DICTATOR HUERTA GETS THE HOOK AT LAST

Backed Off the Stage and a Fugitive From His Own Country

United States to Recognize Change of Administration

(By Associated Press.)
 WASHINGTON, July 16.—The United States today instructed American Consul Silliman, at Saltillo, to inform Carranza that if he arrives at a peaceful agreement with Carbajal for the transfer of power to Mexico City, recognition will be extended to the resultant administration. Should Carranza refuse and insist on forcible entry, recognition will be deferred until there is an election. According to present plans American forces will not be withdrawn.

This determination was reached by the president and Secretary Bryan after the viewpoint of the South American mediators was laid before them.

The first move toward the transfer of the government to the constitutionalists has already been taken by Carbajal. Three peace commissioners on the way to confer with Carranza have constitutional political beliefs.

GUNBOAT SMITH AND CARPENTIER GO 20 ROUNDS IN LONDON TONIGHT

(By Associated Press.)
 LONDON, July 16.—Smith was disqualified in the third round for hitting Carpentier when down.

LONDON, July 16.—A great influx of sportsmen from France and other continental countries will attend tonight the twenty-round fight between "Gunboat" Smith, the American heavyweight, and Georges Carpentier, champion of France. Many Americans, too, are here. This fight has created more interest than any fight since that of Peter Jackson and Frank Slavin twenty years ago, although no world's championship is at stake. Carpentier is the favorite in the betting.

Carpentier is the first of the French pugilistic school to gain worldwide recognition, while Smith is one of the leading boxers of the so-called "white hope" class which sprang up following the defeat of Jim Jeffries by Jack Johnson at Reno in 1910. According to the management of Olympia, where the match will be staged, the contest will be for the white heavyweight championship of the world with stakes of more than \$40,000 to be divided between the two opponents.

Carpentier's record for the past two years follows:
 1912—Knockouts: Lacroix, 4 rounds; Jim Sullivan, 2; Hubert Ros, 5. Won: George Gunther, 20; Willie Lewis, 2. Lost: Frank Klaus, 19; Billy Papke, 15.
 1913—Knockouts: Mareau, 8; Bandaman Blake, 3; Cyclone Smith, 3; Bombardier Wells, 4; Lurie, 3; Jack Lancaster, 3; Bombardier Wells, 1. Won: George Gunther, 16; Jeff Smith, 20.
 1914—Knockouts: Pat O'Keefe, 2; George Mitchell, 1. Lost: Joe Jeanette, 10.
 Smith's record since 1912 follows:
 1912—Knockouts: Battling Brooks, 3 rounds; Jack Smith, 2; Jack McFarland, 6; Hugh McGann, 2; Andy Morris, 2; George Godfrey, 2; Jim Savage, 3; Jim Stewart, 7. Won: Frank Moran, 20. No decision: Sailor White, 10; Porky Flynn, 10; Tom McMahon, 10; Al Kabiak, 6; Jack

SHERIFF FRANCIS HELD UNDER AUTO AFTER ACCIDENT

LOSES CONTROL OF CAR WHICH TURNS COMPLETELY OVER.

While en route to Eureka last Friday in his Ford car with Will Streshley and two sisters, Misses Lena and Louisa, Sheriff Bar Francis in some unaccountable manner lost control of the car and it turned completely over, partially wrecking the car and pinning Bar and Streshley underneath in such a manner that they were unable to extricate themselves, and the young ladies, who had been thrown clear, had to lift the car to free them. Streshley was pinned only by the legs, but the entire weight of the car rested across Bar's shoulders, crushing and bruising him up considerably, and it was feared that he was badly hurt internally.

The accident occurred at the Willows at 9 a. m. and they waited until the arrival of the other cars at 12 m. when they were taken, on into Eureka and Dr. Roberts attended Bar and pronounced that there would probably be no serious results, some of the back muscles being torn loose, with some internal bleeding. He was soon able to be around and at present is doing nicely. The other members of the party escaped with only a few bruises, but they were all very fortunate that the outcome was not far more serious.

The car was pretty badly smashed up, but was brought in Monday and is now being repaired and will be in running order again in a few days.—Reese River Reveille.

MARRIED AT BUTTE, MONTANA.

Cards have been received in Eureka this week from Mr. and Mrs. Thomas McDowell Trainer, former well known Eureka residents, announcing the marriage of their daughter, Marguerite, to Mr. Stephen Hogan on Wednesday, June 24, 1914, at Butte, Montana, where the couple will take up their residence.

HELD UNDER SURVEILLANCE ON A SERIOUS CHARGE

(By Associated Press.)
 SAN JOSE, July 16.—Mrs. Evelyn Rinehart Kinkaid is under surveillance, and it is not decided yet whether to serve the warrant charging murder.

TODAY AND A YEAR AGO.

Official readings of the thermometer by the United States observer at Tonopah:

	1914	1913
5 a. m.	66	64
9 a. m.	74	73
12 noon	84	81
2 p. m.	87	85

CINNABAR PLANT TREATING FIFTY TONS DAILY AT ONE

ONE OF THE LARGEST PRODUCERS ON THE PACIFIC COAST IN OPERATION.

The Nevada Cinnabar company, operating at Lone, Nye county, is turning out eight flasks of quicksilver a day, valued at approximately \$250, after having remained idle for nearly six months. This time was occupied in reconstructing the mill and installing furnaces along modern lines which brought the plant up to date in every respect. This is the leading producer of quicksilver in Nevada and the success of the company is such that it is probable that enlargement will be considered before long.

Since the mill has been running during the last two months some difficulty was experienced in saving values and, for a time, it seemed as though the company could not master the process of getting the "quick." After observing closely the loss was traced to the condenser, which began to respond as soon as the inside was lined with cement. Since then the saving has been what the management looked forward to and the product is coming out at the rate of eight flasks a day, worth \$36.50 a flask of 75 pounds. The ore comes out of the gloryhole at the rate of 50 tons daily and runs at 2 1/2 per cent. The first shipment was 28 flasks. For five years this company operated with the old retort system and decided last winter to make the change which led to the installing of the present plant. The motive power is furnished by distillate, using a 44 horse power gas engine, which operates a dynamo. The improvements cost in the neighborhood of \$150,000 and the company is said to be the best equipped in the country. Two cords of wood are consumed daily in the furnaces.

RAPID HEADWAY ON AUSTIN NEVADA CONSOLIDATED

MAIN WORKING TUNNEL GOING IN AT RATE OF FOUR FEET A SHIFT.

With the new air equipment recently installed on the Austin-Nevada Consolidated, rapid headway is being made in driving the main working tunnel, an average of 4 1/2 feet per shift being made, says the Reese River Reveille. The new equipment consists of a 40-horsepower gasoline engine and air compressor combined, built as a unit and something new in the way of mining machinery and one that is proving highly satisfactory in every way. This drives one air-drill and with a force of only five men the work is going faster than it could with several times that force using hand methods. The complete plant is installed for convenience and a saving in operating cost.

The mineral showings in the tunnel are getting better as the tunnel is driven. This tunnel is now in about 500 feet, several large ledges have been cut and the indications for a big strike are getting better every foot. The face is now in a dioritic granite with frequent small stringers of quartz matter carrying good values, all indicating that the good ore zone is being neared. From the best observations and most careful surface measurements of the manager of the company, Col. H. G. Richardson, the tunnel will tap some big ore bodies within the next 30 or 40 days.

This property is located just above the big workings of the days of Austin's glory on Lander Hill, the recognized proven ore district of the camp. Everything in the way of the development of the property on a large scale in the future has been taken care of, and while the development work of the present is slow, it is steady and it is only a question of time when the property will justify development on a large scale.

NEVADA WONDER CUTS VEIN AT 1300

GOOD NEWS FROM PHILADELPHIA HEADQUARTERS ABOUT A STRIKE.

The Nevada Wonder is going to depth beyond doubt, as shown by a statement received from the headquarters of the company in Philadelphia, which stated that the crosscut on level No. 13 had intersected the vein 275 feet from the shaft. The vein at this point is six feet wide, containing oxidized quartz of low value, and is the same as encountered on the tenth level. The management will start a south drift immediately.

The condition of Maurice F. Egan, United States minister to Denmark, is much improved.

SUCCESSOR PREPARES TO GIVE UP GOVERNMENT REINS TO CARRANZA NEGOTIATIONS NOW IN PROGRESS

(By Associated Press.)
 MEXICO CITY, July 16.—The change in the government whereby Huerta turned over the presidential presidency to Francisco Carbajal today, was calmly received by the populace. Huerta and General Blanquet, his war minister, left the city last night. Huerta's resignation, sent to congress yesterday, was accepted by a vote of 131 to 17. In his message Huerta made bitter reference to the United States. Carbajal took the oath of office two hours afterward.

VERA CRUZ, July 16.—With the resignation of Huerta, there is every evidence among the Americans and other foreign refugees that they will return to the capital and interior points, where their abandoned interests await them. Some have already started.

LONDON, July 16.—Huerta's resignation is regarded as a victory for President Wilson's policy, and welcomed by the British as a possible solution of the Mexican problem. Most newspapers, however, express doubt whether conditions will be better under Carranza than when Huerta was in power.

VERA CRUZ, July 16.—A special train, said to be conveying Huerta and Blanquet from Mexico City, is reported to have passed through Cordoba on the way to Puerto Mexico. It is believed they will board some vessel there. The Twenty-ninth Mexican infantry, Huerta's special guard, is accompanying.

FAST TIME MADE WITH NEW MOTOR FOR MONARCH PITTSBURG MINE

Superintendent Branch Smith, of the Monarch Pittsburg, has established a record for speed in installing a new motor on that property. The motor was shipped from San Francisco on Saturday, July 11th, was received in Tonopah Tuesday, the 14th, and turned over yesterday, the 15th. A few adjustments have to be made and the hoist will be in operation tomorrow morning, breaking all records for dispatch.

The Monarch had lots of trouble with a former motor that refused to work and the makers, after an exhausting correspondence, concluded the electricians of Tonopah did not know their business and that all the machine required was a competent man to start it. Acting on this assumption the Westinghouse company sent in an expert, who labored with the refractory motor for a couple of days and found it just as stubborn as the Tonopah men reported. The expert could not do anything and gave up the job, saying the motor was not designed for hoist work. President Brougher, of the Monarch, was here at the time and he instructed Superintendent Smith to go personally to the coast and procure a motor that would do the work and spare no expense in getting action. Smith left next morning. Last Saturday he bought a 100 horse power General Electric motor and ordered it shipped the same day. Then Smith started back for camp. He stopped over at Reno one day and called on J. M. Fulton, general agent of the Southern Pacific, and asked him to hurry the shipment along. The wires were brought into play and Smith left in the evening for the south. Next morning he got off the express train at Millers for breakfast and his surprise may be imagined when the first object that caught his gaze was a freight car containing the motor that had been hooked on to the passenger train as it passed through Mina at daybreak. By ten o'clock the motor was unloaded and at noon was at the collar of the shaft. Yesterday the motor was given a tryout and found to work satisfactorily.

This is the fastest performance in the southern country, which is noted for doing things quickly, and takes precedence of the installation of a complete engine and hoist on the Loftus-Davis lease at Goldfield. In that case the lossers were in high grade with only sixty days to the expiration of the lease. A complete equipment was ordered by telegraph from Denver and shipped by express on a special train that was given the right of way, beating the Overland Limited into Hazen. From Hazen to Goldfield every sidetrack was congested, but the liberal use of money caused the special train to be sent through without delay and the equipment was delivered at the end of the third day in Goldfield, establishing a record between that camp and Denver. It cost the leasers a big

DAVENPORT CASE MAY GO TO JURY THIS AFTERNOON

SUICIDE OR ACCIDENT IS OUTLINED BY COURSE OF EXAMINATION.

The trial of Lou Davenport, charged with killing Mrs. Minnie De Long, may reach the jury late this afternoon. The state rested its case yesterday afternoon and the defense, by Attorney Chambers, began by introducing witnesses to prove that the dead woman was given to suicidal tendencies when under the influence of liquor.

Mrs. May Williams, of Round Mountain, testified that while the deceased was working at Round Mountain she remarked on one occasion that if she had a gun she would kill herself. She often grew despondent when she thought of her husband deserting her.

Frank Neff testified that on the night of the death he heard the prisoner and Mrs. DeLong quarreling, and on looking through a window in the side of the cabin he heard Mrs. De Long say, "Give me that gun, I'll shoot my head off."

Chief Police Evans described the appearance of the body and the interior of the cabin when he arrived on the scene on the night of the killing. The clothing of the woman was produced in court.

To assist in a clearer understanding the jury was taken to the cabin. The defendant was called to the stand and repeated the story that the woman, after threatening to kill herself, had picked up his gun and fired the fatal shot. His description was not very clear and he was easily confused on cross-examination.

TONOPAH MANAGER TELLS HIS TROUBLE

TOO MUCH MONEY HUNG UP AT THE HOME ON JULY FIFTH.

Mickey Johns, captain of the Tonopah baseball nine, explains the defeat Bishop gave Tonopah.

"You see it was just this way. The boys all promised me faithfully that they would play at Bishop on the Fourth. On July first I wrote the Indian battery, which went to Manhattan a few days before, to be sure and come with the team. They wrote back and asked me how much I would give them. I answered their letter and told them I would give them \$10 apiece and pay their expenses both ways. They never answered the letter. On the morning of the third the boys in the regular nine said that the Tonopah home-purse was too tempting here and they would not go. About five refused to go. Then I had to rustle up some fellows to fill out the vacancies, for it was too late to wire Bishop and tell them that Tonopah couldn't come down. The fellows I got just went down for the time and not for the love of the game or to give a good exhibition. Now I guess you know why we didn't win with that kind of spirit in the team."

THE TEMPERATURE.

Highest temperature yesterday, 88; a year ago, 85.
 Lowest temperature last night, 66; a year ago, 64.

FIRST WOMAN TO PENITENTIARY

PROOF OF LABOR BLANKS FOR SALE AT THE BONANZA.

(By Associated Press.)
 SAN FRANCISCO, July 16.—The idea of an initiative game law was abandoned by the People's Protective Fish and Game association, sponsors of the proposed new law. Petitions were circulated widely, but still lacked thousands of names necessary to get on the ballot.

Proof of labor blanks for sale at the Bonanza.

FIRST WOMAN TO PENITENTIARY

(By Associated Press.)
 HANFORD, Cal., July 16.—Mrs. Laura Bradford, the first woman sent to penitentiary from Kings county, was sentenced to 18 months in San Quentin for forgery. She admitted several forgeries in Kings, Tulare and Fresno counties. She has five children and is a grandmother.
