It consisted of 50 bars, weighing 101,385 ounces, containing \$59,000 worth of gold and silver. The cleanup was the result of 15 days' run in the mill. In addition there was a shipment of 70 sacks of slag and a carload of concentrates, weighing 20 tons and worth about \$375 a ton, or \$7,500, making the total shipment worth \$66,500. The metal weighed 129,082 ounces, worth at a valuation of 68 cents for gold and silver, \$87,776.44. "OLD MAN" SCHWEIGER KILLED WHEN FIRE AND EXPLOSION DESTROY CABIN

Fire and an explosion of dynamite mangled and charred the body of Eli Schweiger, better known as "Old Man" Schweiger, almost beyond recognition night before last. The old man had retired to his cabin after spending the day on his claims. During the night a fire started, presumably accidentally, and the blaze reached his supply of powder, when the remnants of the burning cabin were scattered for 150 feet in all directions. The body was found late yesterday afternoon and Chief of Police Evans of Tonopah was notified. He immediately wired to Napa, California, where the widow and two sons of the deceased were believed

to reside. Chief Evans was himself a schoolmate of the boys. No answer had been received at a late hour this afternoon. The tragedy occurred at Klondyke between Tonopah and Goldfield. For 16 years Mr. Schweiger had been leasing there and had on more than one occasion made shipment of high grade ore. He was a man of sterling qualities and had many friends in Tonopah, who deplore the tragic ending of his life. Mr. Schweiger was a resident of Bodie in the 80s, removing from there to Candelaria and Fish Lake valley, thence to Klondyke. He had been in ill health for two years. One of his sons will arrive tomorrow.

SOLDIERS BATTLE AT FRONT WITH FISTS

UNARMED FORCES MEET AND FIGHT WITH NATURE'S WEAPONS

(By Associated Press.) PETROGRAD, Feb. 6.—German and Russian troops came to fistfights on the Polish front recently, according to dispatches received here.

A Russian aviator, having completed a reconnaissance over the German lines, was returning to the Russian position when he found his supply of gasoline suddenly cut off by a German bullet which had gone squarely through the feed pipe. This forced him to plane down, and he had to land about half way between the opposing trenches.

The Germans stopped shooting, thinking the prize was secured, and wishing not to damage the valuable machine further. They rushed out empty-handed to bring in the aeroplane. A party of Russians did the same, and the two groups found themselves facing each other, both unarmed. A hearty fight with fists for possession of the machine followed. The Russians came under the fire of the sharpshooters in the German trenches and suffered some losses, but got their aeroplane back to safety.

KNIGHTS OF COLUMBUS GO ON RECORD AS OPPOSED TO EASY DIVORCE BILL

Denunciation of the easy divorce and gambling bills continues to come from many sources. Following is a self-explanatory note sent Governor Boyle by a local organization, which has a large membership and a unanimity of idea as respecting at least one of the "liberal government" projects of the state legislature:

Tonopah, Nev., Feb. 5, 1915. To the Hon. Emmet J. Boyle, Governor of Nevada, Carson City.

Honorable Sir—At a regular meeting of Tonopah council, Knights of Columbus, held Thursday evening, Feb. 4, 1915, the recent act of the state legislature, now in session at Carson City, Nev., in passing the measure known as the divorce bill, was unanimously condemned and the following resolutions were adopted and are respectfully referred to you for your consideration:

"Whereas, we consider this act detrimental to the moral and social upbuilding of the community and will reflect upon the citizens and fair name of our state; therefore be it

"Resolved, that Tonopah council, Knights of Columbus, protests against the final passage of said act and respectfully petitions the honorable governor of the state of Nevada to veto the measure."

The capture of 4,000 more Russians is announced. Observers place particular significance on the Carpathian campaign, on the ground that it will probably decide the mastery of this region for the remainder of the war. Should Austria gain a definite victory, her territory will be freed from the menace of invasion.

GOLDFIELD MERGER WORK STOPPED AND BIG POWWOW IS IN PROGRESS

(Special to the Bonanza.) GOLDFIELD, Feb. 6.—Work on the Goldfield Merger was stopped last night by President Wingfield of the Goldfield Consolidated Mines company withdrawing the force working in the upraise. Receiver Johansen confirms the statement that there will be no further development of the property for the present. The upraise caught the contact at 82 feet and opened eight feet of quartz above that point, carrying \$1.20. Manager D'Arcy was preparing to drift.

A two hours' session was held yesterday afternoon between Wingfield, Kernick, Hausman and Johansen, at which Wingfield said the plaintiffs manifested absolute ignorance of the

properties affected. He offered to place all the evidence, correspondence and records at their disposal without legal process and adds that the plaintiff is trying to back down. The conference closed, according to Wingfield, by his throwing a bombshell into the camp of the enemy, the nature of which he would not disclose last evening. Another meeting of the interested parties is being held today. The hearing in Seattle has been postponed to March 1. Jumbo Extension bullion tax for the last three months was paid yesterday. It amounted to \$4,054 on a net production of \$255,000. For the same period the Goldfield Consolidated paid \$8,064.
