a serious problem. Certain investigations relating to both safety and waste in connection with our metal mining and metallurgical operations are already under way, but they are quite inadequate to meet the need for investigations in these branches of the mineral industry."

It is the purest distilled, and not a grain of adulteration in a barrel of it. We confidently recommend it both to the sick and the convalescent as an unfailing tonic to rebuild the system that is run down.

ASSESSMENT NOTICE  
Rescue-Eula Mining Company.  
Location of principal place of business, San Francisco, California. Location of works, Tonopah, Nye County, Nevada.  
Notice is hereby given that at a meeting of the Board of Directors, held on the 20th day of March, 1914, an assessment (No. 6) of one (1) cent per share was levied upon the capital stock of the corporation, payable immediately in United States gold coin, to the Secretary, at the office of the Company, Room 265 Russ Building, San Francisco, California.  
Any stock upon which this assessment shall remain unpaid on the 21st day of April, 1914, will be delinquent and advertised for sale at public auction, and unless payment is made before, will be sold on Wednesday, the 27th day of May, 1914, to pay the delinquent assessment, together with the cost of advertising and expenses of sale.  
By order of the Board of Directors,  
CHARLES D. OLNEY, Secretary.  
Office, Room 265 Russ Building, San Francisco, California. M23-A21  
Certificate of location on sale at the Bonanza office.
