WAR DECLARED BY SERBIA ON BULGARIA

GALLIOLI EXPEDITION SEEMS HOPELESS Nearly 100,000 Lost by British in the Assault Upon the Dardanelles

(By Associated Press.)
LONDON, Oct. 15.—Official announcement is made that Serbia has declared war on Bulgaria. The first war statement by the Bulgarian general staff accuses the Serbians of initiating the offensive. Defending her action in declaring war, Bulgaria contends that her neutrality was violated by Serbia. The Serbians are clinging desperately to the heights above Belgrade, waiting for assistance from the allies. The total British casualties at the Dardanelles up to October 9, according to official figures, was 96,899. Of this number 18,957 were killed, of whom 1185 were officers. Announcement of the great losses of the British forces at the Dardanelles followed a speech last night in the house of lords by Lord Milner, who is said to have characterized the expedition as hopeless, and suggested the withdrawal of the troops from Gallipoli.

UNCLE DAN WHEELER CROSSES THE DIVIDE

ONE OF THE OLDEST PIONEERS OF NEVADA ANSWERS THE LAST SUMMONS

When Uncle Dan Wheeler struck the Truckee meadows there was a single habitation in the valley, now the most populous in the state, with Reno, Nevada's metropolis, in its center.

Uncle Dan brought his lares and penates with him and he built a home, where he lived for 57 years, dying yesterday at San Francisco at the ripe old age of 75. He was a native of Ohio. His death occurred at San Francisco and was caused by pneumonia.

Uncle Dan was one of the most lovable characters in the west. He was charitable and cheery. His initiation into Elkdom marked one of the brightest points in his life, for he entered into the fraternal and charitable work so intensely that he became the father of the Reno lodge. His annual turkey dinners brought each year five and six hundred dollars into the charity box, besides making it the annual event of the order. Uncle Dan will be sorely missed, not only in Reno, but throughout the state.

In 1871 he was married to Sarah E. Ridenour, sister of John Ridenour, and she survives him, with four sons, two daughters and six grandchildren. The sons are Carl, Donald, Park and Mack, the daughters are Mrs. Hugh Senseney and Mrs. Mae Selfridge, and the grandchildren are Gwendolyn and Jack Wheeler, Muriel, Haskell and Nell Selfridge and Dan Senseney. A sister, Mrs. Mary Loder, also survives.

REMARKABLE FEAT OF GUNNERY RECORDED

SPLENDID MARKSMANSHIP OF ONE OF THE TYROLESE RIFLEMEN

(By Associated Press.)
VIENNA, Oct. 15.—A remarkable feat of marksmanship is reported from the southwestern front, where many of the famous Tyrolese riflemen are fighting against the Italians. A troop of the so-called Kaiser Light Infantry, which was fighting on the Dobredo plateau, got into a most precarious position in advance of the Austrian lines. They could not retreat as the ground over which they would have to retreat was fully covered by the Italian guns. They held their ground for several days, while suffering greatly for lack of food and water.

The Italian artillery was playing upon them with accuracy, being directed by means of a post of observers on higher ground than that held by the Tyrolese. It was regarded as necessary to get rid of that post, consisting of eight Alpine; and a soldier who had made a reputation for himself in the Oetzthal as a highly expert peacher volunteered to undertake the difficult task. Climbing stealthily by night, as if hunting chamois, he managed to reach a hiding place in easy shot of the post; and when the eight Italians began to stir the next morning he quickly picked them off, one after the other.

GOVERNMENT PLANS NATIONAL DEFENCE

More than Four Hundred Million Dollars to be Spent on Army and Navy

(By Associated Press.)
WASHINGTON, Oct. 15.—The national defense plans of the administration, calling for an expenditure during the next fiscal year of more than \$400,000,000 for the army, navy and fortifications, has finally been completed. Secretary Daniels discussed with the president how many battleships, battle cruisers and smaller warships to recommend each year during the five years for which the program is arranged. It is planned to have some aeroplanes built for the navy by the government. The president has approved Secretary Daniels' recommendation for a five year program to cost \$500,000,000. The first year's program includes two dreadnaughts and two battle cruisers.

BOXING CARNIVAL AT THE AIRDOME THEATER

Those who attended the boxing carnival at the Airdome last evening certainly obtained the worth of their money for the four fights staged there among the best that were ever seen in the city, even though they were each put on with a six-round limitation. The attendance was fair, the coolness of the autumn evening causing many to fear catching cold if they attended, but those who went, even without overcoats, worked up sufficient enthusiasm to make them feel as though they were sitting beside sizzling radiators.

Jimmie Welsh officiated as referee. The first contest was between Jimmie O'Connell of Tonopah and Kid Smith of Oakland. It only went four rounds, O'Connell being given the decision.

The second fight was between Joe Murphy of Tonopah and Gus Rainier of Stockton. It was a good scrap from start to finish. Rainier took the lead in a whirlwind attack, but after the mixup Murphy held him down and gained a decision on a foul in the fourth. Speck Duffy of Goldfield and Bert Wagner of Los Angeles next mixed matters up and they went at it hammer and tongs until Wagner scored a knockout in the fourth round. Wagner then challenged either Bratton, Moore or Malone, and offered to put up a \$250 side bet. The last event was between Herb White of Stockton and Kid Pollock of Tonopah. Inasmuch as the house receipts did not justify all the entertainment that was on the bill, the fighters were loath to go on. Finally, after some delay, a collection was taken up and the bout started. The boys sparred skillfully and determinedly through the six rounds, giving a very clever exhibition of the art. The decision was given to White on points.

TAYLOR SHOWS UP READY FOR BUSINESS

When H. G. (B. S.) Taylor showed up on the job this morning and began issuing orders as surface boss at the Belmont, it was hardly noticeable that any change had taken place in him since the day previous, except for the fact that he was clean shaven and had on a rather sporty necktie as well as a mysterious smile that showed even when he yelled his directions. But as a matter of fact Mr. Taylor had undergone a considerable alteration. Last evening he and Mrs. Mary Riley of this city journeyed to Goldfield, where they were married in the Presbyterian parsonage. Mr. Yankee and Mrs. Joe Wade were witnesses to the ceremony.

RAILROADS TO AID IN PUMPING WORKS

THROUGH DEAN SCRUGHAM, CO-OPERATIVE PLAN ARRANGED TO FURTHER EXPERIMENTS

After returning from the International Engineering congress, Dean Scrugham made a trip to the southern part of the state. He met Delos Chappelle, president of the Nevada-California Power company and arranged with him to start co-operative pumping experiments in Fish Lake valley and Bonnie Clare flat, says the U. of N. Sagebrush.

Plans are to be put down at once and the necessary mechanical equipment is to be furnished by the company. Robert Allen, '15, will be the university's representative on these tests. Dean Scrugham also spent a day with F. M. Jenifer, manager of the Tonopah & Tidewater railroad, in looking over the possibilities for development of underground waters in the Amargosa desert. The railroad is very desirous of developing the agricultural possibilities of the district and is willing to spend a very large sum of money in an endeavor to tap the underground water supply. The basin is of the open type with an outlet drainage into Death valley and it will not be a difficult matter to tap the water bearing strata. The varying degrees of temperature of the springs in different parts of the valley and the various chemical compounds in the water lead to the belief that a deeper strata of water bearing formations may be found.
