

NEVADA'S MINERAL PRODUCTION FOR YEAR 1914

The production of gold, silver, copper, lead, and zinc from Nevada ores sold or treated in 1914, according to Victor C. Helges of the United States geological survey, was valued at \$29,300,843.

The output of recoverable gold from Nevada mines in 1914 was 555,492.47 ounces, valued at \$11,481,188, and of this amount 87.29 per cent was derived from dry or siliceous ores. The placer gold output was 18,250.05 ounces, of which 10,345.04 ounces came from placer mines in Nye county. The dry or siliceous ores contained 484,796.46 ounces of gold; copper ores, 49,476.61 ounces; and lead, zinc, and copper-lead ores contained 2,879.25 ounces. Bullion from gold and silver mills contained 459,919.37 ounces; concentrates, 41,686.38 ounces; and crude ore shipped to the smelters, 55,375.09 ounces. The mines of Esmeralda county produced nearly one-half of the total gold, or 352,236.367, and the Goldfield district yielded \$4,705,210 of this total. Nye county produced \$3,337,262 in gold; the Tonopah district yielded \$2,648,833; the mines of the Comstock lode produced \$434,387 in gold, and Humboldt, Mineral, White Pine, and Churchill counties, in the order named, each produced more than 15,000 ounces of gold.

For three years prior to 1914 the silver output of Nevada had been steadily increasing, but on account of the low prices of the metal in the last half of the year 1914 there was a slight decrease in silver. The total output was 15,455,491 ounces valued at \$8,546,887. Of this total yield 14,724,094 ounces, or 95.8 per cent, was credited to siliceous ores; 286,935 ounces to lead ores; 181,733 ounces to copper ores; and 115,128 ounces to lead-zinc ores. Ores treated at gold and silver mills were credited with 12,100,494 ounces; concentrates with 1,721,348 ounces; and crude ore with 1,600,315 ounces. Nye county produced 11,424,769 ounces; the Tonopah district produced 11,388,452 ounces, or 73.7 per cent of the entire silver pro-

duction of Nevada; the Comstock lode, or Storey county, yielded only 278,599 ounces, but Churchill county's output was 1,545,326 ounces.

In 1914 Nevada produced 50,986,450 pounds of copper, valued at \$8,111,198, a decrease from the production of the preceding year. The greater part of the copper, or 50,366,650 pounds came from concentrates, and 10,551,000 pounds were from crude ore shipped to smelters. The mines at Ely were operated at a reduced rate and the Mason Valley smelter was idle during a good part of the year.

The lead output of the state was 12,809,655 pounds, valued at \$499,577. Clark and Lincoln counties continued to outrank all others in the production of lead, the combined output of these two counties being 10,193,098 pounds. White Pine county yielded 915,602 pounds and Elko county 860,826 pounds. The yield of lead from concentrates was 3,937,126 pounds and that from crude ore 8,794,246 pounds.

The zinc ores of Nevada produced 12,880,232 pounds of recoverable zinc figured as spelter, valued at \$661,392. Clark county produced 11,862,149 pounds of the entire zinc output, the remainder coming mostly from Lincoln county although small shipments were made from Eureka county during the year. The greater part of the zinc material is oxidized. From crude zinc ore shipped, 6,116,898 pounds were recovered, and from concentrates 6,863,334 pounds were recovered.

There were 731 producers of gold, silver, copper, lead and zinc in Nevada in 1914. Of the total of 4,522,022 short tons of ore sold or treated, 1,461,577 tons were treated in gold and silver mills, principally cyanide mills; 2,768,193 tons were concentrated, largely copper ore concentrated; and 261,018 tons represented crude ore shipped to several smelters. The largest part of the total tonnage, or 2,882,121 tons, represented copper ore; 1,594,486 tons were siliceous ore; 16,088 tons lead ore; 9,490 tons zinc ore; 3,762 tons copper-lead ore; and 16,075 tons lead-zinc ore.

TODAYS QUOTATIONS ON THE EASTERN MARKETS

Owing to the election held in San Francisco, there was no session of the exchange there today. The following flashes, however, were received from the east:

	Bid	Asked
Jumbo Extension	1.32 1/2	
Belmont	3.65	
West End	.78	
Merger Mines	.18	.19
Atlanta	.24	.25
Cash Boy	.07	.08

TONOPAH BONANZA THROUGH BIG FISSURE

At a depth of 965 feet the Tonopah Bonanza Mining company's shaft is passing through a fissure of quartz and calcite. It is thirty feet thick and the drill holes show that there is harder formation ahead, evidence that the footwall has been reached. As says show only about 80 cents in gold and small values in silver. The formation is badly broken. Water is now causing less inconvenience.

NEW AUTO SERVICE

Robert Guthrie has established a new auto service in Tonopah and will immediately answer calls day or night. His cars will be used for local business and for charter to all points. His stand is at the Merchants' cafe, where telephone calls may be sent. The cars are modern and comfortable and the service is quick and safe.

HEAVY AUTOMOBILE TRAVEL

The Eureka Sentinel says that careful figures by Rudolph Zadow, local consul of the Lincoln Highway association at Eureka, show the passage of 832 cars through that town so far this season. Four hundred and sixty-two of these cars were from eastern points on the way to the coast.

RAY BAKER SAFE

Raymond T. Baker, secretary to Ambassador George T. Marye at Petrograd, Russia, has arrived safely at his post, according to a cablegram received in Reno by Harry Baker, brother of the diplomat. Baker left Reno several weeks ago on his return to Russia, after having journeyed to this country with dispatches for the administration.—Journal.

LONG ARGUMENT IN COURT

Nearly all the morning session of the district court was taken up today in an argument in the case of the Verdi Lumber company against Bartlett. It was on a motion by plaintiff to strike out in plaintiff's bill of exceptions on appeal. It was submitted after argument.

Don't forget the masquerade ball Saturday night, November 30. Six prizes given for best costumes. Costumes for rent at Miners' Exchange hall. Admission 25 cents. Everybody invited.—AdvO16130.

FACE OF QUARTZ IN THE BUCKEYE-BELMONT

ORE RESEMBLES HALIFAX IN TEXTURE AND LIES CLOSE TO ITS LINE

On the 900 level of the Buckeye-Belmont in the east drift, which follows closely the line of the Halifax, the company has encountered a body of quartz containing calc-spar, also black sulphides. The values thus far are not high, but the texture and appearance of the quartz is similar to the Halifax strike. The find in the latter property was so near the Buckeye that the miners in the latter can hear the former's drills working. The drift will be extended in anticipation of picking up a lens of ore.

COAL MINE SHAFT NEARING FORMATION

DARMS COMPANY REACHES A DEPTH OF 453 FEET AND IS IN "BONE"

H. A. Darms, president of the Darms Coal Mining company of Coaldale, was an arrival this morning from Goldfield, having returned several days ago from the coast.

The shaft is down 453 feet on an incline. The formation is now in solid "bone," which usually lies outside, particularly above, the coal. There is less bother from water. The contract with the people who are sinking the shaft is for 120 feet more.

SOME LAD THIS

Peter Fabia doesn't mind so much the fire that threatened to destroy his Progress bakery this morning, for another event occurred which more than made up for the loss he sustained by flame. There was born to Mrs. Fabia a boy this morning. He tips the beam at 11 1/2 pounds.

REPORT ON LIME

The annual statement of the United States geological survey on the production of lime in 1914 shows that 3,380,928 short tons of lime were produced, with a value of \$13,247,676. The report is now available for distribution.

W. S. JOHNSON, postmaster of Manhattan, is in town today on mining business.

There is coffee so full of satisfaction that the day takes care of itself!
You will like the flavor of Schilling's Best; you will like its economy—it goes further.
It is packed evenly ground and ready for use, in airtight tins.
Schilling's Best

ATHLETIC ASS'N BY THE EIGHT GRADE

BOYS FORM AN ORGANIZATION IN FAVOR OF CLEAN SPORTS

Early in the year the eighth grade organized an athletic association. Its aim is to encourage all kinds of clean sports in the grade this year. It was recognized early in the season that this class had good material for all kinds of sports and so the games with the high school were greatly anticipated. The first game showed a score in favor of the high school while the last one resulted in favor of the eighth grade.

In order that more time might be given to the high school team, the grades withdrew any further challenge but will give the high school team some practice and do all in their power to strengthen the high school team in order that it may compete for the state championship.

The last progressive step of the new athletic association was one to raise money to buy new basket balls, finish paying for football and to furnish half of the money that was required to clean up Recreation park. The money was easily and quickly earned in a candy sale last Friday afternoon, more than \$12 being realized as profit.

FOOTBALL WILL BE PLAYED EACH WEEK

THE THANKSGIVING CONTEST TO CROWN SERIES FOR THE PRESENT SEASON

To miss a football game by a single point is the greatest little stimulant a team could ever get. If you don't believe it take a jaunt out to the football field some late afternoon and watch the spirit of the boys about their practice. If the game with Goldfield did nothing else it opened up the eyes of the boys in Tonopah's lineup and gave much to ponder about and improve.

From now until Thanksgiving, each week the team will play regularly scheduled games. The schedule as it now stands includes the following games: October 30, at Tonopah against an all-star team; November 6, at Bishop, against the Bishop Union high school; November 13, at Reno, against Reno high school; November 20, at Tonopah, against an all-star team; and on Thanksgiving day the premier event of the year, at Goldfield, against the Goldfield eleven.

Only two admission games will be played on Tonopah's grid, on a small admission for Saturday's game, and the usual admission for the Thanksgiving game. It is unfortunate that local fans will not be able to see their team in more games, but the best arrangements that could be made required outside games this year, the return games to be played on our field next year.

A strong team is being organized to go against the boys next Saturday, the lineup being calculated to beat the high school boys by perhaps two points. By this means good stiff playing will be brought out, and the boys will need to fight for every yard gained. The lineup will be announced in an early issue.

WINGFIELD CORPORATION BUYS GOLDEN HOTEL

Announcement was made Saturday of the sale of the Golden Hotel to the Reno Securities company, a corporation formed recently by George Wingfield, H. G. Humphrey and C. F. Burton, says the Reno Gazette. The sale was made by the First National bank of San Francisco, which gained title to the place when the Golden estate failed to redeem the judgment held by Eugene Schuler for the sum of \$21,000, which was bought in by the bank last February. Schuler secured a judgment for that sum as the price for putting on the top story of the hotel.

Certificates of location on sale at the Bonanza office.

PERSONAL

T. M. JONES of Milwaukee is registered at the Mizpah.

R. B. RIDDICK of Goldfield had business in this city today.

W. HILL JAMES of Pasadena, Cal., is stopping at the Mizpah.

R. T. ROCHFORD of Blair was among today's visitors to Tonopah.

AUSTIN JACKSON, who was secretary to Governor Oddie, is here from Reno.

THOMAS (DRY WASH) WILSON was a departure today for the exposition city.

H. A. DARMS, president of the Darms Coal Mining company at Coaldale, was in town today.

FRANK C. KINGSLAND, publisher of Field of Gold, is over from Goldfield today between autos.

BEN F. EDWARDS, vice president of the West End Consolidated Mining company, is an arrival from Oakland.

MRS. A. M. MYERS, daughter of Mrs. Henry Kind, after visiting several months in this city, departed today for San Francisco.

J. C. LYNCH, a banker of Salt Lake City, who is interested in the Halifax, is here making an inspection of the property for himself and associates.

ED PATTERSON, receiver for the Nye & Ormsby County bank, now default, spent yesterday in Tonopah and this morning went over to Goldfield.

ED JOHNSON, formerly of Silver Bow but now a prosperous farmer at Fallon, arrived on today's train. He is looking for a market for his hay.

MANAGER PIKE of the Jim Butler is again on the job this morning, after having been confined to his bed for two days with an attack of la grippe.

THOMAS KEARNS, ex United States senator, vice president of the Halifax Tonopah Mining company, arrived on today's train from Salt Lake City. He is here on mining business.

R. E. RICHARDS and wife, accompanied by Mrs. J. A. Vergo, a mother of Mrs. Richards, and Miss Gene McCarthy, niece of the Richards, returned by auto Saturday evening from San Francisco.

JACK BRATTON returned this morning from Elko and Reno, where he has been since leaving Tonopah. On September 10 he defeated Douglas at the Elko rodeo and since that time he has enjoyed hunting and other outdoor life and comes back in the pink of condition. He is looking for another fight here and feels like a conqueror.

AMUSEMENTS

BUTLER THEATER

Wallace Eddinger, who makes his film debut under the management of Jesse L. Lasky in the picturization of that famous comedy hit, "A Gentleman of Leisure," is one of the most noted Broadway comedians and a man whose advent into the field of photodrama is an advent of genuine importance. He has combined an expert knowledge of how to be laughable with a character and personality inseparable from refinement, and he has the fine art of doing the most unexpected things in the most natural manner reduced to a science. Mr. Eddinger in "A Gentleman of Leisure," founded on the comedy of the same name by John Stapleton and P. G. Woodhouse, will be the attraction at the Butler this evening. This production had its first presentation in New York at the Strand theater, and scores there of the greatest triumphs of photography and producing. The Strand is known as America's most elaborate picture theater, and this picture played, one of the most successful weeks in the history of that national institution. The preliminary reel will include the Paramount Travel pictures, which are always interesting and instructive.

Tomorrow, "Beulah," a six-reel Balboa production, featuring Henry Walt, and a Pathe Cartoon comedy Sunday, "The Rosary," a picture of exceptional merit. Those wishing reserved seats should secure them early.—Adv.

A GOOD IDEA

The city council of Ely has caused tables and benches to be installed in the center of a wide street and one block off the Lincoln highway. These were erected as a picnic place for tourists traveling that thoroughfare. The spot is kept clean and inviting by the city.

FIRE IN MOUNTAINS

A forest fire has been raging in the mountains just west of Carson and on account of the high wind prevailing all day is spreading quite rapidly. From the governor's office word was sent to the forest reserve officers at Gardnerville, so they are looked for to come and cope with the flames.—Appeal.

FORECLOSURE SUIT BROUGHT

H. R. Cooke this morning filed suit in behalf of J. R. Young, for himself and others for foreclosure of a mechanic's lien in the amount of \$2500 or more against the Gold Mountain Mining and Development company of Bonnie Clare.

ON PROSPECTING TRIP

M. C. Homer and Eric Putman of Lovelock, who are traveling through the country in an auto and prospecting on their way, arrived this morning from the Broken Hills. They will proceed from here to a point 100 miles east.

TEMPERATURE REPORT

Highest temperature yesterday, 61; a year ago, 65.
Lowest temperature last night, 51; a year ago, 51.

ED ACCEPTS HONORS

Ed Wheeze Jr., is the father of a handsome little girl, the third olive branch in the family.

HALLOWE'EN DANCE

Tonopah lodge, No. 1062, B. P. O. Elks, will give a yama-yama dance on Halloween evening, October 29, in the Elks' hall. It will be for members and invited guests.

NOTICE TO THE PUBLIC

This is to give notice that I, Lon Yu Tong, have purchased the Sing Hi restaurant on lower Main street and will assume all debts and liabilities from and after October 16, but not before.
