**Report is Circulated That the Investment of Mexico City by Gonzales Begins**

(By Associated Press.)  
WASHINGTON, June 22.—Conditions in the Yaqui valley are described as desperate. One ranch, presumably American owned, was surrounded for four days by 500 Indians. The settlers are prepared to defend themselves. Confirmation of the report that Gonzales has begun the occupation of Mexico City is lacking, but Consul Silliman at Vera Cruz reported that communication with the capital has been severed.

The search for the body of Dan Lamborn, which had continued for more than five weeks, was ended today by an accidental discovery made early this morning by K. Clark, who is employed on the night shift to the Tonopah Extension mill.

He was taking his customary walk over the hills before retiring at the Mizpah club when his attention was attracted by a prostrate form on the summit of Elgetaff hill east of town, an eminence which overlooks the city.

He thought at first that it was that of a sleeping man, but one sight of a blackened hand and the odor of decay caused him to realize that it was a corpse. He made a mental observation of the appearance of the man and his clothing and hurried to the Bonanza office where he reported his discovery. This office called up Chief of Police Evans, Coroner Dunseath and Undertaker Cavanaugh and the party hurried back to the scene in an automobile.

Complete identification was made and the body was hastily prepared for burial. Services were conducted at the grave this afternoon at 2 o'clock under the auspices of the Western Federation of Miners and the Knights of Pythias. At 1 o'clock Coroner Dunseath held an inquest, the verdict of the jury being that the deceased was Dan Lamborn and that he came to his death on or shortly after May 14, 1915, by shooting himself with an automatic pistol with suicidal intent.

BERLIN, June 22.—The Overseas news agency says that the Russians before Lemberg have been defeated along the whole line and are fighting only to gain time in order to save their artillery and war material. The announcement says that the Germans and Austrians are within ten miles of Lemberg. The main positions of the Russians are being shelled by the armies of Mackensen, Linsingen and other generals.

### VILLA OFFERS TROOPS FOR PROTECTION

(By Associated Press.)  
ABOARD COLORADO, off Guaymas, June 22.—Fifteen hundred Villa troops were promised as protection for the foreigners of Yaqui valley at a conference aboard the Colorado between Commander Howard and General Leyva, the military commander at Guaymas. Leyva said that the landing of American marines might be misinterpreted by the masses of the Mexicans. To Americans Leyva promised the same protection as would be afforded to Mexicans. He charged that the Yaquis are buying ammunition in the United States.

### BOTTOMLESS PIT OPENED

**Leasers at Volcano Believe They Have by Far the Deepest Shaft in the Entire State of Nevada**

The muckers who followed the miners on shift yesterday in the McCarty-Mooney lease at Volcano had an easy task, for when they went down the hole after the shots were fired "there wasn't no muck." Mother Earth had swallowed it up in her capacious maw.

But what the leasers found they had was what may prove to be the deepest shaft in the district, state or nation. In fact it was dug all ready for them and there is nothing to do but lower themselves to any desired level and cut station.

The miners suspected something like this would happen, for one of the drills went through yesterday and it may be falling yet. The shaft is 50 feet deep and is equipped with 100 feet of extra rope. Johnny Musser, the discoverer of the district, had the honor of paying the first visit to the cave that had been tapped. He attached the rope at the bottom of the shaft and made a perilous descent to the end of his string. He says that rocks which he dislodged there went rattling down and down until silence again reigned. There came back no thud to show that they had touched bottom. It was rather a creepy sensation that crawled up and down his spine as he hung there over an abyss that seemed unfathomable.

A long rope was taken out today and an effort will be made to explore the cavern. The air in the shaft is pure, causing a candle to burn freely, but the flame flickers in a breeze, showing that there are other openings to the cave than the shaft itself. The walls are beautifully lined with calcite stalactites. The width of the cavern as far as explored is several feet, while its length has not been determined, although it extends as far as a candle throws its beams. A careful study of the walls will be made to discover if they contain any mineralization. This cave runs northerly and southerly, while the trend of the ledge that was followed down in the shaft is easterly and westerly. A slight crevice between the andesite and the porphyry on the contact shows all the way down the shaft, so that the cave was not entirely unexpected.

**RUSSIANS MAKE A FINAL STAND SIX MILES FROM THE CITY AGAINST VICTORIOUS TEUTONS**

(By Associated Press.)  
PETROGRAD, June 22.—The Russians are opposing the Austro-Germans on a line six miles from Lemberg. It is believed that the evacuation of Lemberg cannot now be avoided without the sacrifice of men out of proportion to the strategic importance of the place. The evacuation of Lemberg as a base is already accomplished. Hospitals and government institutions have been removed. The Russians plan to make the victory of the German allies a costly one.

NEW YORK, June 22.—Fifty witnesses have been summoned in behalf of Thaw's efforts to prove that he is now sane and entitled to his liberty. He is ready to testify as to his sanity in the trial before a jury. Five jurors have been accepted. Thaw is confident of winning and is planning to visit the San Francisco exposition.

### CRITICISMS FOR FELLOW SURGEONS

### INCOMPETENCY REALLY A CRIME

### MANY LICENSED PRACTITIONERS HAVE NO RIGHT TO PUT LIVES IN JEOPARDY

(By Associated Press.)  
SAN FRANCISCO, June 22.—Dr. W. L. Rodman of Philadelphia, the newly elected president of the American Medical Association, who delivered his inaugural address at today's session of the annual meeting of the association, introduced his address with reference to some of the evils in the surgical profession.

"In every community," he said, "men are operating who have no right to take human life into their hands. This does not apply to the general practitioner, who, in an emergency, and to the best of his ability, operates in an attempt to save life, but to those who, for gain, undertake that which should be done only by the skillful surgeon. Surgery is a special science, extra hazardous in its nature, and hence the public has a right to demand of the surgeon the very highest physical, mental and moral equipment."

In the graduation of this evil of the incompetent surgeon, Dr. Rodman said that the American College of Surgeons, which was organized only two years ago, was to be heartily congratulated upon the progress made.

INDIANA GRAND JURY MAKES HUNDRED RETURNS AGAINST PEOPLE HIGH IN POLITICS

(By Associated Press.)  
INDIANAPOLIS, June 22.—Indictments charging election conspiracy have been returned against more than one hundred defendants by the Marion county grand jury. Thomas Taggart, the Democratic national committeeman; Mayor Bell, Chief of Police Perrott, Fred Barrett, city attorney and Democratic chairman; Robert Metzger, ex-chief of police and Republican member of the board of safety, are among those indicted. They are charged with conspiracy to commit felonies by corrupting an election, by violation of the primary law and of the registration laws, by bribery and blackmail. Donna Roberts, a former mayor of Terre Haute, convicted of election frauds in the federal courts is among those indicted. Several witnesses in the Roberts trial alleged that Roberts sent repeaters from Terre Haute to Indianapolis to work during the election.

### A WAVE OF CRIME

PETTY THIEVERY BY LADS LEADS TO THE JUVENILE COURT

During the past several weeks, particularly since school closed, there has been an epidemic of thievery in Tonopah, affecting particularly the small boys. Owing to their ages bringing them within the provisions of the juvenile act, no names may be published. The boys, however, have been or will be, all before Judge Averill for disposition of their cases.

The police are not yet through making arrests, but they have already taken in a number of the youngsters. The recently reported cases are: Stealing an automobile tire, flash light and tube gauge from Clem Herzel. The light and gauge have been recovered, but the boys will not tell what they did with the tire. Gaining access through the roof, some boys entered the storehouse of the Hall Liqueur company and stole a number of jugs. The Desert Produce company's warehouse was broken into by boys and a quantity of tobacco belonging to the Model cigar store was taken.

### WAS ENGAGED AS A MINER IN TONOPAH FOR A NUMBER OF YEARS

William C. Mitchell died Friday morning, June 18, at his home in San Francisco, where he removed after eight years' residence with his family in Tonopah, where he was employed four years with the Tonopah Mining company and nearly two years with the Belmont. The immediate cause of his death was pneumonia, but he was in the last stages of miner's consumption, contracted in the eighteen years that he was employed underground.

The deceased was aged 52 years. He was born in Lawrence, Mass. His youth was spent in Minnesota. He leaves a wife, Mrs. Maud E. Mitchell, and two children, a daughter, Marie F., and a son, R. William. The funeral took place in San Francisco, but the body will later be removed to Colorado and interred beside that of an infant daughter.
