ATTITUDE OF GREAT BRITAIN IN THE WAR

(By Associated Press.)
LONDON, Mar. 28.—Viscount Bryce, former ambassador at Washington, has written an article on "The attitude of Great Britain in the present war," in which he says:
"We in Britain who respect and value the opinion of the free neutral peoples of Europe and America cannot but desire that those peoples should be duly informed of the way in which we regard the circumstances and possible results of the present conflict."
Lord Bryce says there are five principles on which the aims and ideals of Britain in the present crisis are essentially different from those of Germany, namely, as to individual liberty; as to nationality, which sympathizes with the efforts of a people against foreign dominion; as to the maintenance of treaty obligations; as to the regulation of the methods of warfare in the interests of humanity; and as to a pacific as opposed to a military type of civilization. He compares the British and German attitude on each of these principles. Continuing, he says:
"Our English ideal for the future is of a world in which every people shall have within its own borders a free national government resting on, and conforming to, the general will of its citizens, a government able to devote its efforts to improving the condition of the people without encroaching on its neighbors, or being disturbed by the fear of an attack from enemies abroad. Legislators and administrators have already tasks sufficiently difficult in reconciling the claims of different classes, in adjusting the interests of capital and labor, in promoting health and diffusing education and enlightenment, without the addition of those tasks and dangers which arise from the terror of foreign war."
"I cannot believe that the German people, as I have hitherto known them, ever since I studied at a German university more than fifty years ago, could possibly approve of the action of their government if their government suffered them to know the facts relating to the origin and conduct of the war as those facts are known to

the rest of the world. We have had no hatred of the German people. We did not grudge them their prosperity. Neither have we any wish to break up Germany, destroying her national unity, or to interfere in any way with her internal politics. Our quarrel is with the German government. We think it a danger to every peaceful country and believe that in fighting against its doctrine, its ambitions, its methods of warfare, and our allies are virtually fighting the battle of all peace-loving neutral nations as well as our own.
"We must fight on till victory is won, for a government which scores treaties and wages an inhuman war fare against innocent non-combatants cannot be suffered to prevail by such methods. A triumphant and aggressive Germany, mistress of the seas as well as of the land, would be a menace to every nation, even to those of the western hemisphere."
Lord Bryce concludes with a plea for a league of peace. "The obstacles in the way of creating such a league are many and obvious," he says, "but whatever else may come out of the war, we in England hope that one result of it will be the creation of some machinery calculated to avert the recurrence of so awful a calamity as that from which mankind is now suffering."

GUIDE BOOKS FOR DESERT
Bills have been introduced in both houses of congress providing for the erection and maintenance of monuments marking the site of guideposts indicating the direction of water-holes in the western deserts. It is also proposed to issue maps and other information concerning sources of portable water in the arid regions. A sum of \$10,000 has been asked for this purpose.

SIXTY DAYS IN JAIL
Frank DeMorse, who was brought back from Reno by Chief of Police Evans for beating a board bill, was found guilty late yesterday afternoon in Justice Dunseath's court and sentenced to sixty days in the county jail.

AUTO FOR EACH 34 PEOPLE IN STATE

Some interesting figures are to be found at Secretary of State Brodigan's office on the automobiles and motorcycles owned in this state, and when the returns are all in they will show that there is at least one automobile in the state to every 34 residents, counting men, women and children. Thus far nearly 2,500 applications for state licenses and tags have been received at this office, which is 500 more than last year. It is estimated that at least 500 more are yet to be heard from, so that the final figures will show fully 1,000 more machines registered this year than in 1915. The applications have been coming in at the rate of about 40 a day since the first of the year, counting Sundays.
There is much work entailed in caring for this business, all machines being double indexed, by numbers and by names, so that in a very few moments the number of any car, or the owner, can be obtained from the files. If a state's prosperity is to be gauged by the number of its auto vehicles, Nevada is certainly up in the front ranks.

ORE IN MANY PLACES

Among the auto visitors in Carson today were Mr. and Mrs. Charles Braun of Dayton. Mr. Braun states that recently a number of rich finds have been made in the old Como mine and it now begins to look as though the old property was going to resume its former reputation as a producer. It is being operated under bond by Gurney Gordon and Reno associates.—Appeal.

REGISTRATION COMPLETED

Mrs. McLaughlin, registrar for the school election, completed her task last evening. There were 356 women and 66 men, a total of 422, enrolled. This is in addition to the names already on the great register. This registration does not hold good for the fall elections.

MAPLE FLOOR COMPLETED

The handsome maple floor in the Airdome was completed today. It is the largest maple floor in the state and possesses great resiliency. It will require a day or two for the finishing touches which will be required for dancing, but it will be in readiness for use at the public meeting to be held tonight.
