

STOCKS

The following are the closing stock quotations, and the record of the day's sales, as received from the San Francisco stock exchange this afternoon by Broker H. R. Epstein:

Table with columns: TONOPAH, Bid, Ask. Includes Tonopah Mining, Montana, Tonopah Extension, Midway, Belmont, West End, Jim Butler, North Star, Rescue Eula, Mizpah Extension, Gypsy Queen, Monarch Pittsburg, Halifax, Cash Boy, Umatilla, Tonopah '76', Great Western.

GOLDFIELD

Table with columns: Bid, Ask. Includes Goldfield Con., Jumbo Extension, Combination Fraction, Booth, Blue Bull, Florence, Atlanta, Merger Mines, Lone Star, Great Bend, C. O. D., Sandstorm, Silver Pick, Kewanas, Oro, Spearhead, Yellow Tiger, Blue Bell, Grandma, Commonwealth, Simmerone.

MANHATTAN

Table with columns: Bid, Ask. Includes Manhattan Con., White Caps.

MISCELLANEOUS

Table with columns: Bid, Ask. Includes Round Mountain, Rochester, U. Western, Nevada Packard, Nenzel, Big Jim.

TONOPAH Morning Sales

Table with columns: Bid, Ask. Includes Montana, Tonopah Extension, Midway, West End, North Star.

Afternoon Sales

Table with columns: Bid, Ask. Includes Tonopah Extension, Midway, Jim Butler, Monarch Pittsburg, Cash Boy, Umatilla.

GOLDFIELD Morning Sales

Table with columns: Bid, Ask. Includes Goldfield Con., Blue Bull, Florence, Atlanta, Merger Mines, C. O. D.

Afternoon Sales

Table with columns: Bid, Ask. Includes Goldfield Con., Jumbo Extension, Blue Bull, Spearhead.

MISCELLANEOUS Morning Sales

Table with columns: Bid, Ask. Includes Rochester, U. Western, Big Jim.

Afternoon Sales

Table with columns: Bid, Ask. Includes U. Western, Big Jim.

A Terrible Abyss.

The greatest ocean depth yet sounded is 31,200 feet, near the island of Guam. If Mount Everest, the world's highest mountain, were plucked from its seat and dropped into this spot the waves would roll 2,000 feet above its crest. Into this terrible abyss the waters press down with a force more than 10,000 pounds to the square inch. The stanchest ship ever built would be crumpled under this awful pressure like an egg shell under a steam roller. A pine beam fifteen feet long which held open the mouth of the trawl used in making a cast at a depth of more than 18,000 feet was crushed flat as if it had been passed between rollers. The body of the man who should attempt to venture to such depths would be compressed until the flesh was forced into the interstices of the bone and his trunk was no larger than a rolling pin. Still the body would reach the bottom.—Pearson's Weekly.

Social dance at the Airdome Saturday evening. Admission free. Everybody invited. Dances 10 cents each. Three for 25 cents. Adv-1613

Sore Eyes Granulated Eyelids. Eyes inflamed by exposure to Sun, Dust and Wind quickly relieved by Murine Eye Remedy. No Stinging, Lasts Eye Comfort. At Your Druggists 50c per Bottle. Murine Eye Remedy is Sold in 25c. For Sore of the Eye, Murine Eye Remedy is Sold in 25c. Chicago

MANHATTAN BOYS WILL PLAY TONOPAH

PRELIMINARY GAME WILL BE PLAYED BY TWO HIGH SCHOOL GIRLS' TEAMS

The Manhattan boys basketball team will arrive in Tonopah Saturday afternoon with their coach, Mr. Joseph Dickinson, to play the local high school boys in the high school gym. Harold Stotesbur, will referee, and the game will start at 8 o'clock, sharp. As a preliminary, the high school girls will play a picked team from the squad. The girls have not lost a game this year, and have already played Las Vegas and Winnemucca. The Winnemucca team has been considered a very strong possibility for state championship and their positive defeat by the Tonopah girls gives an excellent indication of the local team.

Mr. Cross has decided to make participation in this game count toward the high school letter in athletics. The girls are required to play a certain number of half games to be privileged to wear an emblem and this game is to count on that total.

A popular dance will follow the games and there will be no additional charge for it. A single ticket will include all the events of the evening. The High School orchestra, under the direction of Mr. Cross, will furnish the music.

MONARCH PITTSBURG HAS THE REAL STUFF

DRIFT ON INTERMEDIATE SHOWS BIG VALUES ACROSS A GOOD FACE

When the Bonanza told yesterday of assays running as high as \$27.50 in the crosscut of the 850 intermediate of the Monarch Pittsburg, it was at that time referring to grab samples. Since that time a drift has been turned from the crosscut in the big ledge and today a face of two and one-half feet is shown. This ore samples cold bloodedly \$36.68, according to tests made by Superintendent Branch Smith. The gold values are \$9.80. President Cal Brougher has been notified and is expected to be on the ground in a day or two. This pay streak is found in an immense vein that is similar to the Montana breccia and is walled by West End rhyolite and trachyte.

MINERAL COUNTY MINING ACTIVITY

PROPERTIES AT RAND, PAMICO AND LUCKYBOY BEING DEVELOPED

W. F. Ross, a mining man from Pamlico, Mineral county, spent Saturday in Reno while returning to his properties from Los Angeles where he spent the holidays with his mother, says the Gazette.

Mr. Ross has been operating in the Pamlico district for two years and has been a resident of Hawthorne and nearby camps for the past six years. When asked concerning the mining activities in the Rand, Pamlico and Luckyboy districts, Mr. Ross replied:

"When I left for Los Angeles, the district was looking better than at any time for several years. Through the efforts of several operators in the district, Salt Lake City and eastern capital has been induced to enter the field and real mining work will be begun there soon. J. H. Miller, and associates have taken over the Gold Pen mine at Rand and when they commence active operations there, as is expected, Mineral county will see a great revival in mining.

"The placer properties at Pamlico, with the exception of my own properties, have not been worked for some time, but I understand large interests have been induced to come in there and will work the mines.

"Ex-Governor Oddie is interested in some properties east of Mina, which are being developed, and the tungsten mines at Sodaville are producing several hundred dollars worth of ore daily and employing about 50 men."

JIMMIE FALLS HEIR

W. James Seeger, better known as Jimmie Glue, has fallen heir to three new sets of commokeys, whatever they may be. He had them on exhibition all day at the Cobweb.

ELKS WILL HOLD HIGH JINKS IN ELY TOWN

MANY TONOPAH AUTO ENTHUSIASTS WILL BE MEMBERS OF THE LODGE PARTY

Tonopah lodge of Elks, No. 1062, will journey to Ely by machines on January 16. There are many members who have cars and all will doubtless be filled. The Ely Elks belong to this jurisdiction and they have framed up an entertainment for their fellow members that promises to be a hummer. The functions will take place on the 16th and 17th. There will be a smoker to start the fun and on the following day the visiting members will be shown the pits, mines and smelters. The program for the smoker is not yet given out, but it is understood that it will be just about the best yet.

Accompanying the Elks will be a delegation of good roads enthusiasts, who will attend the convention of the Nevada Automobile association, with which the Nye county Automobile association is affiliated. Their convention will be coincident with the big doings by the Elks. The combined move upon Ely is expected to have its moral influence in favor of keeping the Lincoln highway where it is and adding new luster to the Midland trail, although the Tonopah Elks are not making their pilgrimage for that purpose, but simply in order to return the many fraternal calls that have been paid the local lodge, in whose jurisdiction the White Pine members reside.

MORE DETAILS ON THE STRIKE AT COMO

GOLD FIND NEAR OLD COMSTOCK HAS ASSURANCE OF WORTH

Last night's Gazette gives further details of the reported ore strike at Como, as follows:

"After many months of active development work by Clyde Garrett and Gurney Gordon in the Como mining district their faith in the camp has been rewarded and ore assaying over \$31,000 to the ton in gold has been found. News of the strike was brought to Reno by Gordon and Garrett who came in from the camp to spend New Year's. The ledge, according to Garrett, has been opened for a distance of 65 feet and averages from two to four feet in width. Five assays made showed values, all in gold, of \$73.65; \$900; \$2500; \$2270.48 and \$31,347.20. The last assay was a picked sample of black ore, supposed to be tellurium, which did not pan a color.

"The new strike lies close to and adjoins the property of the Bear Gold Mining company and the Nevada Deep Mines company, with several other promising properties lying close by. Garrett and Gordon are the original discoverers of the new strike and have located and surveyed several claims. They expect to start work on the main strike at once but will throw the balance of the ground open to leasers. Several applications for leases have been received.

"The camp of Como is located about eight miles south of Dayton, in the Pine Nut range. The formation of the district is andesite, similar to Virginia City, Tonopah and Goldfield. The main dyke or ledge is from 14 to 20 feet wide and crops out for a distance of over 2500 feet, showing values at different places along its entire length."

COMMITTEE WILL MEET

The community Christmas tree committee, with which is allied the relief committee, will meet Sunday afternoon at 2 o'clock in the clubhouse at the Mizpah hotel. It is urged that all members be present as at this time all the bills incurred in giving the Christmas tree will be finally considered and the arrangements made to have the relief committee become a permanent one and carry on the work all through the winter.

BIRTH OF A SON

Mrs. Gholson of Salisbury, Wash., already the mother of six children, gave birth to a boy last night in the county hospital. She and her children were brought in to Tonopah by the relief committee before Christmas and they have been tenderly cared for.

TEMPERATURE REPORT

Highest temperature yesterday, 33; a year ago, 34. Lowest temperature yesterday, 24; a year ago, 23.

MAP MIDLAND ROUTE WILL BE DISTRIBUTED

County Clerk Pohl has received 100 maps of the Midland trail, which will be distributed where they will be able to do the most good. These maps will be distributed at once, placed in public offices and at points where the travelers will be able to gain an idea as to distance and route, as well as supply stations. The map is one that is exactly marked as to distances, with annotations giving the tourists complete information as to garages, hotels and points of interest. The limited supply is already almost exhausted by requests that have already come in.

DEADLINES OF THE AUTO DECREASING

(Continued from page one.)

the close of 1913 it had risen to 1,270,000; and a year later, at the end of 1914, it was 1,750,000.

In the meantime the number of deaths due to automobile accidents and injuries increased from 632 in the death registration area in 1909, containing 56 per cent of the population of the United States, to 2623 in the same area in 1914; and the increase from 1913 to 1914, for the registration area as constituted in 1913, then containing 65 per cent of the population of the country, was from 2488 to 2795.

Thus a five-year increase of 775 per cent—accepting as reliable the figures compiled by the National Automobile chamber of commerce—in number of machines has been accompanied by an increase of 315 per cent in automobile fatalities; and a one-year increase of 38 per cent in number of machines has been accompanied by an increase of 12 per cent in fatalities.

Perhaps a more reliable comparison, from the statisticians' point of view, can be made between the increase in number of automobiles in use and the increase in the rate per 100,000 population for deaths caused by them. This is because, with a given number of machines in use in a given area, the fatalities due to them will tend to be proportional to the population of that area. When the comparison is made on this basis, it appears that a five-year increase of 775 per cent in number of machines has been accompanied by an increase of 258 per cent—from 1.2 to 4.3 per 100,000 population—in the death rate resulting from automobile fatalities. Similarly, a one-year increase of 38 per cent in number of automobiles has taken place along with an increase of only 1 1/2 per cent—from 3.9 to 4.3 per 100,000—in the death rate caused by them.

One cause of this proportional decrease in the destructiveness of the automobile is undoubtedly to be found in a reduction in average annual mileage per machine, but, after due weight is given this factor, and a suitable margin is allowed for possible error resulting from inaccuracy in the estimated portion of the automobile statistics, the figures still appear to furnish ample justification for the conclusion that the automobile today is being driven with more care and more regard for public safety than it was a few years ago.

Crater Lake's Gamy Trout.

Whether it be from the temperature or the quality of the water is not known, but it is the testimony of experienced anglers that, pound for pound, Crater lake trout are harder fighters than trout found elsewhere.

"Around the edges of the lake," said the general superintendent of the park, "there is no foliage to entangle your hook and line, and it is the ideal place for the amateur fisherman. When I was there the lake was so clear that you could see to a depth of forty feet. The first fish I caught I saw take the fly. I saw every motion of his body until I finally landed him on the bank, which I only did with the aid of one of the concessioners in the park. I do not know of any other place in the world where an amateur fisherman can swing his fly in any direction without danger of catching it on some twig and when he hooks his fish watch every motion as he fights for freedom. I agree with Emerson though in every word that he has said about fishing in Crater lake."

A Lesson in English.

Teacher—Now, Clarence, can you tell me what "can't" is the abbreviation of? Clarence—It's the abbreviation of "cannot." Teacher—That's right, Now, Edgar, what is "don't" the abbreviation of? Edgar—"Doughnut."—Chicago News.

War Lances.

The war lance of the middle ages was about sixteen feet long. The present day lance rarely exceeds eleven feet.

MISS BOWLER went to Goldfield this morning to visit friends.

PERSONAL

P. H. PATTISON is here from Salt Lake City.

J. S. KELLY is an arrival from Manhattan.

W. H. ABY is over from Goldfield on a business errand.

J. A. GRAHAM of San Francisco is registered at the Mizpah.

MRS. A. B. CROSBY of Goldfield is visiting friends in this city.

MRS. N. A. McCURDY was a passenger for Goldfield this morning.

A. F. GEGAN, the powder man, is up from San Francisco and is stopping at the Mizpah.

DR. C. E. HASCALL, narcotic drug inspector for the State of Nevada, was an arrival from Fallon this morning.

JUDGE NORCROSS CANDIDATE

A wire from Judge Norcross, chief justice of the supreme court, was received by the Bonanza last night. It states that he will be a candidate for the United States senate at the next election. If elected, he will not take office until the expiration of his term on the bench.

VILLA IS SIGHTED

(By Associated Press.) EL PASO, Tex., Jan. 7.—General Francisco Villa with Generals Rodriguez, Ceneceles and Hernandez, with 500 men have assembled in the San Buena Ventura valley, southwest of Casas Grandes, according to a report by Mexican Consul Andreas Garcia to General Obregon today.

OFFERS ADDITIONAL BOUNTY

Owing to the stimulus occasioned by the extra bounty on coyote scalps offered by the county commissioners, Justice Dunn of Winnemucca has taken in 514 thus far this month. The old bounty was 50 cents each, to which the board added \$1.50, making a total of \$2.—Silver State.

NOTICE TO MEMBERS OF TONOPAH MINERS' UNION

The office of the secretary in the Miners' Exchange building, will be open from 6 to 8:30 p. m. WILLIAM MITCHELL, Secretary. Adv. 1613.

BUCHANAN ARRESTED

(By Associated Press.) NEW YORK, Jan. 7.—Congressman Frank Buchanan of Illinois, indicted on charges of conspiring to foment strikes in munition plants, today surrendered here and was arraigned. He pleaded not guilty and was released on \$5000 bail.

If you want the telegraph and local news—try the Bonanza.

AMUSEMENTS

BUTLER THEATER

A Fox production will be the feature at the Butler; tonight. This time it will be the screen debut of the crowned monarch of the stage—Mr. Robert H. Mantell, the world's most eminent dramatic star, with Miss Genevieve Hamper, the superlatively bewitching young artist—Eve's loveliest daughter—in the startling modern drama "The Blindness of Devotion," by Rex Ingram. A stirring arraignment of society's sins. The story is one that combines beauty, love, hatred, revenge and action. Rarely, if ever, has a screen drama been brought to such a pitch of dramatic and thrilling realism. Mr. Mantell says: "Ten years ago I would have despised even the thought of going into motion pictures. But today they have become so artistic, they have increased in the value of artistry at least one thousand per cent. The greatest people are going into them, and why should I not do so?"

Mr. Mantell discussed various phases of his many years' experiences in theatrical life before signing with William Fox for a series of modern dramas, of which the first is "The Blindness of Devotion." As Mr. Mantell talked, his charming and talented wife, Genevieve Hamper, sat beside him, entering into the conversation with lively zest. Miss Hamper has also signed a Fox contract to appear in pictures, and shares in every respect the ideas of her talented husband.

The preliminary reel will be a George Ade comedy, the first to have been shown here in some time.

Tomorrow—a day of laughs at the Butler—Marie Dressler in a six-reel Big Four comedy, "Tillie's Tomato Surprise," and Charlie Chaplin in one of his up-to-date gloom-chasers.

Social dance at the Airdome Saturday evening. Admission free. Everybody invited. Dances 10 cents each, three for 25 cents. Adv-1613
