Charles Schwab Reported to Have Taken Active Interest in Tonopah Again

One of the most important deals that has taken place in Tonopah in many moons, possibly in years, is the taking over of the Zadig or Umatilla interests, in the Tonopah Bonanza mining company, amounting to approximately 300,000 shares. The purchaser is the Greenwater Mining and Smelting company, of which Dr. Ward is the president of the Tonopah Extension Mining company, is president. This transfer of stock has resulted in the resignation of Mr. Haskell, as superintendent and the appointment of John McGee, of San Francisco, in his place.

Nor has the sale of the big block of stock in the Bonanza been the only feature of the week. There have been heavy transfers of Umatilla stock, while several outlying properties have also changed control. A wire from San Francisco yesterday afternoon stated that the control in the Great Western mine had been sold. Thus far there has been considerable secrecy connected with these deals, but it is the general assumption that they are going into strong hands. Some say that it is Charles Schwab who has gone to the bat. At all events the western portion of the district now is assured of thorough development.

GEORGE WINGFIELD WILL ENTER SUGAR GAME

The Churchill County Standard of yesterday reports that George Wingfield may take hold of the Nevada Sugar company's plant at Fallon. He is said to be negotiating now with California sugar men and the Detroit bondholders of the company for control.

Under the decree entered last Monday by Judge Farrington in the United States district court against the company in favor of the bondholders, the property is to be sold, the Standard, says on December 30th, a meeting of the stockholders having been called for that date to ratify the sale. The Fallon paper proceeds to say:

"It is currently reported that negotiations are now pending which means the entrance of George Wingfield into the company. Mr. Wingfield is now in San Francisco in consultation with his associates and it is understood that he will co-operate with practical sugar men on the coast. If these negotiations are completed, as now seems practically certain, it will place the company under the joint control and management of the Detroit bondholders and Mr. Wingfield and associates."

IN THE SUPREME COURT

In the matter of the estate of Otto Hartung, deceased, arguments were heard in the Supreme court this morning, on an appeal from the order of the lower court, says the Appeal. The interpretation of the will is the main controversy. The Odd Fellows claim the income and principal of the estate, while the executors claim they are only entitled to the income in any event.

WILL REPRESENT NEVADA

The meeting of the Conference of Irrigation will be held in San Francisco on December 2d and 3d and the governor yesterday appointed the following as the representatives from this state, G. P. Costigan, E. C. McClellan and Frank Hought. This is one of the most important commissions that has met at the exposition city this year and representatives of all western states have been appointed to attend to discuss the irrigation problems.

GOVERNMENT LOSES IN W. P. CASE

The Western Pacific railroad company was acquitted in the Federal court Wednesday evening on a charge of rebating brought against it by the government. The case had been on trial for about ten days. The jury was out about two hours when a verdict of not guilty was returned. The case has been vigorously fought by both sides and if the company had been found guilty fines amounting to over \$200,000 maximum, could have been assessed. Attorney A. J. Partridge of San Francisco, and C. B. Henderson of Elko represented the railroad and United States District Attorney William Woodburn and Dunkin & Elder of San Francisco the government.

At the conclusion of the case the court took a recess until next Monday at which time the criminal cases will be called. Following these cases will be the damage suit of Houston versus the Northern Pacific railway company for \$50,000 for injuries claimed to have been received in a head end collision on that road.
