

# LOAN TO ALLIES MAY CREATE GRAVE PANIC

## HALF OF AMERICAN CASH MAY BE USED

### SUCCESS OF PLAN SAID TO BE ASSURED

#### Rockefeller and Others Nibble at Bait Thrown Out by Foreign Commissioners

(By Associated Press.)  
CHICAGO, Sept. 16.—United States Senator J. Hamilton Lewis today published a letter protesting against a billion-dollar loan to the Allies, predicting that it would invite a repetition of the panics of 1873 and 1893. He says: "It would take half of America's available cash, in return for securities of countries that already are taxed to the utmost. There would be no way by law to collect the collateral. The amount of money is needed to initiate and sustain home enterprises, to employ labor and increase commerce. If the amount were available we should loan it to South America, where we could build up trade and be secured by empires of valuable land."

(By Associated Press.)  
NEW YORK, Sept. 16.—Standard Oil millionaires, including Rockefeller Jr., are considering the terms of the proposed billion-dollar loan to the allies, with a view to participating. The rate of interest is now reported to be the chief difference between the American and foreign bankers, the commission believing the loan should sell at par at 5 per cent. The bankers say it should bring about 95. The commissioners say that millions are pledged and that the success of the loan is assured.

## SUPPLIES SEIZED ARE WORTH \$15,000,000

### Merchandise Taken by Britain Consists Chiefly of Meat Sent From Chicago

(By Associated Press.)  
LONDON, Sept. 16.—The British prize court has condemned the greater part of American products forming the cargoes of four steamships, forfeiting supplies worth \$15,000,000 to the crown. The goods consist chiefly of meat owned by Chicago packers, seized last November. In pronouncing the judgment Sir Samuel Evans, president of the court, said the ships were carrying thirteen times the normal shipment to Copenhagen, which in itself was overwhelming assurance that they were intended for reshipment to Germany. In one instance twenty times the former exports of lard were confiscated. Shipment of canned meats to Denmark before the war amounted to practically none, yet these ships carried hundreds of thousands of tons of meat, obviously for German soldiers.

(By Associated Press.)  
CHICAGO, Sept. 16.—The meat cargoes confiscated will be a complete loss to the packers, according to their statement, there having been no advance payments.
