CHINA PLANS TO REMODEL FORCES

LINE REGIMENTS WILL BE UNIFIED

PROBLEMS OF NATIONAL DEFENSE BEING WORKED OUT BY THE REPUBLIC

(By Associated Press.)
PEKING, July 1.—China's military forces are to be remodeled from top to bottom. As a first step, arms of the line regiments are to be unified.

A most important conference has just been held at the winter palace, the residence of Yuna Shi-kai. There were present, in addition to the president and his cabinet and the highest ranking military and naval officers, several of the most influential Chinese not officially connected with the government.

Problems of national defense were touched upon in a brief speech by the president, who made it clear that he regards war as the greatest among apparently necessary evils. His words made a deep impression upon those present, and in the discussion which followed, there was absolute single-mindedness in endorsing Yuan's position. The conference decided that new docks were absolutely necessary; that the arsenals must be modernized and expanded; that service in the army must be popularized and adequately compensated; that coast defenses must be established, and where obsolete or inadequate, reconstructed; and that naval bases must be provided for north and south China.

The principal decision, however, was that providing for unification of Chinese armaments. The six army divisions, investigation has proved, use ten or more different types of guns. It is proposed to replace these with one style which will possess the best features of the best modern weapon.

SWITZERLAND IS A SUPPLY DEPOT

ENORMOUS AMOUNT OF FOOD STUFFS POURING INTO GERMAN EMPIRE

(By Associated Press.)
LONDON, July 1.—Enormous quantities of foodstuffs are pouring into Germany through Switzerland, according to M. Jacques Dhur, a French expert in international law.

It seems that a convention ratified between France and Switzerland on July 26, 1914, provides that in case of war, France shall supply the federal government of Switzerland with 500,000 tons of cereals a year. According to M. Dhur, 100 trucks each loaded with between twelve and fifteen tons of cereals, cross the French frontier every day for the Cornavin station at Geneva, while in ordinary times the monthly exports do not exceed 4000 or 5000 tons. At the same time enormous quantities of potatoes, beans, oil, and other vegetable products are passing into Switzerland via Pontarlier.

To prevent commerce in contraband, all merchandise is forwarded to a particular department or province of the Swiss Confederation. M. Dhur, in his investigations of this distribution, found that a considerable proportion of the supplies went to Augst, close to the frontier point where the German and Swiss railway systems are linked up.

After a discussion of various alleged methods of smuggling supplies through to Germany, M. Dhur adds that Germany has also been able to revictual herself plentifully through Italy. Merchandise was sent from an Italian port to Switzerland, and on its

way to Chiasso, between the Swiss and the Italian customs, the word "transit" was added to its label. In this way hundreds of trains of rice and other products have reached Germany. The Gothard line, by its charter, is bound to give favored treatment to goods passing between Germany and Italy, and these foods were conveyed in concealed trucks. The line became so congested that the Federal railways had to make use of the Simplon system.

NOT A SINGLE ACCIDENT

There are between 1000 and 1200 passengers being hauled every day by the trains passing through Sparks. Extra sections are now required to handle the traffic and the greatest care and attention are being given to assure the safety of the traveling public.

So far there has not been a single accident on the lines of the Southern Pacific in the handling of the fair guests. Every precaution that can be taken is used in the transportation of passengers.—Tribune.

PRINCE CONSOLIDATED PAYS FIRST DIVIDEND

The Prince Consolidated of Pioche has declared a dividend of 2 1/2 cents per share, payable July 1, amounting to \$25,000. This, we believe, is the first dividend paid by Pioche mines in 25 or 30 years, but it will not be the last one. The high price of lead and zinc has brought a bright future to the old time camp, which means many dividends for the future.

ASSESSMENT NOTICE
Rescue-Eula Mining Company

Location of principal places of business and location of works, Tonopah, Nye County, Nevada.
Notice is hereby given that at a meeting of the board of directors, held on the 12th day of June, 1915, an assessment (No. 5) of One (1) Cent per share was levied upon the capital stock of the corporation, payable immediately in United States gold coin, to the Secretary, at the office of the company, Room 245 Russ Building, San Francisco, California.
Any stock upon which this assessment shall remain unpaid on the 14th day of July, 1915, will be delinquent and advertised for sale at public auction, and unless payment is made before, will be sold on Thursday, the 19th day of August, 1915, to pay the delinquent assessment, together with the cost of advertising and expenses of sale.
By order of the Board of Directors, CHARLES D. O'NEAL, Secretary, Office, Room 245 Russ Building, San Francisco, California. 7/1/15
