

TEUTON ALLIES SWEEP NORTHWARD

Germans and Austrians Seem Bent on the Capture of Warsaw

DETERMINED STAND MADE BY GRAND DUKE NICHOLAS AT THE QUILLA LIPA

Spain Experiencing Difficulty in Preserving Its Neutrality-- Hundred Vessels Sunk

(By Associated Press.) LONDON, July 2.—Five more British vessels, three of them steamers of considerable size, have been made victims of German submarine warfare. The steamers sunk are the Inglo Moor, Caussion, Welbury, a schooner and a bark. The crews of all were rescued. In the fighting in the east there is no indication, according to Petrograd, of there being any halt in the sweep of the Teutonic allies to the northward and eastward from Lemberg. Further south, however, the troops of Grand Duke Nicholas have made what appears to be a determined stand along the Quilla Lipa river. The Teutons are evidently bent upon a decisive victory against the Russians. The Germans are not yet sending troops to the western front, but, assisted by the Austrians, are making efforts to capture Warsaw. The difficulty which Spain is having in maintaining neutrality is brought to light in a statement by Premier Dato that public meetings are permitted only if discussion of neutrality is barred, according to a dispatch. Ninety-eight British ships were submerged or mined in June, with a total loss of 111 lives.

ASPHYZIATING BOMBS USED BY GERMANS IN STORMING

Violent Attacks Made on French Lines in Argonne Region, but Defenders Repulse the Enemy

(By Associated Press.) PARIS, July 2.—The Germans are hammering away at the French lines in the Argonne region in the apparent hope of making an opening and reaching Verdun. The latest official French statement shows a further attempt to advance through violent attacks, which the French assert were repulsed. Violent fighting continued during the entire night. One German attack was supported by the use of asphyxiating bombs, as well as hand bombs. It was driven back.

MISUSE BY BRITISH OF THE U. S. FLAG

(By Associated Press.) WASHINGTON, July 7.—Representations concerning the misuse of the American flag by British merchantmen will be included in the general note which the United States intends soon to send to England covering restraints of American commerce in connection with the so-called blockade. Secretary Lansing disclosed that in the investigation being conducted by the United States into cases of alleged misuse of the American flag to deceive German submarine commanders, is not completed, but evidence of specific cases probably will be called separately to the attention of England, while the general subject is included in the new note.

MANY MUNITION WORKERS VOLUNTEER

(By Associated Press.) LONDON, July 2.—In introducing the munitions bill in the house of lords, Lord Curzon announced that the first week of the campaign for speed in the manufacture of arms and munitions resulted in the enrollment of 46,000 volunteer munitions workers. He said he was confident "that before the end of the year the advantages to both men and material would be decisively on the side of England and her allies."

GERMANS MAKING ADVANCE IN POLAND

Residents of Tonopah who are preparing to leave the city on their annual vacations may have the Bonanza forwarded to them at their summer addresses without any extra charge. Notify the circulation department when the change is desired and the paper will be forwarded promptly. Subscribers should advise the Bonanza of their return to the city so that the paper may be delivered at their home address.

SHORT RATIONS IN DRIED VEGETABLES

(By Associated Press.) DRESDEN, July 2.—This city now has installed a vegetable card to regulate and keep down the consumption of such food. The cards control only the purchase of so-called "dried vegetables," such as dried barley, groats, peas, rice, Manchurian and white beans. One pound of the "dried vegetables" may be bought each month by each inhabitant of the city.

BULGARIAN ARMY WELL PREPARED

HAS 120,000 MEN HELD IN READINESS

(By Associated Press.) SOFIA, July 2.—The Bulgarian army is now far better prepared for war than it was for the Balkan war of 1912. It comprises four divisions of 120,000 men ready for action, with another ten divisions of 300,000 men of first line reserves, which could be mobilized in a few days. If necessity should arise, this force could be more than doubled.

COULD MOBILIZE 300,000 ADDITIONAL TROOPS IN A FEW DAYS MORE

(By Associated Press.) SOFIA, July 2.—The Bulgarian army is now far better prepared for war than it was for the Balkan war of 1912. It comprises four divisions of 120,000 men ready for action, with another ten divisions of 300,000 men of first line reserves, which could be mobilized in a few days. If necessity should arise, this force could be more than doubled.

Bulgaria's entry into the war as the foe of Turkey would relieve pressure on the allies to the south. Adrianople, which the Bulgarians were compelled to hand back to the Turks following the last Balkan struggle, has been demoted of its arms for use in the Dardanelles campaign. This ought easily to fall to the Bulgarians, who could then cross down to Rodos on the Sea of Marmora. This would cut Constantinople off from Keshan, where the Turks have concentrated their forces for the operations on the Gallipoli peninsula. At least, the Turks would be reduced to communication by sea.

Bulgaria no longer claims Salonika. Her claims are small compared with those of the other Balkan nations, being confined to the really Bulgarian portion of Macedonia with Kavalla and its natural outlets on the Aegean sea.

James L. Butler, the man who found Tonopah, who staked the claims that made the state what it is today, after his long period of inactivity, is in this city today and is holding a levee at the Mizpah, which statesly structure stands where he built his campfire of sagebrush a decade and a half ago, with not another white man within a radius of many miles. Mr. Butler came from his Owens valley ranch to spend the Fourth here and will be the honored guest of the city.

MANY QUAKERS IN BRITISH FORCES

(By Associated Press.) LONDON, July 2.—The Quakers, notwithstanding their peaceful tradition, have contributed 215 men to the British army and navy and 42 to the army medical corps. In addition, 42 have joined the home guards and 15 are serving on recruiting committees. These figures are taken from the annual meeting of the Society of Friends. The society's book of discipline declares its members must maintain an "unequivocal testimony against war." This is a vital principle of Quakerism. Accordingly about fifty of those enlisting sent in their resignations but only thirty of these were accepted. Besides the soldiers, the parents of the soldiers openly sympathize with the war. These may all be properly expelled, but the feeling among the members is against taking severe measures. Opinion on the subject of the war was much divided at the annual meeting, but discussion was divided.

ONE LITTLE RIFT WITHIN THE LUTE

The only bit of jar or discord that has shown up thus far in the preparations for the Fourth of July celebration is occasioned by the utter lack of patriotic spirit or even common courtesy on the part of automobile owners in this city. It is planned to give the school children a part in the parade and to have them ride in automobiles. Mrs. Landsborough, the committee in charge of this matter, deemed it a very simple thing to have all the autos placed at her disposal when the notice appeared in the Bonanza to have owners telephone her that they would put their cars in the parade for the kiddies. But not a single time did her phone ring. She has interviewed forty-nine owners thus far and has received only nine promises. Not a single person drawing his salary from the county was found willing to donate his machine—not a single one.

SHOPS WILL CLOSE

All the barber shops in Tonopah will close at noon Monday for the celebration. By order of local No. 479.—Adv222

MONEY TO BURN—GASOLINE

It is stated that thirty-one cars have been sold to Tonopah people in the past month. The average cost was \$1000. This does not indicate any lack of ready money.

DEATH OF DIAZ HAS OCCURRED

Former President of Mexico

KINDLY BUT FIRM

DURING HIS REGIME THE SOUTHERN REPUBLIC WAS AT PEACE AND PROSPERITY MARKED HIS RULE

(By Associated Press.) PARIS, July 2.—General Porfirio Diaz, ex-president of Mexico, died today.

The letter with which General Porfirio Diaz announced, on May 25, 1911, his resignation from the presidency of Mexico after having been master of the country for 35 years, gives in his own words an interesting glimpse of his remarkable career. It reads:

"Sir: The Mexican people who generously have covered me with honors, who proclaimed me as their leader during the international war, who patriotically assisted me in all works undertaken to develop industry and the commerce of the republic, establish its credit, gain for it the respect of the world and obtain for it an honorable position in the concert of nations—that same people, sir, have revolted in armed military bands, stating that my presence in the exercise of the supreme power is the cause of this insurrection.

"I do not know of any fact imputable to me which would have caused this social phenomenon, but permitting, though not admitting, that I may be unwittingly culpable, such a possibility makes me the least able to reason out and decide my own culpability. Therefore, respecting as I have always respected the will of the people, and in accordance with article 82 of the federal constitution, I come before the supreme representatives of the nation in order to resign, unreservedly, the office of constitutional president of the republic with which the national vote honored me, which I do with the more reason since, in order to continue in office, it would be necessary to shed Mexican blood, endangering the credit of the country, dissipating its wealth, exhausting its resources and exposing its policy to international complications.

"I hope, gentlemen, that when the passions which are inherent to all revolutions have been calmed, a more conscientious and just study will bring out in the national mind a correct judgment, which, when I die, I may carry graven on my soul as a just estimate of the life which I have devoted and will devote to my countrymen."

The revolution led by General Francisco I. Madero Jr., had brought about the aged president's pledge early in 1911 to resign his office in a bargain for peace, but it was not forthcoming. Riots occurred that day in Mexico City, during which many persons were killed. The national palace was stoned by mobs shouting "Viva Madero!" and demanding to know why Diaz did not resign. The next day he read his letter of resignation to the chamber of deputies. A large majority voted aye; the other legislators rose and bowed their affirmation as their names were called.

The minister of foreign affairs, Francisco Leon de la Barra, was immediately chosen provisional president and Diaz, of whom for 30 years all Mexico had stood in awe, left the capital secretly the next day, to embark at Vera Cruz for Europe. Since then he had lived virtually an exile in Paris and other European cities, a silent observer of still more troublesome times in the land he had long ruled.

EDWARD V. DODGE and family left this morning for San Francisco to enjoy the fair.

MAY SEND HUERTA OVER THE OCEAN

His Deportation to Spain now Being Considered as an Undesirable Alien

(By Associated Press.) GALVESTON, July 2.—A denial that negotiations toward peace are progressing between Villa and Obregon, was issued at Vera Cruz by Carranza, according to a dispatch. The message also reported the defeat of the Zapata forces east of Mexico City by Gonzales.

(By Associated Press.) WASHINGTON, July 2.—Huerta will not be permitted to enter Mexico from the United States when his presence there would be a further menace to the plans of this government to restore peace, if the United States can prevent it. One suggestion made is the deportation of Huerta to Spain under the immigration laws covering the return of undesirable aliens. General Funston has been ordered to prevent Huerta from crossing the line while at liberty on bail. Secretary Lansing is considering a request for the extradition of Huerta from the military authorities at Chihuahua, on criminal charges.

HUSBAND ACQUITTED OF KILLING HIS WIFE

Ed Haller, on trial at Hawthorne for the second time on a charge of killing his wife, was acquitted by a jury. The first trial resulted in a hung jury.

SECOND TRIAL RESULTS IN FREEING OF ED HALLER BY HAWTHORNE JURY

Mrs. Haller was shot in the arm, her husband claimed accidentally, on November 12, 1913, and was taken to Reno for treatment. She died on November 15 from the shock, according to the coroner's jury. Mack and Green and Thomas E. Kepner appeared for the defendant.

AUSTRALIA FEELS A RECRUITING IMPULSE

(By Associated Press.) MELBOURNE, Australia, July 2.—Publication of casualty lists has given recruiting an impetus throughout Australia. The story of the fighting at the Dardanelles particularly has introduced a new factor into the Australian view of the war and the defence department finds that volunteers have been increased by a most desirable class. The government continues, however, to do little to persuade men to join. This course is partially dictated by the fact that it cannot supply arms or munitions as fast as it would like to. The difficulty lies chiefly in the lack of skilled labor at the federal small arms factory at Lithgow in New South Wales, whence come all the commonwealth's rifles, and the fact that the hands now employed do not work more than the strictly regulated union hours.
