

BOTH HEAVYWEIGHTS ARE READY FOR BATTLE

(Continued from Page 1)

lasts cannot be convinced that the Kansas cowboy will fall a victim to Moran's rushes and blows. It is pointed out that the conquerer of Jack Johnson is physically superior in every respect to his opponent and that in a bout of but ten rounds it would be little short of a ring miracle for Moran to stretch the champion on the floor for the count.

In boxing ability the two pugilists are conceded to be about equal but beyond that point Willard has a marked advantage over Moran in almost every department of glove fighting as well as physical make-up. He will outweigh Moran by close to fifty pounds, stand between five and six inches above the Pittsburgh slugger and have a longer reach, of more than six inches than Moran. Both are extremely powerful hitters in proportion to their size but here again Willard's greater physique and strength give him a wide margin over Moran. The latter is the more aggressive boxer of the two but the champion's towering height and ability to block with his long arms militate against the chances of the smaller pugilist landing a knockout blow to the head. The task of reaching Willard's body is not so difficult but in all his bouts to date the Kansas has shown ability to take very hard blows in his midsection without slowing up. From a defensive standpoint Willard is considered to be one of the

best equipped boxers of his division in many years.

He is equally formidable offensively when aroused, but, as a rule, lacks the aggressiveness necessary to win from an opponent of Moran's calibre in ten rounds or less. His best blows are a short left jab and a right hand uppercut. These blows he uses almost continually and owing to his long reach and great strength the punches carry terrific power when Willard puts full force into them. Under pressure he can and does fight with other blows and carries a knockout in either hand when mixing savagely. In his awkward and ponderous style Willard is almost as fast on his feet as Moran, although he seldom uses footwork to avoid an opponent. At close quarters he should be able to hold Moran safely, although the latter will be dangerous if he can tear loose long enough to uncover his ability and power as an infighter.

Both pugilists virtually completed their training on Thursday and each claims to be in perfect condition for the battle. Moran has been on edge for the bout for close to two weeks and his trainers have had more difficulty in holding him to physical form than Willard's handlers. The champion was slow to round into condition since he had been out of the ring for almost a year while Moran, because of his recent bouts, responded quickly to the conditioning routine. Willard, however, once he settled down to

hard work dropped weight and increased his speed rapidly and while it is doubtful if he is in the same magnificent shape that he was when he met Johnson at Havana, he should be able to box the full ten rounds at top speed if necessary.

Whatever the outcome of the battle the two heavyweights will be well repaid for their training and struggle in the ring. If the contest goes the full distance the principals will receive \$7,125 per round or at the rate of \$2,375 per minute. Of this sum Willard's share will be \$1,583.33 and Moran's \$791.66 per minute. The purse of \$71,250 is the largest ever offered for a ring battle of any distance with the exception of the \$121,000 given to Johnson and Jeffries by Rickard in their fight at Reno, Nev., in 1910. The purse is larger than the gate receipts taken in at any fight ever held in New York state under the Horton law or the present Frawley regulations. But two fights, the Johnson-Jeffries and Johnson-Burns battle in Australia brought receipts in excess of \$71,250.

The difficult task of refereeing the bout has been placed in the hands of

the veteran, Charley White, an experienced boxing arbiter, and he has stated that he will insist upon the principals boxing in strict accordance with the rules. Because of his past experience as third man in the ring at a number of championship battles, White should be able to decide upon all technical points which may arise. Considerable responsibility will rest upon his shoulders as Willard might lose his title in several ways, notwithstanding that the contest is billed as a ten-round no-decision bout. Moran would become the heavyweight title holder should he knock out Willard or in case the latter was to foul Moran during the struggle. White is also empowered to stop the fight in case either one of the men is incapacitated for any reason and unable to continue. Such a decision would automatically make the other principal a winner and technically the holder of the title.

SUNDAY DINNER

The Harrington serves the best dinner in town. Try it. Adv. M25-E-Sa.

OFF TO VIEW THE NEW TUNGSTEN FIND

DISCOVERY, OWNED BY TONOPAH PEOPLE, IS LOCATED AT CAMP OF GARNET

The tungsten find, mention of which is made elsewhere in this issue, is located ten miles south of Sodaville, at an old camp known as Garnet, abandoned for many years. At the time operations were carried on there it was not expected that tungsten was to be found there.

The owners of the property are N. C. Ableman and James McKay. Last night and this morning there was a small sized rush to the strike. Among those leaving Tonopah were Ed Uren, James McKay, Charles Whittenberg, H. M. Clifford, Ed. Ashton, N. C. Ableman and W. F. McCarthy.

If you want the telegraph and local news—try the Bonanza.

Have You Ridden in the New Reo Six?

IF YOU HAVEN'T we think it is not too much to say you have yet to taste the real joys of motoring.

AND WHEN YOU HAVE ridden in this big luxurious equipage—the latest and in some respects, greatest product of Reo experience—you will understand why this car enjoys such a vogue—is so tremendously popular this season.

REO SIX WAS PROCLAIMED the "fashion plate for 1916" by designers generally from the moment its graceful lines were seen.

AND DOUBTLESS YOU'VE OBSERVED the influence this Sheer Line Reo has exerted on the design of seven passenger cars generally.

BUT YOU MUST SEE IT—must ride in and finally drive it yourself to fully appreciate what a magnificent car and what wonderful value it is at its price.

AND THE CLOSER YOU STUDY the details—the more carefully you enquire into every point of design, of construction, of quality of materials, of equipment and finish—the greater will be your admiration and the deeper your wonderment that it is possible to produce such a car for such a price.

FOR YOU MUST KNOW that this Reo Six is made as only the Reo Folk can make automobiles. It is real inside and out—the Reo Folk do not use substitutes. Real leather in the upholstery and real hair.

BUT THAT STATEMENT is scarcely necessary. For you know the Reo Folk and you know Reo ideals. You know that Reo reputation is built on the most solid of foundations—a good product honestly made and honestly sold and honestly backed up afterward.

SO WHEN WE TELL YOU that this new Reo Six is a Reo from radiator cap to tail-light we have said the most that could be said for any automobile.

AND THERE'S QUANTITY, TOO, if you like to put it that way. This is a big, full-size seven passenger car. Seats seven full grown adults comfortably—luxuriously.

WHEELBASE IS 126 INCHES. But that is increased—or rather the riding qualities are—to much more than it would otherwise amount by the Reo cantilever springs. They enhance the riding qualities of a car immeasurably—especially a big car like this New Reo Six.

BUT, AS WE SAID in the first paragraph, you will have to see and ride in it yourself to fully appreciate. Then remember one thing more:

DEMAND IS TREMENDOUS—always is for Reo cars, but this season more than ever. Only way to get a Reo and be sure of having it for spring delivery is to order well in advance.

NEVER SINCE THE FIRST REO was made and went into the possession of its proud owner has it been possible for us to make enough cars to supply all who wanted Reos.

AND NOTWITHSTANDING the Reo plants have been extended from year to year till they now cover nearly forty acres (39.23 to be exact) still, we cannot supply the full demand.

ON MARCH FIRST there were more orders on file at the Reo factory than at any previous time in Reo history.

IF YOU APPRECIATE the shortage there is going to be. If you want a Reo. And if you get us your order now—tomorrow—you will be one of the "lucky ones."

BUT DON'T DELAY—there won't be enough—never have been enough—Reos to go 'round.
