TREVINO DELIVERS THE CAPTURED CAVALRYMEN

Twenty-Three Enlisted Men and Mormon Scout Are Safe at Last NEW TERMS OF PEACE MUST BE ARRANGED IF CARRANZA SHOULD DISAVOW HOSTILITIES

Prisoners of War Stripped of Clothing, Arms and Accouterments Arrive Half Naked, Jeered at by Thousands of Mexicans at the Juarez Gateway--Washington Breathes Easier; War Less Imminent.

(By Associated Press.) WASHINGTON, June 29.—Carranza's release of the prisoners he held in Chihuahua and their subsequent delivery to American army officers at Juarez has somewhat relieved the tension and the danger of an immediate break with Mexico is apparently not imminent. Until Carranza replies to the demand relative to his attitude toward the American expedition into Mexico and to protect the border from bandits the crisis is only less imminent than before. Should the reply be unfavorable a new situation would have to be met. An official intimated that the United States would continue its military operations to safeguard citizens and its territory and continue to pursue bandits when there is hope of capture. Even should Carranza disclaim any hostile intention the border patrol will be maintained at the strength contemplated while there is any danger from bandits. It is also insisted that Mexico must establish military control of its northern states to make raiding into the United States impossible.

(By Associated Press.) EL PASO, June 29.—Twenty-three negro troopers captured by Mexicans at Carrizal and confined in the penitentiary at Chihuahua City, accompanied by Lem. H. Spillsbury, the Mormon civilian scout, were brought to the border at noon today and turned over to American army officers. A shout of laughter rose from thousands of Mexicans at Juarez when they saw the prisoners clad in the scantiest nondescript garb. One man wore a shirt with a towel encircling his waist and some wore only trousers. Spillsbury was dressed in white duck and appeared anxious. The troopers looked worn and drawn from their experiences in prison.

(By Associated Press.) WASHINGTON, June 29.—The Senate today approved and sent to the White House the conference report on the Hay resolution authorizing the president to draft into the federal service guardsmen taking the oath.

24,000 MEXICANS SURROUND PERSHING

Enveloping Movement of Enemy Progresses Steadily in a Menacing Manner

(By Associated Press.) COLUMBUS, N. M., June 29.—According to reports 10,000 Carranzistas have mobilized at Bustillo, 12,000 at Villa Ahumada and 2000 at Guzman, while Gen. Calles is moving a large body toward the Sonora-Chihuahua front. If this should prove true the enveloping movement of Mexicans around Pershing's army is becoming pronounced.

LATIN MINISTERS URGE MEDIATION

(By Associated Press.) WASHINGTON, June 29.—Minister Calderon of Bolivia and Minister Zaldivar of San Salvador renewed their efforts today to learn whether the United States is willing to entertain an offer of mediation in the Mexican affair, when they called on Secretary Lansing. Again they were told the United States could not entertain any thought of mediation in the absence of a statement from Carranza with reference to his attitude toward the United States punitive expedition in Mexico.

GUARDSMEN CROSS THE RIO GRANDE

(By Associated Press.) COLUMBUS, N. M., June 29.—For the first time since mobilization guardsmen crossed into Mexico on military service today. Three motor trucks filled with New Mexico troops were dispatched to Gen. Pershing's line of communication to aid in guarding.

WATER FRONT LOTS OPEN FOR SALE

VALUABLE PRIVILEGES AT THE NORTHERN RAILROAD CENTER OPEN TO HIGHEST BIDDERS

(By Associated Press.) SEWARD, Alaska, June 29.—A large part of the water front of Seward is to be thrown open for commercial purposes by the United States government and arrangements have been completed by Andrew Christensen, manager of the Land Department of the United States railway, to make the necessary leases. The land is part of the two-mile water front of the city, but not including that portion reserved by the government for the federal coal and commercial docks and terminals. The government railway acquired the land when it purchased the holdings of the Alaska Northern railway. It is to be surveyed and subdivided into suitable tracts for warehouses, fishing plants, lumber yards and factory sites. A spur track is to be built along the beach to provide adequate connection with the government docks and terminals. The leases are to include the privilege to construct private docks in conjunction with warehouses and factories, but these will call for a higher rental because it will virtually permit competition with the government docks. Applications for a cold storage plant for halibut, a lumber yard and warehouses for an importing firm already have been filed.

MONSTER AIRSHIP MAKING ITS TRIAL

CARRIES CREW OF 30 MEN AND TRAVELS AT THE RATE OF 50 MILES AN HOUR

(By Associated Press.) BERNE, Switzerland, June 29.—People living along the Swiss border of the lake of Constance have been greatly surprised over the movements of the new monster airship, much larger than all other Zeppelins, that has been making trial trips over the lake. The length of this ship is said to be 240 yards, or almost double that of other Zeppelins. The cubic contents is even more than double, 54,000 cubic meters instead of 20,000, and the number of the gondolas is four instead of two. These gondolas are said to be armed with guns, machine guns, and a new kind of air torpedo. Despite its huge bulk the ship gives the impression of fish-like slenderness. The steering gear forms an exact cross. The motors are 3,000, 4,000 horsepower, able to give the airship a speed of 90 kilometers an hour. To avoid breakdowns the motors are in double number. The crew is said to be 30 to 40 men. The ship can reach a height of three to four miles.

PYRAMID LAKE DAM

Water sufficient to irrigate from 25,000 to 30,000 acres of land will be conserved by the new irrigation dam which will probably be erected this year on the Truckee river in the Pyramid Lake Indian reservation, according to Supt. J. D. Oliver of the agency, who is in Reno today.

SILVER PEAK LITIGATION

Attorney Sam Platt returned last night from New York, where he completed negotiations for the final settlement of the famous Silver Peak litigation whereby judgments will be entered in favor of the company in both the states and federal courts.—Reno Gazette.

WILLIAM STOKER BLOWS HEAD OFF WITH SHOTGUN

William Stoker committed suicide yesterday afternoon near Lovelock by shooting himself with a shotgun at the Stoker ranch near that place. The act was accomplished by Stoker placing the barrel of a pump-gun in his mouth and pulling the trigger. He was about 30 years of age and the youngest son of H. Stoker, formerly commission and a prominent rancher of the Lovelock valley.

Sentiment On The Border Shows But Little Change

(By Associated Press.) EL PASO, June 29.—Release of the twenty-three American prisoners held at Chihuahua, as demanded by the president, has been agreed to by Mexican authorities and the prisoners left for this point last night under heavy guard, expecting to reach here by 10 o'clock. The men left Carrizal surrounded by a double guard. Reports from Washington state that a crisis has been averted temporarily, but there is no indication that the situation has been bridged, since the main issue, after the surrender of the prisoners, remains the threat of General Trevino that Gen. Pershing's troops must not move east, west or south without inviting a state of war. This is the meat in the cocoon that the diplomatic representatives must masticate before the trouble is digested. No one here in authority thinks there is the slightest chance of avoiding hostilities, as the breach was allowed to widen to such an extent that it seems almost impossible to

hew a way through the many complications arising from the bad state of mind engendered by events of the past week. In the first place Carranza must declare himself in unmistakable terms regarding overtures he is alleged to have made to Villa to unite his forces with the de facto troops for the purpose of waging war against the United States. There is no doubt but that concerted action was proposed if not definitely arranged between the rival factions of the Mexican government. Carranza will be kept busy disavowing the acts of his subordinates, especially the notice from the governor of Yucatan that a state of war actually existed between that state and the United States. This notice was formally served on the commander of the Annapolis with a warning to remove all American citizens from that state, so there cannot be any repudiation of the official warning. It is not believed that any permanent peace overtures can be entertained, so long as Gen. Trevino is maintained in command of the northern border, as the crux of the situation centers

TODAY AND A YEAR AGO

Table with 3 columns: Time, 1916, 1915. Includes Official readings of the thermometer by the United States observer at Tonopah for 5 a.m., 9 a.m., 12 noon, 2 p.m., and Relative humidity at 2 p.m. today, 13 per cent.

10,000 TAKEN BY RUSSIANS

(By Associated Press.) PETROGRAD, June 29.—Russian troops fighting in Volhynia and Galicia captured 221 officers and 10,000 men, says an official report to the War office. The statement says the Russians inflicted a great defeat on the Teutonic troops between the Dnester and Pruth rivers, capturing three lines of trenches.

FOUND GUILTY HIGH TREASON

(By Associated Press.) LONDON, June 29.—Sir Roger Casement, after a dramatic trial lasting three days, was found guilty this afternoon of high treason and sentenced to death. He was accused of having fomented the recent Irish rebellion in conspiracy with Germany.

RAILROAD FLAG DAY

The Tonopah & Goldfield railroad has erected a 50-foot iron flagstaff at the southernmost corner of the depot and will unfurl to the breeze of July Fourth a monster flag, which will be displayed hereafter on all holidays.

White Caps Cuts Ledge 310 Feet

White Caps was in demand this morning soon after the opening of the call in San Francisco and before the close at noon over 18,000 shares changed hands at rapidly advancing figures. The stock was quoted yesterday at 18 bid and 19 asked, but this morning the inquiry sent the price up with every flash from San Francisco. The last sale of the morning was at 25 and closed 23 bid. The sudden activity was due to a message from Superintendent J. A. Cole at Manhattan stating that the ledge had been cut on the 310 level. P. S. Booth, the secretary, was first apprised of the strike and he communicated the news to the numerous stockholders, who have been waiting expectantly for the announcement, which establishes the continuance of the rich orebody to 100 feet deeper than had existed. In the minds of the management there had not been the slightest doubt of proving the continuity of the vein, but until this was established and actually demonstrated by the presence of ore, there always remained a long chance that a fault might have interfered with the regular formation. The ledge was cut in the east drift. Since the company has demonstrated the feasibility of treating the ore by a process that extracts 90 per cent of the assay values, there is no longer any hesitation about predicting that the management will immediately proceed with the installation of a reduction plant at the mine. The development of today proves up a wonderful tonnage and it is expected that within the next five or six days the formation will be encountered in the west drift.

ORPET ADMITS HE KNEW OF KILLING

(By Associated Press.) WAUKEGAN, Ill., June 29.—The Orpet examination continued today with the cross examination which questioned the happenings following the return to Madison after leaving Marian Lambert dead in the woods. Defendant denied he was up early to see from the papers whether the girl was dead or alive. He admitted he believed he knew the girl was dead when he left the woods. Coming to the death scene witness became confused for a moment. He described her body in the snow—her right hand to her chin or lips. "Did this hand have a glove on it?" asked Mr. Joslyn. "I can't be sure whether it did or not." Mr. Joslyn was about to ask another question when Orpet exclaimed: "Yes, I am sure there was no glove." "Ah, yes," said the lawyer sarcastically, "you remember now that you saw powder in the lines of her hand?" "Yes, I remember it by that," replied the witness.

VICTORY CLAIMED BY BOTH SIDES

(By Associated Press.) PARIS, June 29.—After a violent bombardment lasting the entire day the Germans attacked the French positions northwest of Thiaumont, in the Verdun sector, and were repulsed with heavy losses. The machine gun and certain fire are declared to have devastated the attackers, according to an official message. (By Associated Press.) BERLIN, June 29.—Fighting on the western front attained considerable violence, but attacks of the British and French were repulsed everywhere.

DEAD HERO LIVED IN THIS STATE

(By Associated Press.) CAPTAIN BOYD OF CARRIZAL FAME BECAME A CITIZEN OF NEVADA IN 1903. Captain Charles T. Boyd of the Tenth United States Cavalry, who was killed in the recent battle at Carrizal, Mexico, was a citizen of Nevada. Captain Boyd acquired a residence in this state during his detail as commandant of the University of Nevada some years ago and has ever since claimed this state as his legal residence. Captain Boyd was admitted to the bar of the Supreme court of Nevada September 5, 1903. Chief Justice Norcross and Captain Boyd have kept up a correspondence for many years. A letter written by the captain to Judge Norcross, dated February 24, 1911, reads in part as follows: "In case Nevada sends troops to join in the invasion of Mexico, please put in an application to proper persons for me to go along. Would not Nevada be able to send a squadron of cavalry? If so, I want to join." CHRIS McCARTHY motored out to Smoky Valley early this morning.

IRON JAWED FAMINE CLOSING ON GERMANY

(By Associated Press.) MAASTRICHT, Netherlands, June 29.—So great is the scarcity of rubber in Germany that \$20 can be earned by the smuggling of a kilogram of it across the frontier. A sign of the pitiable state of things in some sections of Belgium is found in the fact that manufacturers in Charleroi region are having potato peelings bought up everywhere. Out of these a sort of soup is made for the factory hands and their families.

FRANK CAVANAUGH returned last evening by auto from a short trip to San Diego, where he left his wife and daughter for the summer.
