Mornin' Boss--Mornin' Men!

**DR. J. A. ASCHER
A CANDIDATE FOR
LIEUT. GOVERNOR**

Dr. J. A. Ascher, physician of the Southern Pacific stationed at Sparks, is out for the nomination for lieutenant-governor on the Democratic ticket as announced in the advertising columns of the Bonanza. Dr. Ascher is a hold-over senator, but he is not one of the kind with an enlarged cranium caused by believing that Nevada cannot get along without him. When asked what could be said about his work in the senate the doctor recently informed a friend: "I don't know exactly what to say. You see it is just this way. I was elected and I tried to perform my duty to the best of my ability and that is all I could do."

fer to the wants of humanity. Personally Dr. Ascher is an agreeable gentleman, of fine personality, whose influence is far reaching and always exerted in the right direction. Locally he may be recalled from the fact that he is a brother-in-law of "Rube" Kelly of the Campbell-Kelly foundry and therefore claims a large following from Nye county.

**RANCHERS GET TOGETHER
IN THE CARSON VALLEY**

A large gathering of prominent ranchers was held at Minden recently to perfect a permanent organization of the water users of Carson valley to work in conjunction with the federal reclamation service for the erection of a dam for the conservation of the surplus waters of the upper Carson river and its tributaries.

Approximately \$250,000 has been pledged by the ranchers and property owners towards the cost of impounding the water which it is estimated will cost the national government an additional million.

**Climate Failed;
Medicine Effective**

Sufferers from Tuberculosis often think that medicine will not help them. Fresh air, regular habits and good food aid in restoring health, but more is often needed. Many have been restored to health by Eckman's Alternative. Read this—

Weldon, Ill. "Gentlemen—Through your instrumentality I have been saved from a premature grave. On December 14, 1904, I was taken with Typhoid Pneumonia, which developed into Tuberculosis (bacilli were found). In February, 1905, I went to Fort Worth, Texas, and later to Canon City, Colorado. After being there two weeks my physician informed me that my case was hopeless. Three weeks later I returned home, weighing 103 pounds, the doctor having given me no assurance of reaching my old weight and can do any kind of work about my grain elevator." (Abbreviated.)
ARTHUR WELDON.
(Addrs.) Eckman's Alternative is most efficacious in bronchial catarrh and severe throat and lung affections and upbuilding the system. Contains no harmful or habit-forming drugs. Accept no substitutes. Sold by leading druggists. Write Eckman Laboratory, Philadelphia, Pa. for booklet of references.

**FORTY CENTURIES OF CHICKEN RAISING
BRINGS THE BIG EGG CROP FROM CHINA**

Shantung can boast of 40 centuries of agricultural activity. It is still an agricultural province with an area of 55,000 square miles—about equivalent to that of the state of Wisconsin—with an estimated population of 30,000,000, and has been forced to a degree of intensive cultivation unknown to the farmers of the United States.

Shantung is one of the leading egg-producing provinces of China. Chickens are for the most part hatched by a native process of incubation consisting in placing eggs in earthenware jars which are set upon kongs or beds built of brick and clay and within which slow fires, generally of coke or charcoal, are kept burning. The eggs are carefully turned from time to time. The kongs used are generally those which serve the family for beds each family throughout the country districts raising a number of chickens in this way. There are no large concerns engaged in this business in the sense that obtains in the poultry industry in America. Old women sometimes carry a number of eggs strapped about their waists, under their outer garments for incubating purposes. About two weeks after the chickens are hatched they are taken to the market and sold the family keeping sufficient number for domestic purposes. One scarcely hears of a Chinese family raising more than two dozen chickens; if more than this number are hatched during a season, they are disposed of in the market.

The production of chickens and eggs in Shantung is not a business in which anyone engages to the exclusion of other work. The millions of eggs which are produced daily in this province are the collections of a dozen or less from each of the numerous number of households contributing to the general supply. The eggs are best collected at the markets, held at intervals of every five days throughout the towns of the province. Generally the women in the households go to these markets there to dispose of the 5 to 15 eggs which the household has to place on the market. Generally speaking, the Chinese family is too poor to use these eggs for home consumption.

number was shipped by rail from Shantung to Pukow for transshipment there but there are no statistics giving the quantity going by this latter route. It is estimated that during the spring season when the trade is at its best, upward of a million eggs a day are shipped from this province.

American importers of eggs wishing to secure further particulars as to the egg market in Shantung may direct their inquiries to two business firms at Tainanfu (whose names may be had from the bureau of foreign and domestic commerce and its branch offices).

**MOUNT GRANT BUSY
WITH ACTIVE PROSPECTORS**

Alex. Burke and associates, who have some fine mining property in the Mount Grant section, expect to have a little mill on the property soon. They have enough ore of good grade on the dump to make a long run.

Harry Lewis, who has another fine gold property in this district, is going to put a mill on his property as soon as possible. He has an old mill in Aurora which he will bring down to his property. His ore is very high-grade. This mill will also handle custom ore from several prospects nearby. It will run by steam, there being lots of wood and water handy.—Yorkington Times.

NOTICE OF FORFEITURE.

To L. Roberts, your heirs, executors and assigns: You are hereby notified that the undersigned has expended during the years 1912 and 1913 the annual amount of money, in labor and improvements, necessary to comply with the annual assessment law upon the Mormon quartz mining claim situated in the Tonopah Mining District, Nye County, Nevada. Said expenditures were made for the purpose of holding possessory right and title to said mining claims under the provisions of Section 2324 of the Revised Statutes of the United States. If you fail to contribute your proportion of such expenditure as a co-owner in and to the above-mentioned mining claim it will become the property of the undersigned, your proportion being in the sum of an aggregate \$100 for the said two years, your interest in said the undersigned, who has made the expenditures and improvements as above-mentioned, pursuant to the provisions of said statutes.
