ONE ARMED MEN GROWING COMMON

NUMBERS DUE TO IMPROVED SURGERY PREVENTING LOSS OF LIFE

(By Associated Press.)

PARIS, August 2.—One armed and one legged men are now so common as to raise a question as to why they are so numerous.

Dr. Auguste Broca, while admitting that the changed conditions of warfare and the scale of the operations must necessarily multiply the number of amputated limbs, claims that a considerable part of the increase in the proportion of survivors who lack a member is due to the progress of surgery since the war of 1870; in that conflict nearly all the amputated men died of purulent infection; in this war, thanks to progress in medical science, they are nearly all saved, he says.

In consequence, the demands upon manufacturers of artificial limbs are out of all proportion to anticipations. Dr. Broca considers that the constructors of artificial substitutes for members or parts of members have also made great progress. Before the war a really efficient artificial member was an object of luxury; under the stress of circumstances, manufacturers have to a great extent obliterated the distinction between the rich man's and the poor man's apparatus. Not that there has been any modification in prices; none of the efficient models is cheap. American systems are much in favor but are not universally applicable because they do not adapt themselves to the transitory period in which an amputated member must adapt itself somewhat to the apparatus.

COLLEGE SPORTS ARE MONEYMAKING

NET PROFITS OF FOUR UNIVERSITIES RUN CLOSE TO QUARTER MILLION

NEW YORK, August 1.—According to an authority who keeps close tabs upon the receipts and expenses of major college athletics there is also some money in college baseball and football. The net profits of Harvard, Yale, Princeton and Pennsylvania eleven last season is set at a trifle over \$240,000, while the nines showed a profit of something over \$30,000. The fact that the football teams, playing less than a third as many games as the baseball nines, were able to pile up about eight times the profits of the diamond combinations shows that the gridiron game still holds first place as a money maker in College sports.

RETURNED FROM THE HUNT

The hunting party consisting of Messrs. Campbell, Cowden, Kelly, Currie, Goodall and Master George Fee returned last evening from Fish Lake valley. They report fisherman's luck.

Racing With Swallow Shows Aeroplane Is Much Faster

LONDON, August 1.—A thrilling race between an officer of the flying corps in an aeroplane and a swallow caused him to doubt whether their reputed flight of 200 miles an hour was correct. "I was up in the air last week one day when I observed a swallow flying high in front of me," he said. "I resolved to test its speed. The bird dived; so did I. It went up, and I followed. We were at it hammer and tongs for a quarter of an hour, diving, rising and racing. And I gained on it foot by foot. Finally one of the wires on my machine struck the bird and it went down. I was sorry and felt selfish thus to take the bird's life for sport."

GIPSIES MUST GO OUT OF HUNGARY

GOVERNMENT ORDERS A ROUND UP AND DRAFTS MEN INTO THE ARMY

BUDAPEST, August 1.—The government has taken new steps to solve the gypsy problem, which has always been a serious one in Hungary, by ordering the rounding up of every roving band in the kingdom. Men of military age will be sent into the army, all usable horses will be confiscated and the women and undrafted men put to work. No one knows how many hundreds of thousands of these nomads have escaped military duty up to date, but the number is believed to be very large.

CUTTING A STATION

Capt. Case, superintendent of the West Tonopah, has a force busily engaged in cutting a pumping station and installing pumps to take care of the water encountered while sinking the shaft. The water is considered a very promising indication and is not coming in at a rate that will make it at all difficult to handle.

AMUSEMENTS

BUTLER THEATER

Robert Warwick, star of a hundred or more photoplay features, will be seen this evening at the Butler in a five reel World production, "Human Driftwood," a story in which he brings into play all the great dramatic force which has so vividly characterized his work on the screen. As a rich young bachelor, who becomes infatuated with a beautiful but evil dancer, and then as a leader among reformers, Mr. Warwick is given an opportunity to play two distinct and different characters with that ease of manner and grace of execution which has caused him to be recognized as a towering figure among photoplay actors of the day. The meteoric rise of Mr. Warwick, who turned to the screen after losing his voice, has been phenomenal. Supporting Mr. Warwick is Frances Nelson, a new addition to the World list of stars. Included in tonight's program is Napoleon and Sally, the educated chimp, in a one reel animal comedy. Tomorrow, Marie Doro in "The Heart of Nora Flynn," one of the best pictures that has been produced in some time on the Paramount program, and Pathe Weekly.

LECTURE ON SOCIALISM

Fred. D. Warren, editor of the "Appeal to Reason," will be heard in Tonopah at the Airdome tomorrow evening. Mr. Warren is one of the best speakers in the party's list of orators.

MRS. JAMES F. DENNIS and little grand-daughter, arrived from Reno this morning and continued on to Goldfield, where she will visit her daughter, Mrs. Jack Aylward.

MRS. C. F. PEART left for San Francisco this morning.

Don't forget the complimentary prize dance at the Airdome this evening. Ten dollars in prizes. Adv
