ELKS AND MINING MEN ASSIST CLUB

ONCE A SOVEREIGN STATE.

Now Noli is Simply a Fishing Village With a Past.

One of the oldest and quaintest little independent states that ever existed in Europe—the tiny republic of Noli, founded before Rome and maintaining its liberty for many centuries until Napoleon swept away its privileges—is today merely a fishing village near Genoa, but it is full of reminders of its former greatness and affords a wonderful glimpse of mediæval times.

This quaint little fishing village maintained itself as a sovereign state for centuries, took a prominent part in the quarrels of Guelphs and Ghibellines, sent doughty warriors to the Crusades, commanded the interest of emperors and popes and only succumbed at last to the armies of Napoleon.

Everybody is rich in this poor man's paradise, says the Wide World Magazine. During the anchovy months it is not rare for the 120 boats to earn \$4,000 in a night, or \$75,000 in a season.

Through fish alone a man earns far more than a clerk, besides which he has no "appearances" to keep up. Under these happy conditions he soon acquires land and houses, which afford a steady revenue while he sleeps or fishes. The earth here has only to be scratched in order to bring forth wealth, so rich is the soil and so abundant the water.

I was introduced by particular request to Mrs. Wyndham Lewis, a pretty little woman, a flirt and a rattle-indeed, gifted with a volubility I should think unequalled and of which I can convey no idea.

"Different Effects." "The same thing will make entirely different impressions on different readers," remarked the man who writes.

"Paraguay Lace." Lace making was taught the natives of Paraguay by missionaries two centuries ago. Today in all towns of 8,000 inhabitants many of the men and nearly all the women and children make lace collarets, handkerchiefs and ladies' ties.

"Accomplished." Blobs—I never knew such a lar as Longbow. Slobbs—Yes. That fellow could actually eat an onion and the out of it—Philadelphia Record.

Diversity of opinion proves that things are only what we think them.—Montaigne.

WARNING SIGNS OUT AGAINST TEMPTATION

PROMINENT TONOPAHNS START CRUSADE IN FAVOR OF DUTCH TREATS

Whenever you see a man with a stern and decisive expression on his face, a rather unwonted dignity and a soft uplift to his chin, look a little further down and you will probably see a blue button on the lapel of his coat.

You will then be assured that you have saved fifteen cents.

Last evening there was organized in this city the "No Thank You" league. Its purpose is to discourage the demoralizing treating habit, which so often, it is said, leads to excessive drinking through sheer conviviality.

NEW TONOPAH CLUB IS NOW A YEAR OLD

PATRONS AND GUESTS PRESENTED WITH FLOWERS IN RECOGNITION OF BIRTHDAY

Today is the first anniversary of the reopening of the Tonopah Club, an institution which had a powerful influence on the early development of this camp and was instrumental in laying the foundation for fortunes that aggregate into the ten million dollar class.

When N. C. Ableman and C. W. Taylor re-opened the house a year ago today it was a heavy undertaking on their part, but they made of it a splendid success. It is headquarters for mining men, as it was in its primeval times.

A few weeks ago Mr. Taylor, whose mining interests engrossed his entire attention, disposed of his interest to Mr. Ableman. The latter remembered his patrons and visitors today by presentation of bouquets.

PERILOUS ATHLETICS.

Sport That Wrecks the Heart an Evil to Be Avoided.

"No one will gainsay the value and pleasure of outdoor exercise graduated to suit the needs of every individual throughout life," says the Journal of the American Medical Association, "but the species of overdoing called for in the intense competition of the great contests of our schools and colleges can no longer be defended by platitudes regarding the alleged psychological value of its competitive features.

The time has come when statistics regarding latent athletic injuries must be reckoned with and the lives of our youths safeguarded by making a distinction between sane sport and in sane participation in the intolerable strain of competitive games of the extreme type."

The same paper says the authorities of colleges need to be reminded in an emphatic way, in the words of Dr. R. N. Wilson of Philadelphia, that "no form of athletic event is sane that demands of the participants the semiconscious state of heart exhaustion at its conclusion."

And it denounces the daredevil forms of "sport" that depend for their thrill on nearest possible approach to death by the actors in them, such, for example, as "looping the loop" in an aeroplane or driving a motorcar a hundred miles an hour. Such, it says, are not sport, but degeneracy.

"A Strange Situation." "Humor is a very funny thing," said Binks.

"It ought to be," said the philosopher. "Oh, I don't mean that way," said Binks. "I mean that it is a strange thing. Now, I can't speak French, but I can always understand a French joke, and I can speak English, but I'm blessed if I can see an English joke."

"Most people are," said the philosopher. "Are what?" said Binks.

"Blessed if they can see an English joke," said the philosopher. "It is a sign of an unusually keen vision."

BELATED ARRIVALS

Two disappointed men met the girls of the Tonopah basketball team yesterday morning when they discovered that the young ladies for whom they took the trouble to arise early, polish their automobiles, put on clean collars and bappy smiles had been "ditched." Mrs. Leslie Warfle and Miss Ella Perry missed the train at Reno. The train puffed out, being able to throw a ball to basket and sprint for a train are different propositions. They arrived this morning.
