GERMANS IN FULL RETREAT

RUSSIAN STEAM ROLLER IS SPEEDING UP IN VOLHYNIA

WHOLE FRONT GIVES WAY BEFORE CRUSHING ATTACK AND WESTWARD MOVEMENT IN SWING

Berlin Admits the Withdrawal Owing to Russian Pressure, and States a New Line of Defense Has Been Selected--Triple Defeat For the Kaiser's Troops Causes a Westward Movement Along the Whole Front--Disaster Now Confronts the Germans.

(By Associated Press.)
LONDON, July 7.—A great German retreat all along the front from Riga to Volhynia is reported. The statement, through an unofficial news agency comes from Petrograd through Rome. It is declared a triple defeat for the Germans in the Riga, Kolki and Baranovichi sectors caused them to begin a westward movement along the whole front.

A great battle is raging along virtually the whole front of the British offensive in northern France, when the British today launched a new attack against Albert. Important tactical successes

were gained. The Germans succeeded in occupying 300 yards of ground lost in the earlier British drives.

The French both north and south of the Somme are resting on ground won in last week's advance. There is a lull in infantry fighting at Verdun, but the artillery continues active.

(By Associated Press.)
BERLIN, July 7.—The salient of the German line in Volhynia projecting towards Czartorysk has been abandoned under superior pressure from the Russians and a new line of defense selected, an official bulletin to the war office announces.

RUSSIA AND JAPAN ARRANGE ALLIANCE

Each Agrees to Sustain the Other in Defensive Measures and Trade Aggression

(By Associated Press.)
TOKIO, July 7.—The foreign office today announced the "substance of the Russo-Japanese convention signed at Petrograd." By the first clause Japan binds itself not to participate in any arrangement or political combination against Russia. Russia pledges itself to a similar arrangement.

Second: In the event of territorial rights and special interests in the far east of either one of the contracting parties which is recognized by the other, is menaced, both countries consult on measures of assistance, safeguarding and defense.

The office says: "The convention puts effectual emphasis upon the extension of the Anglo-Japanese alliance based upon the territorial integrity of China, whose open door and integrity are now endangered. American trade interests are in nowise affected."

GERMAN TRENCHES TAKEN BY BRITISH

Front of Over 1000 Yards in the Somme Region Seized and Offensive Continues

(By Associated Press.)
LONDON, July 7.—The capture of a German trench extending over a front of 1000 yards east of Laboiselle, in the Somme region, is officially announced by the war office. The British also resumed the offensive in the sectors east of Albert at dawn.

Meanwhile the Germans had launched heavy attacks on the English trenches near Ancre, where violent fighting is progressing and the British are making gains.

TIDE HAS TURNED IN LABOR MARKET

APPLICANTS FOR WORK COMING FROM CALIFORNIA IN THEIR OWN AUTOMOBILES

The dearth of labor felt a few weeks ago in Tonopah is beginning to be less stringent, as the wages paid here appear sufficiently attractive to bring in many from sections where a lower scale obtains. Recently two bricklayers were given jobs on the Sand Grass after having traveled over a considerable area in their autos in search of lucrative employment. These men were not of the drifting class as they evidently had saved money while working elsewhere, since they owned their own autos and, soon after securing work, brought their families. On the way to Tonopah one of the men encountered a windfall by running across another motorist whose machine had gone dead and had to be towed to the nearest garage from Deep Springs. For this service the sum of \$25 was charged and the stranded motorist thought he got off cheap at that.

Two more men found work on the Tonopah Extension after having remained at Ely for a month or more. They also were of the thrifty class and owned an auto in which they rode over to Tonopah to investigate labor conditions. As soon as they found they could make more here they went to work and sent for their families, who arrived in Tonopah last week.

BUTLER HALL AND LOTS SOLD TODAY

BUILDING CONTAINING FIRST LODGEROOMS IN TONOPAH CHANGES HANDS

This morning Jim Butler closed the sale of the building known as Butler hall and the lots adjoining to Lundee Brothers for a consideration that was not mentioned. The ground floor will be remodeled soon to adapt it for the business of the Lundees, but the buyers have not decided what they will do with the upper floor, although it is probable it will be continued as a meeting place for fraternal orders since it is the only hall in the east end of town. The site is on the corner of Everett avenue and Main street.

The following was the most ambitious effort of the early days of the camp and, many years after it was finished, the pioneers pointed to the achievement with visible pride. The structure was erected by Jim Butler, who realized the necessity for providing office accommodations for the scores of mining and professional men coming to the new camp. Therefore he planned a two story building to be devoted to office uses, but before the carpenters reached the upper floor the fraternal orders, whose numbers were swelling rapidly, requested that the second floor be turned into a hall where they might hold their meetings and entertain their friends. This was done and for many years the societies kept the hall alive seven nights a week. The leading trades allied with the American Federation of Labor also held forth.

The building was erected in 1904 at an estimated cost of \$10,000. Labor was high and the lumber had to be hauled by teams from Sodaville. The ground floor offices were leased to some of the best known lawyers in the state, who practiced here during the early boom days.

JUDGE MARK R. AVERILL is expected to return about the 15th of July, when the District court will begin its fall session.
