Tense Situation on the Border at Nogales, That Would Have Precipitated War

(By Associated Press.) NOGALES, June 28.—American occupation of Nogales, in Sonora, was close to a fact last night when eight Mexican soldiers were driven back by United States sentries as they tried to cross into the United States.

Nevada is First in Silver Says Government Report

WASHINGTON, June 28.—The Bureau of the Mint and the Geological Survey have issued the following joint statement as to the final figures on the production of gold and silver in the United States during the calendar year 1915:

Table showing Gold and Silver production by state for 1915. Nevada is the highest producer for both metals.

At the average price of silver per fine ounce for the calendar year 1915, \$0.49889. These figures compare with the production of 1914: \$94,531,800 in gold, and 72,455,100 ounces of silver, being a gain in the gold production of \$6,503,900 and 2,505,975 fine ounces in the silver product.

HERMAN ZADIG DISCOURSES ON THE OUTLOOK OF TONOPAH

"I was down in the Rescue this morning and found everything looking excellent in the face of the east drift," remarked Mr. Hermann Zadig last night after returning from Goldfield, "with every appearance of going to improve within the next few days. I think the Rescue has made a wonderful showing when you take into consideration that all the raises are in highgrade and that during the month of May the average ore extracted milled over \$30 per ton. I am confident that in another month there will be another tale to tell about this mine. I have no hesitation at all in saying that it is one of the best properties opened here or anywhere else. As soon as we can we will crosscut from the 1100 level south to intersect the orebody found on the 950 level and also to prove up other orebodies which are known to exist in that quarter. We are only waiting the installation of the new compressor, after which we will put in a counterbalance.

Comstock would be discouraged after opening a vein for a distance of 200 feet to find it showing lean streaks? They would simply keep going for they felt sure of finding a later enrichment. I have seen cases where we had to drift 300 feet, to find values stronger than at first appeared. Therefore I claim that, should the Rescue even quit shipping, of which I am proud to say there is no danger, there is nothing to be alarmed over. But the vein did not quit. Neither did the values decline from \$40 to \$20. The people of Tonopah have been spoiled by the Rescue-Eula in expecting the continuation of one of the largest orebodies of highgrade ore known in my experience. Somebody is always glad when they can find fault, but I challenge any mining engineer to visit the Rescue-Eula and go through the mine, see the development, study the faces and not admit that the mine has a most wonderful showing for the short time that it has been under development.

Waiting For Word to Dash Over Border and Avenge Outrages of Many Years

(By Associated Press.) WASHINGTON, June 28.—This probably is the last day Carranza will be given in which to reply to the American note demanding the release of prisoners held in the penitentiary at Chihuahua City. It is learned that should a reply not arrive tonight or one that should prove unsatisfactory President Wilson is determined to go before Congress probably tomorrow to lay the situation before the members and asking authority to rescue the prisoners by force.

Word has come from Mexico City that the Carranza reply probably will be given into the hands of Agent Rodgers late this afternoon, but nothing is indicated as to what the nature is likely to be. It is believed here that it probably will comprise numerous counter demands, a proposition which is not likely to prove acceptable to the Washington government. Anything short of the immediate release of troopers will not be satisfactory to the United States.

HOT ON TRAIL OF MURDERERS

COMPLICATIONS MAY RESULT FROM PURSUIT OF COWBOYS OVER THE BORDER

(By Associated Press.) COLUMBUS, N. M., June 28.—A report reached here that the murderers of William Parker and wife at Hachita had been caught on this side of the border and killed, but the story was not verified. Cowboys of nearby ranches telephoned they had discovered a hot trail which they were following into Mexico. It is feared that complications may arise.

ORPET WEAKENS UNDER THE STRAIN

(By Associated Press.) WAUKESHA, Wis., June 28.—Orpet resumed the stand today and is being closely cross questioned relative to a letter he wrote to Marian Lambert on December 15. Orpet was pallid, as usual, and showed signs of the strain he is undergoing. He denied he ever asked Charles Hassinger, the Madison drug clerk, for capsules. He was closely questioned regarding his movements the day before the girl's death.

GREAT WESTERN BUYS PUMP FROM MERGER

AT END OF 30 DAYS PROPERTY WILL BE IN BETTER SHAPE TO COMBAT WATER

Manager John Magee of the Great Western mine, returned from Goldfield last evening after completing arrangements for the purchase of the powerful pump that has done good service on the Goldfield Merger. The pump is at the sump on the 1750 level and, with the supplementary equipment recently installed on the Great Western, will give a pumping capacity of 350,000 gallons a day, or sufficient to keep the lower workings free from further flooding. The delay in installing is due to the time required to raise the Merger pump and waiting on the change in the arrangements at that mine, which hereafter will be unwatered through the Grizzly Bear shaft.

TONOPAH MAN TO MARRY THIS EVENING AT COLUMBIA

Miss Irene F. Akin, of Goldfield, will be married this evening at her father's home in Columbia to Guy W. Roberts of Tonopah. Father Dermody will celebrate the ceremony and the best man and bridesmaid will be Tony Farrell and Miss Bessie Shields of Tonopah. The bridegroom is a hoist engineer at the Miraph Extension, who has lived here for the last ten years. The couple will make their home in Tonopah.

Greece Hesitates About The Allies

(By Associated Press.) ATHENS, June 28.—The situation in Greece is critical and full of uncertainty, although the demands of the allies are being rapidly carried out. The decree demobilizing the army was signed today.

DEMOCRATS BEGIN MUD THROWING

ANTI-SALOON LEAGUE AFFIRMS THAT CANDIDATE IS FAVORABLE TO THEIR CAUSE

(By Associated Press.) INDIANAPOLIS, June 28.—C. E. Hughes, the candidate for president, while on the bench uttered the opinion "That stamp him favorable to restriction of the liquor traffic," according to Mayne B. Wheeler, general counsel of the Anti-Saloon league, which is holding its convention here. He quoted several of Hughes' decisions.

AUSTRIANS LOSING STEADILY IN TYROL

HUMBERT'S ARMY DRIVING THE INVADER FROM TYROLESE PROVINCE

(By Associated Press.) ROME, June 28.—The Italians flung back the Austrians further on the Trentino front, where an official report announced the capture of Mont Giomondo, north of Fusine, and Mont Cavojo, which lie between Posina and Astico.

(By Associated Press.) PARIS, June 28.—The Germans have delivered another violent attack on French in the Fleury sector of the Verdun front. The assault was checked, says an official report.

MINERAL IS ACTIVE

John Harvey, a mining man of Mina and Luning, is in town. He says that activity in mining in his locality is on the increase, with capital becoming interested in the new properties.

JIM BUTLER DECLARES TEN CENT DIVIDEND

The Jim Butler declared a ten cent dividend this morning providing for the payment of \$171,802 to stockholders. This makes the second dividend this year and the third in the history of the company. The last previous payment was made February 6, 1916. The total distribution of profits by this company on sending out checks for dividend No. 3 will amount to \$515,406.

BLAMES TROOPS FOR OUTRAGES

CARRANZA ALLEGES AMERICAN SOLDIERS GUILTY OF POOR CONDUCT IN MEXICO

(By Associated Press.) WASHINGTON, June 28.—A note protesting against outrages against Mexicans alleged to have been committed by the American force of 3000 marching from San Geronimo toward Valle was sent to Secy. Lansing by Arredondo with instructions from Carranza that vigorous complaint be made of the alleged mistreatment of 300 civilians of La Cruz and requesting that the officers responsible be punished.

RUSSIAN REVERSE BERLIN REPORTS

REINFORCEMENTS ARE SENT TO VOLHYNIA RECOVER SOME LOST GROUND

(By Associated Press.) BERLIN, June 28.—A great battle in Volhynia, where the reinforced German army checked the Russians, has resulted in further reverses for the Russians. The Germans captured Winniewka, west of Sojul, and a Russian position south of there, says an official message.

OLD YOSEMITE MINE WILL START UP SOON

NEVADA MEN TO HANDLE PROPERTY THAT WAS A HEAVY PRODUCER 20 YEARS AGO

Frank M. Ish, one of the earliest pioneers of Tonopah and Goldfield, and later manager of the San Francisco baseball team, has become associated with George F. Dyer, of the Goldfield Silver Pick, in the purchase of the old Hite mine, four miles from El Portal, in Mariposa county.

The Hite mine was better known as the Squaw mine owing to the fact that the locator married among the Indians taking at different times two wives from the local tribe. The group includes 22 locations with a water right capable of developing 5000 horsepower. Between the years 1862 and 1904 the mine produced \$5,000,000. Recently, after twenty years' litigation, the title fell into the hands of J. S. Spillman, of San Francisco, through whom the new management secured control. In the early days the distance from the nearest shipping point at Merced was 65 miles, but now the railroad comes within three miles. The mine is free gold and Hite operated it with twenty stamps running on quicksilver and twenty stamps running without any means of trapping the values. The average value is \$10 and the mine has been opened to a depth of 1300 feet with an adit tunnel cutting the ledge at a depth of 900 feet.

ALL DEMANDS OF MEN FULLY ANTICIPATED

War Department Arranges For Delivery of Ample Supplies of Every Character

(By Associated Press.) WASHINGTON, June 28.—The War department is believed to have perfected arrangements whereby ample supplies of food, equipment and clothing will be provided for all troops called into federal service. It is said that every emergency is prepared for, no matter how great a number may be sent to the border or into Mexico.

CHICAGO, June 28.—Orders were issued today for immediate movement to the border of all units reasonably ready of the Illinois, Missouri, Kansas and Wisconsin National Guards.

PEN PICTURE OF COMMANDER OF THE BRITISH ARMY IN FRANCE

(By Associated Press.) BRITISH HEADQUARTERS (in France), June 28.—No military leader is more averse to publicity or works more silently than Sir Douglas Haig, the British commander in chief in France. To those who are importunate for the offensive his answer is patience and yet again patience while the new munition factories begin to produce and he continues his building. His generals say that he never tells them his plans; only what they are to do. Probably not one man out of ten of the million or more under his command would recognize him if they saw him. Not given to reviews or any kind of display, this quiet and studious Scotsman was the choice of

the progressive, practical, driving element of the army as the one fit by equipment, training and experience to succeed Sir John French. At 55 he is nine years younger than Sir John and ten years younger than Joffre or von Hindenburg. There is a story that he entered the army as the result of a boyish wager. He went through Oxford with distinction before he went to the military school at Sandhurst. His choice of arm was the cavalry, which has had so little to do so far in this war. But no sooner had he received his commission, later in life than most officers because of the time that he had spent at Oxford, than he set out with the thoroughness of the student to master every branch of his profession.

BACK HAUL CASE WON BY NEVADA

OBJECTIONABLE CLAUSE IS ELIMINATED BY ORDER OF INTERSTATE COMMISSION

RENO, June 28.—The order of the Interstate Commerce commission ordering a revision of transcontinental rates is a victory for Nevada. The order was a result of the investigation of existing rates on application of the Nevada Railroad commission, the Spokane Merchants' Association and representatives of various intermediate cities.

The commission's revision order applies to a long list of commodities in west-bound traffic, including iron and steel articles from Pittsburg and canned goods, coffee, meats, cotton and wool products, dry goods, hardware, shoes, twine, paper, oil, etc., from the east generally. It includes east-bound rates from California points via rail and water routes through gulf ports to the Atlantic seaboard. "This will mean," said Commissioner Simmons, "a great thing for interior dealers. As a matter of fact it matters very little what the intermediate rate is so long as it is not higher than the coast rate.

PRISONERS PUT ON FARMS TO WORK

(By Associated Press.) HARBIN, June 28.—At least a quarter of a million of the prisoners of war and refugees which were in Siberia during the winter, have been sent back into Russia to do farm

work. This has relieved the congested conditions in many districts and is lessening the work of the foreign Red Cross officials who are endeavoring to make the life of prisoners more endurable.

It is estimated that there are still seven hundred and fifty thousand refugees and prisoners in Siberia. Many of these have been sent to remote places far away from the Trans-Siberian railway. American Red Cross workers are looking after the prisoners in the Amur river district of eastern Siberia. In the territory west of Harbin the relief work is chiefly in the hands of the Swedish Red Cross. Workers of that organization are providing medical supplies and endeavoring to better the social conditions in prison camps.

JOE CONNOR and wife, accompanied by Miss Hillen, of Manhattan, motored over yesterday afternoon and returned in the evening.
