HOLT COMMITS SUICIDE

(By Associated Press.) GLEN COVE, July 7.—Holt, the assailant of J. P. Morgan, who committed suicide in the Mineola jail last night, has been identified as Erich Muenster, the Harvard instructor who disappeared after his indictment as the murderer of his wife, Leona, at Cambridge, in 1906.

RECOGNIZED BY PROFESSOR

(By Associated Press.) CHICAGO, July 7.—Prof. Chester Gould of the University of Chicago admitted that he identified Holt as Muenster while at Cornell last November. He said he decided for several reasons not to expose him as "he seemed to be getting along so nicely."

BIG PREPARATIONS FOR ELKS' REUNION

WILL PROBABLY BE ONE OF THE LARGEST FRATERNAL ASSEMBLAGES IN HISTORY

(Special to the Bonanza.) LOS ANGELES, July 7.—Preparations on a larger scale than ever before attempted in this city are under way for the Grand Lodge of Elks annual reunion July 11 to 17.

A midsummer floral dream and allegorical pageant, a mammoth open air dancing party for two nights, an electrical pageant depicting in lights the flowers of the state, exhibition drills, massed hand concerts, drill teams parade, trips to the beach, etc., orange groves and mountains and unique features will fill the week.

The city is being elaborately decorated. The 1915 general committee, an organization of 175 leading citizens formed last year to provide amusement for tourists during the present year, is assisting the Elks in preparing for the annual browse of the antlered herd.

A. G. STURGEON, a mining man of Wonder, is here visiting his brother-in-law, W. B. Evans. They will spend a few days together on the coast.

Residents of Tonopah who are preparing to leave the city on their annual vacations may have the Bonanza forwarded to them at their summer addresses with out any extra charge. Notify the circulation department when the change is desired and the paper will be forwarded promptly. SKIPPER LOSES YEAR BUT SAILS IN SAFETY

NORWEGIAN CAPTAIN SPENDS ELEVEN MONTHS IN DODGING SUBMARINES

(By Associated Press.) LONDON, July 7.—The Norwegian skipper Hansen has just arrived at Shoreham, England, from Sweden, after having been eleven months on a trip which ordinarily occupies less than a fortnight.

A few days after the Hansen left Sweden the war broke out, and the vessel immediately put into a Norwegian port to wait for things to settle down. Several times during the autumn and winter the skipper resolved to make a new start, but each time he was deterred by news of mine fields or submarine activities in the vicinity. It was April when he finally got away, and then, in order to avoid submarines, he took a roundabout course north of Scotland and west of Ireland.

His caution was in vain for off the south Irish coast he was stopped by a German submarine, but after some delay was allowed to proceed.

RUSSIA CLAIMS TO HAVE HELD ENEMY

MOTION FOR A NEW TRIAL NOT GRANTED

Judge Averill Overrules Plaintiff in Case of Jim Butler vs. West End Company

Judge Mark R. Averill yesterday overruled the motion for a new trial in the case of the Jim Butler Tonopah Mining company against the West End Consolidated Mining company. In making this ruling his honor said: "The memorandum of errors relied upon by the plaintiff upon its motion for a new trial herein contains fifteen assignments of error. Adherence to the opinion filed upon the conclusion of the trial disposes of all of these, and, having given the matter a great deal of consideration since the filing of that opinion, I find that I am not inclined to depart from it in any material particular. While I found that the ore body, etc., is one vein geologically, its limbs, nevertheless, are to a very large extent separate and have separate apices. Where they do unite the condition described in the opinion exists. It is argued that the quartz bodies along the lines of union are inconsequential spurs and subordinate features as compared with the main-

Italy Continues to Hammer on Strongholds of Germans and Austrians in South

(By Associated Press.) LONDON, July 7.—Petrograd asserts that a distinct check has been inflicted on the Austro-Hungarians near Krasnik, where the invaders were threatening an important railroad connection to Warsaw. This claim contradicts that of Vienna, which asserts that the Russians suffered defeat in this section. Otherwise all is quiet on the eastern front. Italy keeps up heavy battering against the Austro-Hungarian positions at Isonzo. Rome and Vienna disagree as to the advantage. Lloyd-George has announced that England would prevent the exportation of materials used in the manufacture of munitions.

PROMISING DISCOVERY MADE IN TRENCH IN THE BELLEHELEN MINING DISTRICT

(Special Bonanza Correspondence) CLIFFORD HILL, July 6.—Horse Shoe camp in the Bellehelen mining district bids fair to come into the spot light of publicity again, due to the discovery a week ago of a large body of good ore. To Mr. Powell is due the credit of uncovering a ledge of ore, over six feet in width, by means of a crosscut trench two to four feet in depth. A general sample of the ore body gave returns of \$52.40 a ton. This new discovery is situated about 200 feet north of the main shaft of the old company, which was sunk nearly 250 feet and a number of drifts and crosscuts run. On the 50, 100 and 200 levels, which work has opened up a considerable tonnage of good milling ore, the values are running about equal in gold and silver. One remarkable feature of the latest find is that the ore is almost exclusively of the white metal, the rock being plentifully sprinkled with brittle and stephanite carried in a red stained oxide quartz. Charles Eden, an old time Nevada miner and prospector, has secured an option on the six claims comprising the group and hopes to interest strong capital in his proposition which from the foregoing is worthy of exploration. It is said that ore that runs \$40 or better a ton can be mined, hauled and milled in Tonopah at a good profit. Horse Shoe camp is about 46 miles from Tonopah, with good roads between the two places.
