CHINA WANTS TO BE THE WORLD'S TOY SHOP
Promoters to Manufacture All Kinds of Playthings.

New York.—Forty thousand dollars was spent for toys, most of it in New York, by Chang Ki Kiao, a special representative of the Chinese government, who came to the United States several weeks ago with the Chinese commission. He bought everything in the shape of a toy or dinner favor made of metal which he could find. Mr. Chang is now busy in seeking among manufacturers of machinery for men who can build machines to make in China the toys which before the war were practically all made in Germany.

OUR PUBLIC FORUM

III—Julius Kruttschnitt
On Financing Railroads

The farmers of this nation need to become better acquainted with the railroad men and their problems. It is only those who know that can give us information and the farmers of America should listen attentively to what the men who manage railroad property have to say. Mr. Kruttschnitt, executive head of the Southern Pacific, has written an article dealing with the financing of railroads. He said in part:

—The Legislators and the Commissioners. "Managing a railroad is quite different from managing a government where the money is raised by taxation. When the expenditures, for good reasons or otherwise, increase, taxes can be equally increased. The railroads, while servants of the public, cannot raise money with such ease and facility. The railroads must keep their expenditures within their incomes because while they have some control over their expenditures they have almost no control over their incomes, their rates being fixed by public authorities. "There is not a railway manager in the country today who is not fearful that under the pressure of increasing demands the transportation systems of the country will, in a few years, break down, unless the railroads are allowed to earn larger funds wherewith to build it up. There are vast sections of the country, especially in the West, where more railroads are needed and they cannot be built unless the railroads raise new capital. "People invest money in order to make money, and they are skeptical as to whether they can make money by investing in concerns that are dealt with stringently and unfairly. Railroad securities must be made more attractive to invite investments, and in order that they may be made more attractive, the roads must be allowed earnings that will enable them to meet the increased capital charges."

FIRST SHIPMENT OF VOLCANO ORE

GROSS RETURNS OF \$213 PER TON
(Special Bonanza Correspondence)
VOLCANO, July 3.—Messrs. Glenn, Musser and Ellis, owners of the lease at Volcano, who sent out a shipment of 3296 pounds of ore, received returns of \$213 per ton gross, a total of \$876, which is a very good showing indeed, considering the fact that the ore has been practically mined at and near the surface. There is considerable ore that yielded values that assayed well up in the thousands which gave the impression that it was all of that grade, which belief has proved erroneous. There is every reason to believe, however, that when the property is developed to greater depth that the present values will indicate much higher values.

CHEATS IMMUNE TO REFINEMENTS OF WAR

(By Associated Press.)
PARIS, July 3.—The refining influence of war, seen in so many other

directions, has not entirely overcome the little frauds of Parisian commerce. During February 48 cases of cheating in weights were detected by the fraud suppression service of the prefecture of police. Of 368 samples of milk analyzed, 26 per cent were found to be watered. Of 109 samples of wine 32 per cent were falsified. Of 250 samples of various other provisions,

SEE BRILLIANT METEORITE.
Made Night Bright as Day—Its Fall Shook the Earth.
Orangeburg, S. C.—A wonderfully brilliant meteorite was seen and the explosion was heard in this city and county recently about 2 o'clock a. m. Many people saw the bright mass as it fell toward the earth and a policeman in Orangeburg felt the earth tremble and heard the courthouse windows shake.

WEDDING ON RIVER BRIDGE
Use Idaho License, Calling Pastor From Prayer.
Lewiston, Ida.—Mrs. Maud Estes of Kamiah and A. J. Stuart of Stites were united in marriage a few days ago on the Lewiston-Clarkston bridge, just on the Idaho side of the midchannel of the Snake river. The parties had come to Lewiston expecting to be married by their pastor, the Rev. J. B. York of the Baptist church of Stites, who was in attendance at an association meeting at Clarkston. On learning of their mission they were invited to be married in the association meeting, but this was impossible because the license was obtained in Idaho, and so the meeting adjourned to the center of the bridge.

A SEVEN FOOT "COP."
Grantsburg's Chief Tips Scales at 340 Pounds.
Grantsburg, Wis.—This city, peaceful as it is, boasts of the largest chief of police in the world. He is Gust Anderson, who is seven feet four inches in height, and, though perfectly well proportioned, weighs 340 pounds. He is the only tall member of a big family and came here from Sweden, where he was born in 1872.

IF a woman can't keep a secret, ole Mother Nature ain't a woman. 'Cause Nature ain't ever told how she puts flavor into tobacco.

Velvet Joe

WE can't explain exactly how VELVET becomes so smooth mellow and fragrant. That's Nature's secret.

But we do know that if VELVET did not age for two years in wooden casks, Nature could not finish her work.

We have first call on the finest Burley tobacco that comes up through the soil of Kentucky. But that isn't enough.

This wonderful pipe tobacco—without a superior in the world—is allowed to bring out its own rich natural goodness.

All the inventors combined, couldn't improve on Nature's way—the only way—the VELVET way.

All the words in the dictionary couldn't convey the full meaning of the Smoothest Smoking Tobacco.

Smoke a pipeload of VELVET! We cannot print aroma and fragrance and "bitlessness." Your part is to prove it in your pipe.
