WOMAN OF RUSSIA TO SUFFER DEATH

ARRESTED AND CONVICTED ON THE CHARGE OF BEING A SPY

(Associated Press.) VIENNA, Austria, Aug. 23.—Sentence of death for espionage has been pronounced upon Miss Sinaida Bayer, a Russian woman who has been living in the little town of Reichenberg since May, 1914. Her two sisters, Elizabeth Bayer and Marie Polakow, accused of spying, have been released for lack of evidence.

The three women moved to Reichenberg in May, and astonished those whom they met by declaring that war was impending between Russia and Austria. They maintained themselves apparently by sewing and seamstress work. After their arrest, however, there were found a quantity of postal money order stubs which indicated that they had received funds from other sources.

With the beginning of the war the captured Russians were imprisoned in a camp at Rosenthal, not far from Reichenberg, and the sisters aroused suspicion by secret communications with the captive soldiers. One of them, from unknown motives, notified the Austrian officers and the woman's arrest followed immediately.

Her trial, which has just been completed at Theresienstadt, resulted in the conviction of Miss Sinaida Bayer and her condemnation to death by hanging.

INDIANS TAKE OUT A MARRIAGE LICENSE

A marriage license was issued by the county clerk this morning to Walter Malne and Amy Toy, both Indians. For about a month Malne has been trying to get a license, but has been refused on account of his Indian blood but this morning he again appeared at the courthouse with a letter from the attorney general, which stated that in his opinion the parties were entitled to a marriage license, as a man who is three-quarters white and one-quarter Indian may lawfully marry an Indian woman. The groom is from Elko and the bride is from Lander county.—Elko Free Press.

BRITISH IN CHINA MEET GERMAN CRITICS

INTERESTS THERE ARE SERIOUSLY AFFECTED BY PUBLICITY CAMPAIGN

(Associated Press.) PEKING, Aug. 21.—Britishers in China, whose interests have been seriously affected by the publicity campaign of their German adversaries here, are endeavoring to counteract the effect. The Rev. W. E. Southill, formerly the head of the Tai Yuen Pa university, has written a paper in the Chinese language (in which he has a reputation as a scholar) explaining the war from the British point of view.

In the document, which is being circulated throughout China, he says that hitherto Germany has possessed a distinct advantage here because of the Chinese name for that country—'Ta Te Kuo,' or Great Virtue Nation. The name conveys the name to the ordinary man, the writer states, that Germany is distinguished above all other nations for its Te (virtue). The names applying to England and France are respectively Ta Yung Kuo (Great Brave Nation) and Ta Fu Kuo (Great Law Nation); and it is interesting to note that applying to America is Ta Mei Kuo (Great Beautiful Nation).

WHITE FINE ASSESSMENT TWELVE MILLION DOLLARS

The assessment roll for White Pine county for 1915, as compiled by County Assessor Clark, shows a property valuation for that county of \$9,320,000, as against \$8,460,111.70 for 1914. The personal property assessed totals about \$11,000 and it is estimated that the bullion tax for this year will be equivalent to an additional \$2,500,000, making the total tax valuation of White Pine county about \$12,000,000.

DARBY MILL RESUMES

After an idleness of several years, the Darby mill of Maxuma began operations again last week, grinding on the ore from the Delaware mine above Vernon. It is contemplated to speed the plant up to 50 tons a day as soon as the machinery begins to work smoothly.

MARTYR TO JUDAISM

By Ivan C. Arnold

In recent years in Russia a man by the name of Belis was imprisoned for so-called "ritual murder," an idea that caused even the most ignorant Jew to smile, but, nevertheless, entertained seriously by the Russian. However, public sentiment was so very strong that Russia was forced to give an attentive ear and the result was that Belis was freed and permitted to go his way unmolested. THIS HAPPENED IN DARKEST RUSSIA. Loudest in its acclamation of dismay was the United States.

Here we have a parallel in POLITICAL RIDDEN GEORGIA, making it darker than the wids of Siberia. Briefly, Conley, a negro was arrested for the murder of a child by the name of Fagan. All evidence clearly pointed to this man, he having been in the building at the time of the murder, and with the assistance of Demon Rum was equal to the act. However, with the assistance of District Attorney Dorsey, this drunken negro's testimony was turned against Leo Frank and his word taken in preference to a clean living white man. I wish to state here that I am not downing the negro race, for if I were asked to take Booker T. Washington's word against Mayor Woodward of Atlanta, I would gladly take the former, and if asked to take any sober minded negro's word against that of District Attorney Dorsey, I would do so with hands down. But this was a different case—a drunken negro's testimony against a white man, a college graduate, but more than that A JEW! Why bother going across the ocean to Russia with our protests? How about the shame of our own nation, disgraceful Georgia?

Coller's, in its write-up of the case, I believe, did the Catholics an injustice. This murder was no more the fault of the Catholic than the Protestant. It was simply the ignorant and lowly of both classes and the better class of Catholics, the educated, the men of the world, are most bitter in denouncing the murderers of Georgia. There are good and bad of all religions.

When Jesus, a Jew, was murdered upon the basis of the crime in order to pull a cloak over the eyes of the ignorant. (See Book White's "Call of the Carpenter.") Frank, a Jew, has been murdered, and upon the basis is being founded politics in the city of Atlanta and the state of Georgia. Two wonderfully similar cases and it seems history has again repeated itself.

NEW WATER SUPPLY IS TALKED OF FOR LOVELOCK

A special telegram published in the Reno Gazette from Lovelock says the low stage of water in the Humboldt is disturbing Lovelock again, and the matter of bonding the city to build a municipal water system, bringing the supply from flowing springs near the edge of Limerick canyon or from some other point, is being discussed.

Residents of Tonopah who are preparing to leave the city on their annual vacations may have the Bonanza forwarded to them at their summer addresses without any extra charge. Notify the circulation department when the change is desired and the paper will be forwarded promptly. Subscribers should advise the Bonanza of their return to the city so that the paper may be delivered at their home address.

NEVADA WOOL SHIPPED

Practically all Idaho, Utah and Nevada wool has been shipped east to the large wool buyers with the exception of a quantity in the Idaho triangle, which is the Wood river country, says the Herald-Republican. Wool buyers have offered as high as 30 cents a pound for wool in the triangle, but some of the growers insist on holding their wool in expectation of an advance in prices.

OUR PUBLIC FORUM

E. P. Ripley On Relation of Railroads and People

The industrial leaders of this nation are talking to the public face to face through the columns of this paper. The time was when if a corporation had anything to say to the people they sent a hired hand, whispered it through a lawyer or employed a lobbyist to explain it to the legislature, but the men who know and the men who do are now talking over the fence to the man who plows. When the leading business men of this nation get "back to the soil" with their problems, strife and dissension will disappear, for when men look into each other's faces and smile there is a better day coming.

Mr. E. P. Ripley, president of the Santa Fe Railroad, was asked to give his views in reference to relations existing between the road and the public said in part:

"Frequently we hear statements to the effect that these relations are improving, that the era of railroad baiting has passed and that public sentiment now favors treating the railroads fairly. As yet this change in public sentiment, if any such there be, is not effective in results. It is true that in the legislatures of the southwestern states during the past winter there were fewer unreasonable and unreasonable laws passed than usual, but a consideration of the hostile bills introduced shows that there is still reason for much disquiet even though they were defeated by more or less of a majority.

Moreover, the idea that the railroads have been harshly treated does not seem to prevail in the offices of the State Railroad Commissions, which seem to cherish a notion that their business is not to act as an arbitrator between the railroads and the people, but which proceed on the theory that the railroads are able to take care of themselves and that their duty is to act as attorney for the people even though in so doing they deny justice to the railroads. It requires no argument to demonstrate that the railroads are entitled to justice equally with other citizens and taxpayers. That they have not received it and are not receiving it is perfectly susceptible of proof. That they have practically no recourse in the courts has also been determined.

The situation therefore is that the people through their representatives, must elect whether the services of the railroads shall be adequately compensated or not; and it requires no fortune teller or soothsayer to predict that in the long run the service will take the class that is paid for and no better. The natural competition between the railroads and the natural desire to perform business service has heretofore resulted in giving the public much more than it was willing to pay for. Continuation of this will be impossible and no laws, however drastic, can long accomplish the impossible."
